### 1 Introduction: Trade surplus in China - vertical specialization and related issues  
1

- The starting point: China's vertical specialization trade  
1

- Trade surpluses are as much a source of conflict as strength  
5

- Analyzing the impact of vertical specialization on China's trade surplus  
6

### 2 Vertical specialization trade patterns and China's trade surplus  
9

- China's trade: more and more centered on trade surplus  
9

- Vertical divisions of labor driving China trade  
11

- China's trade is still dependent on western markets for final goods exports  
14

- Three optimized trade development zones: regional foreign trade disparity in China  
17

### 3 An analysis of the role of vertical specialization in the development of China's trade surplus: evidence from 2000–2007  
23

- Introduction  
23
Introduction 37

China's acceleration into vertical specialization due to FDI. 39

Empirical evidences on the relationship between FDI and international trade in China based on VS 44

Conclusion 50

5 FDI and the processing trade in China: based on vertical specialization 53

Introduction 53

Processing trade: the form of China's strong involvement in vertical specialization 54

Empirical evidence: the relationship between FDI and processing trade 56

Conclusion 64

6 An empirical analysis of the relation between imports and exports of China's foreign-invested enterprises based on vertical specialization 67

Introduction 67

Empirical evidence: the relationship between imports and exports of foreign invested enterprises (FIEs) in China 69

Conclusion 76
