Implementation and Integration of Information Systems in the Service Sector

John Wang
Montclair State University, USA
# Table of Contents

**Preface** ................................................................................................................................. xviii

## Section 1  
**Service Strategy**

**Chapter 1**  
A Review of Service Frameworks Analyzing Strategic Repositioning: The Case of Bank Services ... 1  
*Markku Tinnilä, Aalto University School of Economics, Finland*

**Chapter 2**  
The Impact of Location-Aware Systems in Hospitals: A Tri-Core Perspective ................................... 20  
*Lorraine S. Lee, University of North Carolina Wilmington, USA  
Kirk D. Fiedler, University of South Carolina, USA*

**Chapter 3**  
A Study of the Cascading Effects of Ambulance Diversion among Hospitals ..................................... 32  
*Abey Kuruvilla, University of Wisconsin Parkside, USA  
Suraj Alexander, University of Louisville, USA  
Xiaolin Li, Towson University, USA*

## Section 2  
**Service Adoption**

**Chapter 4**  
The Influence of Travel Experience on Mature Travelers’ Quality of Life ........................................ 43  
*Yawei Wang, Montclair State University, USA  
Francis A. McGuire, Clemson University, USA  
Bin Zhou, Kean University, USA*

**Chapter 5**  
A Consumer Perception Research on the Subject of a New Technology in a Developing Dynamic Market: 3G Technology in Turkey ................................................................. 57  
*Bünyamin Atici, Firat University, Turkey  
Üğur Bati, Yeditepe University, Turkey*
Chapter 6
Technology Adoption and Educational Change in Turkey ........................................ 70
  Serhat Kurt, Ataturk University, Turkey

Chapter 7
Effects of Adaptivity and Other External Variables on Mobile Service Adoption ............ 81
  Ebru Polat, Bogazici University, Turkey
  Nuri Basoglu, Bogazici University, Turkey
  Tugrul Ud Daim, Portland State University, USA

Section 3
Service Management and Optimization

Chapter 8
Service Management of Special Care Units: Lessons Learned in Manufacturing .............. 102
  Gad Vitner, Ruppin Academic Center, Israel
  Shirly Bar-Lev, Ruppin Academic Center, Israel
  Erez Nadir, Hillel Yaffe Medical Center, Israel
  Michael Feldman, Hillel Yaffe Medical Center, Israel
  Shmuel Yurman, Hillel Yaffe Medical Center, Israel

Chapter 9
A Strategic Benchmarking Process for Identifying the Best Practice Collaborative Electronic Government Architecture ......................................................... 115
  Faramak Zandi, Alzahra University, Iran
  Majid Tavana, La Salle University, USA

Chapter 10
A Simulation Study to Derive the Optimal Cycle Length for Feeder Transit Services .......... 142
  Shailesh Chandra, Texas A&M University, USA
  Chung-Wei Shen, Texas A&M University, USA
  Luca Quadrifoglio, Texas A&M University, USA

Chapter 11
The Development of Parameters and Warning Algorithms for an Intersection Bus-Pedestrian Collision Warning System ............................................................... 163
  Chien-Yen Chang, Chung Hua University, Taiwan
  Ting-Wei Chang, Chung Hua University, Taiwan
Section 4
Service Modeling and Implementation

Chapter 12
Modeling Control Flow in WS-BPEL with Chu Spaces ................................................................. 184
Xutao Du, Institute of Electronic System Engineering, China
Chunxiao Xing, Tsinghua University, China
Lizhu Zhou, Tsinghua University, China
Ke Han, Institute of Electronic System Engineering, China

Chapter 13
Optimal Compensation for Hierarchical Web Services Compositions under Restricted Visibility ... 205
Debmalya Biswas, SAP Research, Germany
Krishnamurthy Vidyasankar, Memorial University of Newfoundland, Canada

Chapter 14
Towards High Maturity in SaaS Applications Based on Virtualization: Methods and Case Study .... 223
Shijun Liu, Shandong University, China
Yong Zhang, Shandong University, China
Xiangxu Meng, Shandong University, China

Chapter 15
Identifying Services in Procedural Programs for Migrating Legacy System to Service Oriented Architecture .............................................................................................................................. 237
Masahide Nakamura, Kobe University, Japan
Hiroshi Igaki, Tokyo University of Technology, Japan
Takahiro Kimura, Nihon Unisys Ltd., Japan
Kenichi Matsumoto, NAIST, Japan

Section 5
Service Operation and Infrastructure

Chapter 16
Sustainability in Service Operations ........................................................................................................ 257
Frank Wolf, Nova Southeastern University, USA
Bahaudin G. Mujtaba, Nova Southeastern University, USA

Chapter 17
Call Center Operational Performance Indicators and Customer Satisfaction: An Explanatory-Exploratory Investigation ........................................................................................................... 277
Alexandre Ferreira Oliveira, Getulio Vargas Foundation, Brazil
Luiz Antonio Joia, Getulio Vargas Foundation, Brazil
Chapter 18
Service Platform Development: Comparison of Two E-Services Platforms ........................................... 297
  Tugrul Daim, Portland State University, USA
  Marius Brand, Portland State University, USA
  Linda Lin, Portland State University, USA

Chapter 19
Demand Analysis by Modeling Choice of Internet Access and IP Telephony ................................. 317
  Takeshi Kurosawa, Tokyo University of Science, Japan
  Denis Bolduc, Laval University, Canada
  Moshe Ben-Akiva, MIT, USA
  Akiya Inoue, Chiba Institute of Technology, Japan
  Ken Nishimatsu, NTT East Corporation, Japan
  Motoi Iwashita, Chiba Institute of Technology, Japan
