Architectural Branding
Understanding and Measuring its
Relevance for Brand Communication

Inaugural-Dissertation zur Erlangung des Grades
Doktor oeconomiae publicae (Dr. oec. publ.)
an der Ludwig-Maximilians-Universität München

vorgelegt von
Dipl.-Kffr. Ursula Raffelt, MBR
Jahr 2010

Referent: Prof. Dr. Anton Meyer
Korreferent: Prof. Bernd Schmitt, Ph.D.
Promotionsabschlussberatung: 17. November 2010
Table of Contents

1. Introduction: Architectural branding – A Significant New Trend in Brand Communication? ................................................................. 1

2. A New Approach to Architectural Branding: Conceptualizing Architectural Design and Experimental analysis ................................................................. 9

   2.0 Abstract ........................................................................................................... 9

   2.1 The Need for a New Approach on Architectural Branding .......................... 10

   2.2 A Linguistic Conceptualization of Architectural Design ........................... 13

   2.3 Effects of Architectural Branding ................................................................. 19

      2.3.1 The Impact of Architectural Design on Elaboration ...................... 20

      2.3.2 The Impact of Elaboration on Design Attitudes [mediation effect] .... 24

      2.3.3 The Impact of Brand Fit on Design Attitudes [moderation effect] ...... 27

   2.4 Method ......................................................................................................... 29

      2.4.1 Stimuli Construction ............................................................................ 30

      2.4.2 Measures ............................................................................................... 32

   2.5 Analyses and Results .................................................................................. 36

      2.5.1 Hypothesis 1: Main Effect on Elaboration ....................................... 37

      2.5.2 Hypothesis 2: Mediation Effect of Elaboration on Design Attitudes ...... 38

      2.5.3 Hypothesis 3: Moderation Effect of Brand Type ............................... 40

   2.6 General Discussion ..................................................................................... 43

   2.7 Limitations, Future Research, and Managerial Implications .................... 49
3. **I See What You Mean: Closing the Gap between Architects and Brand Management**

   3.0 Abstract
   3.1 The Interdisciplinary Challenge of Architectural Branding
   3.2 Theoretical Background
     - 3.2.1 Architecture and Communication
     - 3.2.2 Design Factors Underlying Architectural Branding
     - 3.2.3 Consumer Brand Impressions Evoked by Architectural Branding
   3.3 Research Goal
   3.4 Method
     - 3.4.1 Scale Development of Design Qualities [step 1]
     - 3.4.2 Identification of Stimuli [step 2]
     - 3.4.3 Expert Ratings of Building Qualities [step 3]
     - 3.4.4 Assessment of Consumer Responses [step 4]
   3.5 Analysis and Results
     - 3.5.1 Identification of Prototypical Architectural Branding Designs
     - 3.5.2 Brand Impression Responses
     - 3.5.3 Relation between Architectural Designs and Response Dimensions
   3.6 Conclusion and Discussion of Findings
     - 3.6.1 Discussion and Theoretical Contribution
     - 3.6.2 Managerial Implications
     - 3.6.3 Limitations and Further Research

4. **Architectural Branding as Internal Brand Communication: Does it Contribute to Employees' Brand Commitment?**

   4.0 Abstract
   4.1 Relevance of Architectural Branding for Internal Brand Management
   4.2 Research Purpose and Structure
   4.3 Theoretical Background
