## Contents

*Preface*  
*Acknowledgements*  
*A Note on the Terminology*  
*Glossary*  
*A Primer: The Seven Leading Myths about the Indian Software Industry*  

1. **Introduction**  
   1.1 Background  
   1.2 Aims  
   1.3 Structure  

PART 1  THE CONTEXT  

2. **The Global Software Services Industry: An Overview**  
   2.1 Introduction  
   2.2 Beneath the Tip of the IT Iceberg: The Size and Structure of the Hidden Industry  
   2.3 The Magnificent Seven: Introducing the Global Giants and the Indian Majors  
   2.4 Creative Destruction and the Development of the Industry, 1950–85  
   2.5 Convergence and Catch-up in the Industry, 1985–2010  
   2.6 Conclusions  

3. **The Development of the Software Industry in India: Existing Explanations and their Shortcomings**  
   3.1 Introduction  
   3.2 Technological Advances  
   3.3 Intellectual Aptitude  
   3.4 Neo-liberalism  
   3.5 The Developmental Department  
   3.6 Conclusions
# The Political Economy Approach to State Intervention and Industrial Transformation: An Analytical Framework

## Introduction

### The Who and Why of Policy: The Interests Behind State Intervention

### The Effect of Policy: A Structural Analysis

## Conclusions

## PART 2 THE DEVELOPMENT OF THE INDIAN IT INDUSTRY

### IT Started with a War: The Establishment of the Indian IT Industry, 1970–78

#### Introduction

#### The Wider Context: The State of Independence

#### Interests and Interventions: The Bombay IT Party

#### What Happened? Indian Computers and Software Exports

#### Conclusions

### Catalytic Corruption: The Domestic Software Services Boom, 1978–86

#### Introduction

#### The Wider Context: Back to Business – The Emergency and the Return of the Old Guard

#### Interests and Interventions: Illusions of Grandeur

#### What Happened? A Positive Case of Unintended Consequences

#### Conclusions

### Manna from Heaven: Satellites, Optic Fibres and the Export Thrust, 1986–2000

#### Introduction

#### Interests and Interventions: The American Dream

#### What Happened? The Emergence of the Majors

#### Conclusions

### Passage to India: The Giants in the Land of the Majors, 2000–10

#### Introduction

#### The Wider Context: Amongst the Believers – The Capitalist Conversion of India
8.3 Interests and Interventions: Software as Soft Power – The Rise of NASSCOM 70
8.4 What Happened? From Big Dream to Major Nightmare 72
8.5 Conclusions 75

PART 3 THE ANALYSIS

9 The Indian Mutiny: From Potential IT Superpower to Back Office of the World 79
  9.1 Introduction 79
  9.2 In India but Not of India: The Software-Industry in 2020 79
  9.3 Poacher as Gamekeeper: Explaining the State’s Inaction 82
  9.4 Never Mind the Buzzwords: A New Agenda 83
  9.5 Conclusions 86

10 Lessons and Warnings: What Does IT Mean? 87
  10.1 Introduction 87
  10.2 Don’t Believe the Hype: The Role of IT in Development 87
  10.3 Beyond Good and Evil: The Role of the State in Development 91
  10.4 Golden Calf or Trojan Horse? The Role of the Software Industry in the Indian Economy 93

11 Conclusion: Of Compradors and Useful Idiots 95
