How to Audit the Process-Based QMS

Second Edition

Dennis R. Arter, Charles A. Cianfrani, and John E. (Jack) West

ASQ Quality Press
Milwaukee, Wisconsin
Contents

List of Figures and Tables ................................................. xiii
Preface ........................................................................... xv

Part I Process-Based Auditing .......................................... 1

Chapter 1 Audit Concepts, Principles, and Requirements ...... 3
  Audit Defined .............................................................. 5
  Audit Principles ........................................................... 5
Internal Audit Requirements of ISO 9001:2008 .................. 10
Requirements for the Audit Program .............................. 10
Requirements for Follow-up on Audit Results .................. 11

Chapter 2 The Process Approach ....................................... 13
  Process Focus for Quality Management Systems .............. 13
  The Process Approach as a Concept ............................... 15
  The Processes of the Quality Management System ............ 17
  Process Interactions .................................................... 21
  Improving the Processes of the Quality Management System 23
  The Key Processes Concept .......................................... 23
  Process Champions and Process Owners ......................... 23
  The Processes for Product Realization ........................... 24
  Summary .................................................................. 25

Chapter 3 Auditing the Process-Based Quality Management System ................................................. 27
  Monitoring versus Measurement .................................... 30
Quality Management System ........................................... 30
Relationship of Documentation to the Process Approach ..... 31
Extent of Documentation ................................................ 32
System Audits versus Process Audits .............................. 33
Alternative Strategies for ISO 9001:2008 Audit Programs ........ 34
Summary ......................................................... 35

Chapter 4  Audit Objectives: Meeting Requirements and
Performance Improvement  .................................... 37
   Concepts Related to Auditing to Verify that Requirements
   are Being Met .................................................. 37
   Concepts Related to Auditing for Improved Performance .... 38
   Auditing for Performance Improvement and Consulting .. 41

Part II  Audit Program Management ................................ 43

Chapter 5  The Audit Program .................................. 45
   Chartering of the Audit Program ............................... 45
   Decisions that Should be Made During the
   Chartering Process ........................................... 46
   Disseminating the Audit Charter ............................... 47
   Establishing an Audit Process ................................ 48
   Preparing an Audit Procedure ................................. 48
   Annual Audit Scheduling ...................................... 49
   Maintenance of the Audit Schedule ......................... 49
   Assignment of Auditors ..................................... 51
   Monitoring and Measuring the Audit Process ............. 51
   Management Review ........................................... 53

Chapter 6  Auditors ............................................. 55
   Number of Auditors .......................................... 56
   Selection of Auditors ....................................... 57
   Auditor Competence ......................................... 59
   Auditor Certification ....................................... 61
   Ethics—Again ................................................. 62

Chapter 7  Use of Audit Information and Results ............. 63
   Performing Analyses ......................................... 64
   Presenting the Results of the Analysis .................... 65

Part III  The Process of Auditing ................................ 67

Chapter 8  The Audit Planning Phase ........................... 69
   Four Phases of the Audit .................................... 69
   Seven Items for Audit Planning .............................. 70
   Define the Audit Objectives ................................. 70
   Define the Audit Scope ...................................... 72
   Define the Audit Team ...................................... 75
