RISK MANAGEMENT IN LOGISTICS
Empirical Results from the Baltic Sea Region
from 2010 until 2012

Wolfgang Kersten
Meike Schröder
Carolin Singer
Max Feser
# TABLE OF CONTENTS

EXECUTIVE SUMMARY ................................................................. 5
TABLE OF CONTENTS ........................................................................ 7
LIST OF FIGURES ............................................................................. 11
LIST OF TABLES ................................................................................ 13
LIST OF ACRONYMS .......................................................................... 15

1 INTRODUCTION ............................................................................. 17
   1.1 Project introduction – C.A.S.H ................................................. 17
   1.2 Regional partner introduction ................................................ 19
   1.3 Purpose of this study .............................................................. 19

2 STATE-OF-THE-ART ................................................................. 23
   2.1 Logistics and transport ............................................................ 23
      2.1.1 Classification of transport into logistics ......................... 23
      2.1.2 Players in the transport process ...................................... 26
      2.1.3 Outsourcing of logistics' activities .................................. 28
   2.2 Logistics within the Baltic Sea Region and within the
      European Union ......................................................................... 32
      2.2.1 The Baltic Sea Region as part of the European Union ...... 32
      2.2.2 The economic importance of the Baltic Sea Region ...... 32
      2.2.3 Logistics in the European Union and in the Baltic Sea
           Region .................................................................................. 34
      2.2.4 Road transport in the European Union and in the Baltic Sea
           Region .................................................................................. 36
   2.3 Fundamentals of risk management ......................................... 38
      2.3.1 Risk and uncertainty ......................................................... 38
      2.3.2 The risk management process ......................................... 39
         2.3.2.1 Risk identification .................................................. 39
         2.3.2.2 Risk assessment .................................................... 40
         2.3.2.3 Risk mitigation ...................................................... 41
         2.3.2.4 Risk control .......................................................... 41

3 APPLICATION OF TECHNIQUES FOR DATA COLLECTION ... 43
   3.1 Qualitative and quantitative research .................................... 43
   3.2 Analysis of the research approaches .................................... 44
      3.2.1 Methodology of the survey ............................................. 44
6.4 Interim conclusion of information technology tools in risk management

7 SUMMARY AND OUTLOOK

APPENDIX 1. EXTRACT OF INTERVIEW TRANSCRIPT – RISK MANAGEMENT

APPENDIX 2. EXTRACT OF INTERVIEW TRANSCRIPT – INSTITUTIONALIZED RISK MANAGEMENT FOR TRANSPORT RISKS

APPENDIX 3. RISK CLASSIFICATION

APPENDIX 4. EXEMPLARY OVERVIEW OF INFORMATION TECHNOLOGY SYSTEMS FOR RISK MANAGEMENT
