
10th Workshop on E-Business, WEB 2011
Shanghai, China, December 4, 2011
Revised Selected Papers
Table of Contents

Part I: Social Networks, Business Intelligence and Social Computing

Social Networks and Social Computing

Mining Implicit Social Network with Context-Aware Technologies ................. 3
   Eun Jung Yoon and Wei Zhou

Using Social Network Classifiers for Predicting E-Commerce Adoption .......................... 9
   Thomas Verbraken, Frank Goethals, Wouter Verbeke, and Bart Baesens

Exploring Innovation in the Context of Employee Relationship and IT-Enabled Knowledge Sharing ........................................... 22
   Jianping Peng, Guoying Zhang, Zhengping Fu, and Yong Tan

The Study of Construction and Analysis Method of Social Network Model Based on Cooperator Relationship ........................................... 37
   Xiang Chen and Ning Gao

Are Amazon.com Online Review Helpfulness Ratings Biased or Not? .................. 46
   Yun Wan and Makoto Nakayama

A Social Network Based Analysis of Deceptive Communication in Online Chat ............................... 55
   Jinie Pak and Lina Zhou

Research on Financial Super-Network Model Based on Variational Inequalities ........................................... 66
   Xuan Liu, Jia Li, Zhigao Chen, and Pengzhu Zhang

On the Volatility of Online Ratings: An Empirical Study .......................... 77
   Christopher S. Leberknight, Soumya Sen, and Mung Chiang

Enterprise Web Mining, Web Analytics, and Business Intelligence

Supporting Patent Maintenance Decision: A Data Mining Approach ............ 87
   Chih-Ping Wei, Hung-Chen Chen, Ching-Tun Chang, and Yen-Ming Chu
Neural Network Analysis of Right-Censored Observations for Occurrence Time Prediction .................. 100
   Young U. Ryu, Jae Kyeong Kim, Kwang Hyuk Im, and Hankuk Hong

Impact of Recommendations on Advertising-Based Revenue Models .... 110
   Philipp Bodenbenner, Markus Hedwig, and Dirk Neumann

Exploration of a Multi-dimensional Evaluation of Books Based on Online Reviews: A Text Mining Approach ......................... 119
   Tianxi Dong, Matti Hamalainen, Zhangxi Lin, and Binjie Luo

The Investigation of Online Reviews of Mobile Games .............. 130
   Shu-Chun Ho and Yu-Chung Tu

Part II: Economics and Organizational Implications of Electronic Markets

Online Security Informatics and Privacy Issues

Do Hacker Forums Contribute to Security Attacks? ................ 143
   Qiu-Hong Wang, Wei T. Yue, and Kai-Lung Hui

A Trust Perspective to Study the Intentions of Consumers to the Group Buying .......................... 153
   Deng-Neng Chen, Yi-Shan Yang, and Yi-Cheng Ku

Effects of Borrower-Defined Conditions in the Online Peer-to-Peer Lending Market .............. 167
   Jiaxian Qiu, Zhangxi Lin, and Binjie Luo

Cognitive Elaboration on Potential Outcomes and Its Effects on Employees’ Information Security Policy Compliance Intention—Exploring the Key Antecedents .................. 180
   Xue Yang, Wei T. Yue, and Choon Lin Sia

Economics of E-Commerce

Analyzing Monetization Models for the Digital Content Services: Channel Ownership and Royalty Contracts .............. 195
   Yung-Ming Li, Yuan Fang, and Bih-Huang Jin

   Jhih-Hua Jhang-Li

Parallel Importation: An Empirical Investigation of Online Unauthorized Distribution Channels for Luxury Fashion Goods .... 216
   Kexin Zhao, Xia Zhao, and Jing Deng

XIV Table of Contents

Attention-Aware Collaboration Modeling .................................................. 347
  Shaokun Fan and J. Leon Zhao

Human–Software Agent Negotiations: An Experimental Study .................. 356
  Rustam Vahidov, Gregory E. Kersten, and Raafat Saade

An Approach for Multiple Attribute Group Decision Making Based on
Information Axiom ..................................................................................... 368
  Jie Lin and Houxing You

Banking Event Modeling and Simulation in Scenario-Oriented Stress
Testing .......................................................................................................... 379
  Daning Hu, J. Leon Zhao, and Zhimin Hua

Supply Chain and Distributed Systems

Hierarchical RFID Tag Ownership and Transfer in Supply Chains .......... 390
  Wei Zhou, Eun Jung Yoon, and Selwyn Piramuthu

Negotiation and Auction Mechanisms: Two Systems and Two
Experiments .................................................................................................. 399
  Gregory E. Kersten, Pierpaolo Pontrandolfo, Rustam Vahidov, and
  Dmitry Gimon

Research on the Hybrid Push/Pull Production System for Mass
Customization Production ........................................................................... 413
  Jie Lin, Xing Shi, and Yu Wang

A Study of Users’ Intention to Voluntarily Contribute Real-Time
Traffic Information through Mobile Devices ........................................... 421
  Chen Zhu, Kai Kwong Wat, Chao Ren, and Stephen Shaoyi Liao

The Effects of Application Discoverability on User Benefits in Mobile
Application Stores ....................................................................................... 429
  Jaeki Song, Junghwan Kim, and Donald R. Jones

Author Index ............................................................................................... 443
