Nordic Contributions in IS Research

Third Scandinavian Conference on Information Systems, SCIS 2012
Sigtuna, Sweden, August 17–20, 2012
Proceedings
# Table of Contents

## Theme I: The Interactive Society

The Complex Relationship between ICT and Innovation in Services:
A Literature Review ................................................. 1
  *Giulia Nardelli*

Understanding and Managing Process Interaction in IS Development
Projects ................................................................. 25
  *Bendik Bygstad and Peter Axel Nielsen*

Dynamic Relationships in e-Government Initiatives: Craftsmanship,
Partnership, Companionship, and Entrepreneurship .................. 44
  *Sune Dueholm Müller, Pernille Kræmmergaard, and Anja Reinwald*

Disentangling for Autonomy: Understanding the Sociomaterial
Practices of Public Services ........................................ 56
  *Tone Bratteteig and Guri Verne*

Materializing Organizational Information Security ..................... 76
  *Dan Harnesk and John Lindström*

## Theme II: Design

What If Design Is Something Else: The Challenges of Dealing
with Interdependencies ............................................. 95
  *Maryunn Aanestad*

Constructing a Design Framework for Performance Dashboards ........ 109
  *Heikki Lempinen*

On Goodness of Models and Instantiations in Design Research:
Some Potential Perspectives ......................................... 131
  *Pertti Järvinen*

Information Systems Integration in the Food Industry ................ 145
  *Jonas Hedman and Stefan Henningsson*

Bridging Research and Innovation by Applying Living Labs for Design
Science Research ..................................................... 161
  *John Krogstie*
