# Table of Contents

## Keynotes

Modeling Enterprise Interoperability: Taming the Information Explosion .......................................................... 1
   *Richard Mark Soley*

Collaboration and Interoperability Support for Agile Enterprises in a Networked World: Emerging Scenarios, Research Challenges, Enabling Technologies ......................................................... 4
   *Manfred Reichert*

## Invited Paper

Enhancing the Maturity of Open Service Ecosystems and Inter-enterprise Collaborations .............................................. 6
   *Lea Kutvonen*

## Enterprise Service Interoperability

An Interoperability Points Based Interoperability Approach for SaaS Applications ...................................................... 22
   *Yanyan Han, Lei Wu, Shijun Liu, and Xiangxu Meng*

Similarity Evaluation Based on Intuitionistic Fuzzy Set for Service Cluster Selection as Cloud Service Candidate ................. 36
   *Jorick Lartigau, Xiaofei Xu, Lanshun Nie, and Dechen Zhan*

## Enterprise Interoperability in Sectors

Achieving Flexible Process Interoperability in the Homecare Domain through Aspect-Oriented Service Composition .............. 50
   *Duc Viet Bui, Maria Eugenia Iacob, Marten van Sinderen, and Alireza Zarghami*

On the Extended Clinical Workflows for Personalized Healthcare .......................................................... 65
   *Milan Zdravković and Miroslav Trajanović*

Cross-Organizational Business Processes Modeling Using Design-by-Contract Approach ........................................ 77
   *Malik Khalfallah, Nicolas Figay, Parisa Ghodous, and Catarina Ferreira Da Silva*
Interoperability Methodology

Fit for Purpose: Toward an Engineering Basis for Data Exchange Standards ......................................................... 91
  Arnon Rosenthal, Len Seligman, M. David Allen, and Adriane Chapman

P²AMF: Predictive, Probabilistic Architecture Modeling Framework .... 104
  Pontus Johnson, Johan Ullberg, Markus Buschle, Ulrik Franke and Khurram Shahzad

Business Model Risk Analysis: Predicting the Probability of Business Network Profitability ........................................ 118
  Pontus Johnson, Maria Eugenia Iacob, Margus Välja, Marten van Sinderen, Christer Magnusson, and Tobias Ladhe

Interoperability for Specific Application Types

Linked Services for Enabling Interoperability in the Sensing Enterprise ................................................................. 131
  Matthias Thoma, Alexandru-Florian Antonescu, Theano Mintsi, and Torsten Braun

Business Rules Management Solutions: Added Value by Effective Means of Business Interoperability ..................... 145
  Martijn Zoet and Johan Versendaal

Behavioural Evaluation of Reputation-Based Trust Systems ............ 158
  Sini Ruohomaa and Lea Kutvonen

Strategic and Tactic Aspects of Enterprise Interoperability

Mass Customization Oriented and Cost-Effective Service Network ...... 172
  Zhongjie Wang, Xiaofei Xu, and Xianzhi Wang

Toward a Methodology to Control Interoperability Improvement Projects Execution ....................................................... 186
  Abderrahim Taoudi, Bouchaib Bounabat, and Badr Elmir
Ontology-Based Interoperability

A Panorama of the Semantic EAI Initiatives and the Adoption of Ontologies by these Initiatives ..................................................... 198
   Julio Cesar Nardi, Ricardo de Almeida Fulbo, and Joao Paulo A. Almeida

Using Metamodels and Ontologies for Enterprise Model Reconciliation ................................................................. 212
   Sabina El Haoum and Axel Hahn

Author Index .................................................................................. 225
