PART ONE
SUPPLY CHAIN LOGISTICS MANAGEMENT  1

Chapter 1
21st-Century Supply Chains  2

The Supply Chain Revolution  4
Why Integration Creates Value  5
Generalized Supply Chain Model  6
Information System Functionality  7
Supply Chain Information System Modules  10
  Enterprise Integration and Administration  11
  Enterprise Supply Chain Operations  12
  Enterprise Planning and Monitoring  13
  Communication Technology  14
  Consumer Connectivity  14
Integrative Management and Supply Chain Processes  14
  Collaboration  16
  Enterprise Extension  17
  Integrated Service Providers (ISPs)  17
Responsiveness  19
  Anticipatory Business Model (Push)  19
  Responsive Business Model (Pull)  20
  Postponement  21
  Barriers to Implementing Responsive Systems  23
Financial Sophistication  23
  Cash-to-Cash Conversion  24
  Dwell Time Minimization  24
  Cash Spin  25
Globalization  25
Summary  26
Study Questions  27
Challenge Questions  27

Chapter 2
Logistics  28

The Logistics of Business Is Big and Important  29
  The Logistical Value Proposition  30
    Service Benefits  30
    Cost Minimization  32
    Logistics Value Generation  32
The Work of Logistics  33
  Order Processing  33
  Inventory  34
  Transportation  35
  Warehousing, Materials Handling, and Packaging  36
  Facility Network Design  37
Logistical Operations  38
  Inventory Flow  38
  Information Flow  40
Logistical Integration Objectives  40
  Responsiveness  41
  Variance Reduction  41
  Inventory Reduction  41
  Shipment Consolidation  41
  Quality  42
  Life Cycle Support  42
Logistical Operating Arrangements  42
  Echelon  43
  Direct  43
  Combined  44
Flexible Structure  45
Supply Chain Synchronization  47
  Performance Cycle Structure  48
  Performance Cycle Uncertainty  50
Summary  52
Study Questions  53
Challenge Questions  53

Chapter 3
Customer Relationship Management  54

Customer-Focused Marketing  55
  Transactional versus Relationship Marketing  56
Supply Chain Service Outputs  57
Customer Service  59
  Availability  59
  Operational Performance  61
  Service Reliability  62
  The Perfect Order  63
  Basic Service Platforms  64
Customer Satisfaction 64
   Customer Expectations 65
   A Model of Customer Satisfaction 65
   Increasing Customer Expectations 68
   Limitations of Customer Satisfaction 69
Customer Success 70
   Achieving Customer Success 71
   Value-Added Services 72
Developing Customer Relationship Strategy 73
   Framework for Strategic Choice 73
   Customer Relationship Management Technology 75
Summary 76
Study Questions 77
Challenge Questions 78

Chapter 4
Procurement 79

Procurement Objectives 80
   Continuous Supply 80
   Minimize Inventory Investment 80
   Quality Improvement 81
   Supplier Development 81
   Access Technology and Innovation 81
   Lowest Total Cost of Ownership 81
Procurement Strategy 83
   Insourcing versus Outsourcing 83
   Alternative Procurement Strategies 84
   Procurement Strategy Portfolio 87
Supplier Selection and Assessment 89
   Supplier Audits 89
   Supplier Development 90
   Monitoring Performance 90
   Supplier Certification 91
   E-Commerce and Procurement 91
Logistical Interfaces with Procurement 92
   Just-in-Time 93
   Procurement of Logistics Services 93
   Performance-Based Logistics 94
Summary 94
Study Questions 95
Challenge Questions 95

Chapter 5
Manufacturing 96

The Quality Imperative 97
   Dimensions of Product Quality 97
   Total Quality Management 99
   Quality Standards 100
Manufacturing Perspectives 100

Brand Power 100
Volume 101
Variety 101
Constraints 102
Leadtime 103

Manufacturing Strategy 103
   Basic Manufacturing Processes 104
   Matching Manufacturing Strategy to Market
   Requirements 106
   Alternative Manufacturing Strategies 106
   Total Cost of Manufacturing 108

Contemporary Manufacturing Developments 109
   Mass Customization 109
   Lean Systems 110
   Flexible Manufacturing 111
   Six Sigma 112
   Requirements Planning 113
   Design for Manufacture 113
   Design for Logistics 114
Summary 114
Study Questions 115
Challenge Questions 115

Chapter 6
Integrated Operations Planning 116

Supply Chain Planning 117
   Supply Chain Visibility 117
   Simultaneous Resource Consideration 117
   Resource Utilization 118
Supply Chain Planning Applications 118
   Demand Planning 118
   Production Planning 119
   Logistics Planning 119
   Inventory Deployment 120
Sales and Operations Planning 121
   S&OP Process 121
   Making S&OP Work 124
APS System Overview 126
   APS System Components 127
   Supply Chain Planning Benefits 129
   Supply Chain Planning Considerations 130
   Integrated Business Planning 131
   Supply Chain Planning Summary 131
Collaborative Planning, Forecasting, and
   Replenishment 132

Forecasting 133
   Forecasting Requirements 134
   Forecasting Components 135
   Forecasting Process 137
Supply Chain Operations Analysis Methods and Techniques 327
  Design Decisions 327
  Design Logic 328
  Inventory Decisions 334
  Transportation Decisions 336
  Freight Lane Analysis 338
  Inventory Analysis 339
Summary 341
Study Questions 341
Challenge Questions 342

PART FOUR
SUPPLY CHAIN LOGISTICS ADMINISTRATION 343

Chapter 14
Collaboration 344
Logistical Organization 345
  Functional Aggregation 345
  A Shift in Emphasis from Function to Process 347
Development of Collaborative Relationships 351
  Collaborative Relationships and Dependency 352
  Developing Trust 353
  Risk, Power, and Leadership 355
  Supply Chain Collaborative Framework 356
Relationship Management 360
  Initiating 360
  Implementing 361
  Maintaining 362
  Terminating 363
Summary 364
Study Questions 364
Challenge Questions 365

Chapter 15
Performance Measurement 366
Measurement System Objectives 366
Operational Assessment 367
  Functional Perspectives 368
  Measuring Customer Relationships 372
  Determining Appropriate Metrics 374
  Supply Chain Comprehensive Metrics 375
  Benchmarking 377
  Information Technology and Measurement 378
Financial Assessment 379
  Cost-Revenue Analysis 379
  Strategic Profit Model 383
  Requirements for Financial Reporting 387
Summary 389
Study Questions 390
Challenge Questions 390

Chapter 16
Risk and Sustainability 391
Evolving Responsibilities of Supply Chain Professionals 391
Processes and Resources 394
  Product Complexity 394
  Outsourcing 395
Risk and Security Management 395
  Regulation 397
  Financial and Taxation 397
  Security 398
Sustainability 402
  Environmental 403
  Ethical 404
  Educational 405
  Economic 406
  Supply Chain Sustainability Examples 407
Summary 414
Study Questions 415
Challenge Questions 415

Epilogue 417

Problems 419

Cases 431

Index 475
