Causes and Consequences of Human Migration
An Evolutionary Perspective

MICHAEL H. CRAWFORD
University of Kansas

BENJAMIN C. CAMPBELL
University of Wisconsin-Milwaukee
Contents

List of contributors ........................................ Page viii
Preface ......................................................... xiii

1 Perspectives on human migration: introduction .............................. 1
   BENJAMIN C. CAMPBELL AND MICHAEL H. CRAWFORD

Section 1
Theory ......................................................... 9

2 Genetic evidence concerning the origins and dispersals of modern humans ................................. 11
   MARK STONEKING
3 The biology of human migration: the ape that won't commit? ..................... 21
   JONATHON C. K. WELLS AND JAY T. STOCK
4 Evolutionary basis of human migration ........................................ 45
   BENJAMIN C. CAMPBELL AND LINDSAY BARONE
5 Evolutionary consequences of human migration: genetic, historic, and archaeological perspectives in the Caribbean and Aleutian Islands ......................... 65
   MICHAEL H. CRAWFORD AND DIXIE WEST
6 Kin-structured migration and colonization .................................... 87
   ALAN G. FIX
7 The role of diet and epigenetics in migration: molecular mechanisms underlying the consequences of change ..................... 101
   M. J. MOSHER
Section 2
Geography and migration

Africa
8 Population structure and migration in Africa: correlations between archaeological, linguistic, and genetic data
J. B. HIRBO, A. RANCIARO, AND S. A. TISHKOFF
9 Human migrations in North Africa
PHILIPPE LEFÈVRE-WITIER
10 Identity, voice, community: new African immigrants to Kansas
JOHN M. JANZEN
11 The African colonial migration into Mexico: history and biological consequences
RODRIGO BARQUERA AND VÍCTOR ACUÑA-ALONZO

Europe
12 Demic expansion or cultural diffusion: migration and Basque origins
KRISTIN L. YOUNG, ERIC J. DEVOR, AND MICHAEL H. CRAWFORD
13 Consequences of migration among the Roma: immunoglobulin markers as a tool in investigating population relationships
MOSES S. SCHANFIELD, RAQUEL A. LAZARIN, AND ERIC SUNDERLAND
14 Migration, assimilation, and admixture: genes of a Scot?
K. G. BEATY
15 Mennonite migrations: genetic and demographic consequences
PHILLIP E. MELTON

Asia
16 Human migratory history: through the looking-glass of genetic geography of Mycobacterium tuberculosis
IGOR MOKROUSOV
17 Peopling the Tibetan plateau: migrants, genes, and genetic adaptations
MARK ALDENDERFER
18 Migration, globalization, instability, and Chinese in Peru
FELIX MOOS
Oceania

19 The great blue highway: human migration in the Pacific 388
ELIZABETH MATISOO-SMITH

Americas

20 Migration of pre-Hispanic and-contemporary human
Mexican populations 417
MÁRÍA DE LOURDES MUÑOZ, EDUARDO RAMOS,
ALVARO DÍAZ-BADILLO, MARÍA CONCEPCIÓN MORALES-
GÓMEZ, ROCÍO GÓMEZ, AND GÉRALDO PÉREZ-RAMIREZ

21 A review of the Tupí expansion in the Amazon 436
LILIAN REBELLATO AND WILLIAM I. WOODS

22 Molecular consequences of migration and urbanization
in Peruvian Amazonia 449
ANNE JUSTICE, BARTHOLOM EW DEAN, AND MICHAEL
H. CRAWFORD

23 Migration in Afro-Brazilian rural communities: crossing
historical, demographic, and genetic data 473
CARLOS EDUARDO GUERRA AMORIM, CAROLINA
CARVALHO GONTIJO, AND SILVIENE FABIANA DE OLIVEIRA

Caribbean

24 Indentured migration, gene flow, and the formation
of the Indo-Costa Rican population 499
LORENA MADRIGAL, MONICA BATISTAPAU, LOREDANA
CASTRÌ, FLORY OTÁROLA, MWEENZA BLELL, ERNESTO RUIZ,
RAMIRO BARRANTES, DONATA LUISELLI, AND
DAVIDE PETTENER

25 Causes and consequences of migration to the Caribbean
Islands and Central America: an evolutionary success story 512
CHRISTINE PHILLIPS-KRAWCZAK

Section 3

Overview 525

26 Why do we migrate? A retrospective 527
DENNIS H. O’ROURKE

Index 537
