---
2.3 The I-Quartet Model: A Synopsis ................................................. 30
2.4 The Acrobat over the Bosphorus .................................................. 33

3 The Integrator: Orchestrating an Interdependent Supply Chain Network .......................................................... 35
3.1 Networks and Complexity ............................................................ 36
3.2 Supply Chain Network Orchestration .............................................. 39
3.3 Risk Interdependence in Supply Chain Networks .......................... 42
  3.3.1 Interdependent Risks, Weakest Links, and Tipping Points ....... 43
  3.3.2 Earthquake Risk in Supply Chain Networks: The Turkish Example of Dealing with Earthquake Risk .......... 44
3.4 Lessons from Turkish Carpet Weaving ........................................... 47

4 The Inquirer: Sensing and Learning in Swan Lake ........................... 49
4.1 Sensing and Learning in Supply Chain Networks: Brightening the Peripheral Vision ................................................. 50
4.2 Learning from Small Failures ...................................................... 54
4.3 Fail Fast, Learn Fast! Almost Fail, Learn Faster: Learning from Near Misses .............................................................. 56
  4.3.1 An Example: Near Misses versus Major Supply Chain Accidents .............................................................. 58
  4.3.2 Near-Miss Intelligence in Supply Chain Networks .......... 59
4.4 Swan Lake: A Habitat of Colorful Swans ..................................... 60
4.5 The Ladder of Mastery: Swan Lake Ignorance to Swan Lake Intelligence .............................................................. 63
  4.5.1 Swan Lake Ignorance to Swan Lake Intelligence via Black Swan Ignorance .............................................. 63
  4.5.2 Swan Lake Ignorance to Swan Lake Intelligence via Black Swan Anxiety ................................................ 64
  4.5.3 Swan Lake Ignorance to Swan Lake Intelligence ............... 64
4.6 Risk Anticipation in the Supply Chain Network ......................... 65
  4.6.1 Early Warning through Near Misses and Precursors .......... 65
  4.6.2 The Shivers Model of Supply Chain Network Sickness Anticipation ....................................................... 66

Technical Appendix ........................................................................ 69

5 The Improviser: Creative—Diverse—Flexible Tinkering to Achieve Resilience .............................................................. 71
5.1 The Improviser in the Supply Chain Network .............................. 73
5.2 Resilience ................................................................................. 74
5.3 Creativity and Design Thinking ................................................... 77
5.4 Tinkering .................................................................................. 79
5.5 Diversity ........................................................................................................... 81
  5.5.1 Diversity of Crowds ...................................................................................... 83
  5.5.2 Diversity-Redundancy Trade-Off ................................................................. 85
5.6 Flexibility .......................................................................................................... 87

6 The Ingenious: Intelligent Risk Taking in Swan Lake ................................. 91
  6.1 Surprises Are Not Surprises Anymore: Black Swans in Swan Lake ........ 92
  6.2 Negative versus Positive Black Swans ............................................................ 93
  6.3 Positive Deviance: Identifying and Nourishing Positive Black Swans ......... 97
  6.4 Extremophiles: Positive Black Swans of Biological Ecosystems .......... 99
  6.5 Dragon-Kings versus Black Swans ................................................................. 100
  6.6 Fork-Tailed Risk-Taking Strategy ................................................................. 101
  6.7 Closed-Loop Dynamics of the Risk Intelligent Supply Chain .............. 105
    6.7.1 An African Cheetah Looking for Food .................................................... 106

PART 3 HOW DO LEADING TURKISH COMPANIES THRIVE IN THE AGE OF FRAGILITY?

7 Wisdom from Leading Turkish Companies ....................................................... 111

8 Kordsa Global: Orchestrator of Transnational Supply Chain Network .......... 115
  8.1 Prelude ........................................................................................................... 115
  8.2 Managing Global Supply Chain Operations and Risks ............................ 117
  8.3 Perception of Global Supply Chain Risks .................................................... 123
  8.4 Strategic Risks along the Supply Chain Network ........................................... 126
  8.5 Kordsa Global Approach for Risk Assessment and Hedging ..................... 127
  8.6 Global Supplier Management ....................................................................... 128
  8.7 Financial Hedging, Insurance, and Business Continuity ......................... 129
  8.8 Operational Hedging Strategies ................................................................. 130
  8.9 Intelligent Management of Supply Chain Contracts .................................... 131
  8.10 Expecting the Unexpected: Black Swans in Swan Lake ......................... 132
  8.11 Future Global Challenges and Emerging Risks ......................................... 133
  8.12 Developing Talent with a Global Supply Chain Mind-Set ......................... 135
  8.13 The Future Vision for Kordsa Global’s Risk Intelligent Supply Chain ........ 136
  8.14 Managing Risks in Global Supply Chain Contracts .................................... 137
  8.15 The I-Quartet Model of Kordsa Global ..................................................... 143

9 Brisa: Virtuoso of Supply Chain Risk Management ...................................... 147
  9.1 Prelude ........................................................................................................... 147
  9.2 Managing a Global Supply Chain Network .................................................. 150
  9.3 Managing Supply Chain Contracts and Related Risks ............................... 155
# Contents

9.4 Risk Intelligent Supply Chain of Brisa ........................................ 159
9.5 Managing and Mitigating Major Supply Chain Risks .................... 163
9.6 Regulatory and Political Risks and Brisa’s Risk Intelligent Response .................................................. 173
9.7 Learning from Black and Gray Swans in Swan Lake .................... 175
9.8 Recruiting, Developing, and Retaining Supply Chain Talent ........ 176
9.9 Managing Business and Supply Continuity ................................. 177
9.10 Envisioning the Future ............................................................ 182
9.11 The I-Quartet Model of Brisa .................................................... 183

10 AnadoluJet: Maestro over the Clouds ............................................. 187
10.1 Background of the Turkish Airline Industry ............................... 187
10.2 Turkish Airlines after Deregulation ............................................. 189
10.3 Inception of AnadoluJet ............................................................. 190
10.4 Operational Innovations in a Risk Intelligent Supply Chain ...... 193
10.4.1 Flight Schedule Orchestration .............................................. 193
10.4.2 Genuine Pricing Strategy ..................................................... 194
10.4.3 Fast-Growth Network Management ..................................... 196
10.4.4 Intelligent Fleet Management ............................................. 199
10.4.5 Smart Revenue Management ............................................. 200
10.5 No-Excuse Customer Service ................................................... 200
10.6 Designing Responsive Marketing and Sales Strategy .................. 201
10.7 Developing Young and Ambitious Talent .................................. 202
10.8 Risk Management Philosophy in Orchestrated Network ............. 203
10.9 The Path Forward ................................................................. 204
10.10 The I-Quartet Model of AnadoluJet ......................................... 204

Epilogue: Where Is Our Next Journey? .......................................... 207

Appendix A: Scholarly Readings on Supply Chain Risk ...................... 211
Appendix B: Biography of Executives .............................................. 215
Notes ......................................................................................... 219
Bibliography .............................................................................. 241
Index ......................................................................................... 255
