CONTENTS

Preface 20

Part 1 Understanding Quality Concepts 25

Chapter 1 DIFFERING PERSPECTIVES ON QUALITY 26
Recognizing Different Perspectives on Quality 26

■ A CLOSER LOOK AT QUALITY 1-1: What's in an Airport? 27

What Is Quality? 27
Product Quality Dimensions 27
Service Quality Dimensions 29
Why Does It Matter That Different Definitions of Quality Exist? 30

Differing Functional Perspectives on Quality 31
A Supply Chain Perspective 31
An Engineering Perspective 32
An Operations Perspective 33
A Strategic Management Perspective 34
■ QUALITY HIGHLIGHT 1-1: Quality Strategy at GE 36
A Marketing Perspective 37
A Financial Perspective 38
The Human Resources Perspective 40
Is Quality Management Its Own Functional Discipline? 41

Three Spheres of Quality 41
■ QUALITY HIGHLIGHT 1-2: Federal Express Corporation 43

Other Perspectives on Quality 43
The Value-Added Perspective on Quality 43
Cultural Perspectives on Quality 44

Arriving at a Common Understanding of Quality Using a Contingency Perspective of Quality 44
Summary 44
Key Terms 45
Discussion Questions 45

CASE 1-1: FedEx: Managing Quality Day and Night 46
CASE 1-2: Granite Rock Company: Achieving Quality through Employees 47

Chapter 2 QUALITY THEORY 49
What Is Theory? 49
Is There a Theory of Quality Management? 51
■ A CLOSER LOOK AT QUALITY 2-1: Quality and Management Fads 51

History of Quality Management 52
Leading Contributors to Quality Theory: W. Edwards Deming 52
Deming's 14 Points for Management 54
Chapter 3  GLOBAL SUPPLY CHAIN QUALITY AND INTERNATIONAL QUALITY STANDARDS  75

Managing Quality for the Multinational Firm (MNF)  76

- QUALITY HIGHLIGHT 3-1: Supply Chain Quality in the Global Context  79

Quality Improvement: The American Way  80

The Malcolm Baldrige Award  80

- A CLOSER LOOK AT QUALITY 3-1: Who Was Malcolm Baldrige?  85

The Baldrige Process  86
Baldrige Scoring  89

- QUALITY HIGHLIGHT 3-2: Honeywell Federal Manufacturing & Technologies  89

Being a Baldrige Examiner  90
State Awards  90

Quality Improvement: The Japanese Way  91

Deming Prize  91
Other Japanese Contributions to Quality Thought  92
Lean Production  92

- QUALITY HIGHLIGHT 3-3: The Humbling of Toyota  92

Japanese Total Quality Control (TQC)  93

Quality Improvement: The European Way  95

European Quality Award  95
ISO 9000:2008  96
Selecting a Registrar  99
The ISO 9000:2008 Process  99
ISO 14000  100

Quality Improvement: The Chinese Way  102

Does Chinese Quality Management Exist?  102

- A CLOSER LOOK AT QUALITY 3-2: Outsourcing Woes  103

Are Quality Approaches Influenced by Culture?  104

Summary  105
Key Terms  105
Discussion Questions  105

► CASE 3-1: Denver International Airport Becomes ISO 14001 Certified  106
► CASE 3-2: Wainwright Industries: An Entirely New Philosophy of Business Based on Customer Satisfaction and Quality  107

Part 2  Designing and Assuring Quality  109

Chapter 4  STRATEGIC QUALITY PLANNING  110

Strategy Content  110

The Importance of Time in Quality Improvement  110

- A CLOSER LOOK AT QUALITY 4-1: Problems with Measuring Educational Performance  112

Leadership for Quality  112
Leadership Dimensions  113
Chapter 6 THE VOICE OF THE MARKET 159

What Do We Mean by the Voice of the Market? 159

Gaining Insight through Benchmarking 160

Process Benchmarking 161

Financial Benchmarking 161

Performance Benchmarking 161

Product Benchmarking 162

Strategic Benchmarking 162

QUALITY HIGHLIGHT 6-1: Pal’s Sudden Service 162

Functional Benchmarking 163

Purposes of Benchmarking 163

Difficulties in Monitoring and Measuring Performance 164

Commonly Benchmarked Performance Measures 166

Why Collect All These Measures? 168

Key Business Factors 168

Business Process Benchmarking 168

Robert Camp’s Business Process Benchmarking Process 169

Leading and Managing the Benchmarking Effort 171

QUALITY HIGHLIGHT 6-1: Benchmarking at Intuit 171

Training 172

QUALITY HIGHLIGHT 6-2: The Legal Environment of Benchmarking 172

Baselining and Reengineering 174
Chapter 7 QUALITY AND INNOVATION IN PRODUCT AND PROCESS DESIGN 182

Designing Products for Quality 182

The Design Process 183

- QUALITY HIGHLIGHT 7-1: A Turnaround at Kellogg’s Cereals: Driven by Design 185

Quality Function Deployment (QFD) 187

Technology in Design 191

Other Design Methodologies 194

- A CLOSER LOOK AT QUALITY 7-1: Ski Design 195

Product Families and the Product Life Cycle 196

Complementary Products 196

Designing Products That Work 196

- A CLOSER LOOK AT QUALITY 7-2: It Takes a Scientist to Design a Winter Coat 197

Design for Manufacture Method 198

Design for Maintainability 199

Designing for Reliability 200

- QUALITY HIGHLIGHT 7-2: Designing Reliable Luxury at Vuitton 200

Reliability Analysis Tools 201

Failure Modes and Effects Analysis 201

How FMEA Works 202

Fault-Tree Analysis 202

Failure Modes, Effects, and Criticality Analysis 204

Product Traceability and Recall Procedures 204

Environmental Considerations in Design 205

Summary 206

Key Terms 206

Discussion Questions 206

Problems 207

- CASE 7-1: Keeping Apple’s iPhone Competitive 209

- CASE 7-2: Nucor Corporation: Producing Quality Steel by Stressing Sound Management Practices 210
Chapter 8 DESIGNING QUALITY SERVICES 211

Differences between Services and Manufacturing 212
  Internal versus External Services 213
  Voluntary versus Involuntary Services 213

How Are Service Quality Issues Different from Those of Manufacturing? 213
  ■ A CLOSER LOOK AT QUALITY 8-1: Service Warranties: Profitable or a Rip-off—You Decide 214

How Are Service Quality Issues Similar to Manufacturing? 215

What Do Services Customers Want? 215
  ■ QUALITY HIGHLIGHT 8-1: Ritz-Carlton Hotels 216

SERVQUAL 217
  Expectations 217
  Perceptions 219
  Gap Analysis 220

Assessing Differences in Expectations and Perceptions by Using the Differencing Technique 221

Designing and Improving the Services Transaction 224
  Services Blueprinting 224
  Moments of Truth 225
  ■ A CLOSER LOOK AT QUALITY 8-2: Quality in Health Care 226

Poka-yoke 227

The Customer Benefits Package 228

Service Transaction Analysis 229

Improving Customer Service in Government 232

Quality in Health Care 233

Supply Chain Quality in Services 234

A Theory for Service Quality Management 234
  Summary 235
  Key Terms 236
  Discussion Questions 236
  Problems 237
  ▶ CASE 8-1: Yahoo! Designs Quality Services with Customers in Mind 240
  ▶ CASE 8-2: UPS: Delivering the Total Package in Customer Service 241

Chapter 9 MANAGING SUPPLIER QUALITY IN THE SUPPLY CHAIN 243

The Value Chain 243
  The Chain of Customers 244
  Managing the Supply Chain 244

Supplier Alliances 244
  ■ A CLOSER LOOK AT QUALITY 9-1: Supply Chains and Terrorism 247
Part 3 Implementing Quality 261

Chapter 10 THE TOOLS OF QUALITY 262

Improving the System 262

Ishikawa's Basic Seven Tools of Quality 263

Process Maps 264

A CLOSER LOOK AT QUALITY 10-1: Extended Value Stream Mapping of Supply Chains 268

Check Sheets 270

Histograms 271

Scatter Diagrams 272

Control Charts 274

Cause-and-Effect (Ishikawa) Diagrams 274

Pareto Charts 276

The Seven New Tools for Improvement 279

The Affinity Diagram 281
The Interrelationship Digraph 283
Tree Diagrams 284
Prioritization Grid 286
Matrix Diagram 288
Process Decision Program Chart 289
Activity Network Diagram 289
Reflections on the Managerial N7 Tools 291

Other Tools for Performance Measurement 291
Spider Charts 291
Balanced Scorecards 291
Dashboards 293
Summary 293
Key Terms 293
Discussion Questions 293
Problems 294

CASE 10-1: Corporate Universities: Teaching the Tools of Quality 297
CASE 10-2: Lanier: Achieving Maximum Performance by Supporting Quality Products with Quality Services 298

Chapter 11 STATISTICALLY BASED QUALITY IMPROVEMENT FOR VARIABLES 300

Statistical Fundamentals 300
What Is Statistical Thinking? 300
QUALITY HIGHLIGHT 11-1: Statistical Tools in Action 301
Why Do Statistics Sometimes Fail in the Workplace? 302
Understanding Process Variation 302
Process Stability 304
Sampling Methods 304
Random Samples 304
Systematic Samples 304
Sampling by Rational Subgroups 304
Planning for Inspection 305
Control Plans 305

Process Control Charts 305
Variables and Attributes Control Charts 305
A Generalized Procedure for Developing Process Charts 307
Understanding Process Charts 307
\( \bar{x} \) and \( R \) Charts 309
Interpreting Control Charts 310
Using Excel to Draw \( \bar{x} \) and \( R \) Charts 315
\( X \) and Moving Range (MR) Charts for Population Data 316
Using Excel to Draw \( X \) and MR Charts 318
Median Charts 318
Using Excel to Draw Median Charts 320
\( \bar{x} \) and \( s \) Charts 320
Using Excel to Draw \( s \) and \( \bar{x} \) Charts 322
Other Control Charts 322
Moving Average Chart 322
Cusum Chart 323

Some Control Chart Concepts for Variables 323
Choosing the Correct Variables Control Chart 323
Corrective Action 325
How Do We Use Control Charts to Continuously Improve? 325
Tampering with the Process 325

Process Capability for Variables 325

A CLOSER LOOK AT QUALITY 11-1: A Justification for Meeting Standards in Software Quality 326
Population versus Sampling Distributions 326
Capability Studies 328
Ppk 330
The Difference between Capability and Stability 330

Other Statistical Techniques in Quality Management 330
Summary 331
Key Terms 332
Discussion Questions 332
Problems 332

CASE 11-1: Ore-Ida Fries 336

Chapter 12 STATISTICALLY BASED QUALITY IMPROVEMENT FOR ATTRIBUTES 338
Generic Process for Developing Attributes Charts 339
Understanding Attributes Charts 339
\( p \) Charts for Proportion Defective 339
Using Excel to Draw \( p \) Charts 341
\( np \) Charts 342
Using Excel to Draw \( np \) Charts 344
\( c \) and \( u \) Charts 344
Using Excel to Draw \( c \) and \( u \) Charts 346
Attributes Charts Summary 347
Choosing the Right Attributes Chart 347
Reliability Models 349
Series Reliability 349
Parallel Reliability 350
Measuring Reliability 351
Mean Time to Failure (MTTF) 352

A CLOSER LOOK AT QUALITY 12-1: Is Quality on the Decline? 352
Chapter 13  SIX SIGMA MANAGEMENT AND LEAN TOOLS  361

What Is Six Sigma?  361
Organizing Lean-Six Sigma  363
Packaging Lean with Six Sigma  365
DMAIC Overview  365
A CLOSER LOOK AT QUALITY 13-1: DMAIC in Action  366
Define Phase  367
Developing the Business Case  367
Project Evaluation  368
Pareto Analysis  371
Problem Definition  371
Measure Phase  371
Selecting Process Outcomes  371
FMEA  375
Verifying Measurements  375
Gauge R&R  376
Using Excel to Perform Gauge R&R Analysis  379
Analyze Phase  379
Defining Objectives  379
Identifying Xs  379
Analyzing Sources of Variation  379
Improve Phase  380
Control Phase  380
Taguchi Design of Experiments  381
Robust Design  381
Background of the Taguchi Method  382
Taguchi Definition of Quality  382
Quality Loss Function  382
The Taguchi Process  384
Using Excel to Solve Taguchi Experiments  386
Design for Six Sigma  388
Lean-Six Sigma from a Contingency Perspective  388
Summary  388
Key Terms  389
Discussion Questions  389
Problems  389
CASE 13-1: The Neiman-Marcus Cookie  394
Part 4  Forever Improving the Quality System  395

Chapter 14  MANAGING QUALITY IMPROVEMENT TEAMS AND PROJECTS  396

Why Employees Enjoy teams  397

Leading Teams for Quality Improvement  397

Employee Empowerment and Involvement  397

A CLOSER LOOK AT QUALITY 14-1: Empowerment in Action  398

Flattening Hierarchies for Improved Effectiveness  399

Team Leader Roles and Responsibilities  399

Team Roles and Responsibilities  400

Team Formation and Evolution  401

Team Rules  402

Types of Teams  402

Process Improvement Teams  403

Cross-Functional Teams  403

Tiger Teams  403

Natural Work Groups  403

Self-Directed Work Teams  403

Virtual Teams  404

A CLOSER LOOK AT QUALITY 14-2: Lessons from Effective Teams outside the Business World  404

Implementing Teams  405

Meeting Management  405

Conflict Resolution in Teams  406

Saving Quality Teams from Failure: Diagnosing Problems and Intervening Before It Is Too Late  409

Managing and Controlling Projects  409

Qualifying Projects  410

Project Charters  411

Force-Field Analysis  412

Work Breakdown Structure (WBS)  413

Identifying Precedence Relationships  413

Identifying Outcome Measures  413

Identifying Task Times  414

Activity Network Diagrams  415

Arrow Gantt Charts  418

Managing Multiple Projects  418

Summary  419

Key Terms  420

Discussion Questions  420

Problems  421

CASE 14-1: Whole Foods Market: Using Teamwork as a Recipe for Success  423
