

Giancarlo Gandolfo

International Trade Theory and Policy

Second edition

With contributions by Federico Trionfetti

 Springer

Contents

Part I Introduction

1	Introduction to International Trade Theory and Policy	3
1.1	International Economics as a Distinct Subject.....	3
1.2	The Theory and Policy of International Trade: An Overview.....	5
1.3	Small and Large Open Economies.....	6
	References.....	7

Part II Foundations of Trade Theory

2	The Classical (Ricardo-Torrens) Theory of Comparative Costs	11
2.1	Comparative Costs (Advantages) and International Trade.....	11
2.2	Alternative Graphic Representations.....	14
2.3	A Modern Interpretation in Terms of Optimization.....	19
2.3.1	Maximization of Real Income in Each Country.....	19
2.3.2	Maximization of Real World Income.....	21
2.4	Generalizations.....	23
2.4.1	Two Goods and n Countries.....	24
2.4.2	m Goods and n Countries.....	25
2.5	The Problem of the Determination of the Terms of Trade.....	29
	References.....	30
3	The Neoclassical Theory of International Trade	33
3.1	The Transformation Curve and the Box Diagram.....	33
3.1.1	The Box Diagram.....	34
3.1.2	The Transformation Curve and Its Properties.....	35

3.2	General Equilibrium in a Simple Closed Economy	39
3.2.1	The Supply Curves	39
3.2.2	The Demand Curves	41
3.2.3	General Equilibrium and Walras' Law	42
3.3	General Equilibrium in Open Economies and International Trade	43
3.4	Offer Curves, International Equilibrium, and Stability	47
3.4.1	Derivation of the Offer Curve	47
3.4.2	International Equilibrium and Stability	49
3.5	Increasing Returns to Scale	53
3.6	The Gains from Trade	56
3.7	Generalizations	59
3.8	Duality Approach	60
3.9	Empirical Studies	61
	References	61
4	The Heckscher-Ohlin Model	63
4.1	Basic Assumptions and Their Meaning	63
4.1.1	Relative Price of Goods and Relative Price of Factors....	67
4.2	The Heckscher-Ohlin Theorem	69
4.3	Factor Price Equalization	72
4.3.1	A Graphic Treatment	74
4.3.2	The Factor Price Equalization Set	77
4.4	The Factor Content of Trade and the Heckscher-Ohlin-Vanek Theorem	80
4.5	Extensions and Qualifications	82
4.5.1	Non-identical Structures of Demand	83
4.5.2	Factor-Intensity Reversals	85
4.5.3	The Heckscher-Ohlin-Vanek Generalization	87
4.6	Empirical Studies	90
4.6.1	Leontief's Paradox	90
4.6.2	Explaining the Paradox	91
4.6.3	What Paradox? There Is No Paradox	95
4.6.4	Factor Content of Trade Studies	97
4.6.5	Concluding Remarks	99
	References	100
5	The Four Core Theorems	103
5.1	Introductory Remarks	103
5.2	The Heckscher-Ohlin and Factor-Price-Equalization Theorems ...	103
5.3	The Stolper-Samuelson Theorem	104
5.4	The Rybczynski Theorem	105
5.4.1	An Alternative Diagram	106
	References	108

6 Some Refinements 109

6.1 Introduction 109

6.2 The Specific Factors Model 109

6.3 Transport Costs and International Trade 114

6.4 Intermediate Goods 118

6.4.1 Intermediate and Capital Goods
in the Neoclassical Theory 121

6.5 Elastic Factor Supply 123

6.6 Non-traded Goods 124

6.7 Natural Resources, “Dutch Disease”, and De-industrialization 128

6.8 International Factor Mobility and Trade in Factors 134

6.8.1 Factor Mobility, and the Theorems
of International Trade 135

6.8.2 International Movements of Labour (Migration)..... 139

6.8.3 International Movements of Capital 140

6.8.4 Foreign Direct Investment and Multinational
Corporations 141

6.8.5 Offshoring 145

6.8.6 Factor Trade..... 148

6.9 International Trade under Uncertainty 148

6.10 Illegal International Trade and the Economic Theory
of Smuggling 150

References 154

Part III New Explanations for International Trade

7 An Overview 159

7.1 Introduction 159

7.2 Theory 162

7.3 Policy 163

7.4 Growth 163

7.5 Location Theory and Trade 164

References 164

8 The Precursors 165

8.1 Availability 165

8.2 Technology Gaps 166

8.3 The Product Cycle..... 167

8.4 Income Effects..... 169

8.4.1 Linder’s Theory 169

8.4.2 Barker’s Variety Hypothesis 170

8.5 Intra-industry Trade or, the Traditional Theory Strikes Back 172

8.5.1 Perfectly Homogeneous Goods 173

8.5.2 Differentiated Products 174

References 176

9	The Models	177
9.1	Neo-Heckscher-Ohlin Theories.....	177
9.2	Monopolistic Competition and International Trade	179
9.2.1	The Krugman Model	180
9.2.2	A Simple Synthesis Model	186
9.2.3	Monopolistic Competition and Welfare Effects of Trade Opening.....	189
9.2.4	The Home Market Effect	190
9.2.5	Adding Some Realism to the Monopolistic Competition Model	195
9.2.6	The Gravity Equation.....	197
9.2.7	Heterogeneous Firms	197
9.3	Oligopoly and International Trade.....	202
9.3.1	Introduction	202
9.3.2	Homogeneous Commodities	202
9.3.3	Vertically Differentiated Goods	204
9.3.4	Horizontally Differentiated Goods.....	206
9.4	Empirical Studies in the Light of Theory	207
	References.....	210

Part IV Trade Policy

10	Tariff and Non-tariff Barriers	215
10.1	Introduction	215
10.2	GATT and WTO.....	216
10.3	Partial Equilibrium Effects of a Tariff	218
10.4	The Social Costs of a Tariff	220
10.5	General Equilibrium Effects of a Tariff	223
10.5.1	The Production-Possibility Frontier and Tariffs.....	223
10.5.2	Tariffs and Reciprocal Demand Curves	226
10.6	Quotas and Other Non-tariff Barriers	230
10.6.1	Quotas	231
10.6.2	Export Duties	233
10.6.3	International Cartels	234
10.6.4	Other Impediments to Free Trade.....	239
10.7	Intermediate Goods and Effective Rate of Protection	242
10.8	Imperfect Competition and Trade Policy	245
10.8.1	A Tariff Under Vertical Product Differentiation	246
10.8.2	Monopolistic Competition and Welfare-Improving Tariff	247
10.8.3	Strategic Trade Policy Under Oligopoly with Homogeneous Good	247
10.8.4	Strategic Trade Policy Under Oligopoly with Differentiated Good	248
	References	250

11 Free Trade vs. Protection, and Preferential Trade Cooperation	253
11.1 The Optimum Tariff	254
11.2 The Infant Industry	256
11.3 Distortions in Domestic Goods Markets	258
11.4 Distortions in Domestic Factor Markets	261
11.5 Non-economic Motives for Protection	263
11.6 The Theory of Second Best	263
11.7 Preferential Trading Cooperation	265
11.7.1 The Various Degrees of Cooperation	265
11.7.2 The Effects of a Customs Union	266
11.7.3 Empirical Problems	271
11.8 The Main Cases of Preferential Trading Cooperation	272
11.8.1 The European Common Market (Now European Union)	272
11.8.2 NAFTA	273
11.8.3 MERCOSUR	274
11.8.4 ASEAN	274
11.8.5 FTAA	274
References	274
12 The “New” Protectionism	277
12.1 Introductory Remarks	277
12.2 Why the New Protectionism?	277
12.3 Voluntary Export Restraints and Import Expansion	278
12.4 Subsidies	280
12.5 The Political Economy of Protectionism	282
12.5.1 The Demand for and Supply of Protection	283
12.6 Administered and Contingent Protection, and Fair Trade	285
12.6.1 Dumping and Antidumping	287
12.6.2 Countervailing Duty	291
12.6.3 Safeguard Actions	294
References	295
 Part V Growth and Trade	
13 International Trade and Growth: Comparative Statics	299
13.1 Introduction	299
13.2 The Effects of Growth on the Volume of Trade	300
13.2.1 Consumption Effects	300
13.2.2 Production Effects	302
13.2.3 A Reformulation in Terms of Elasticities: The Total Effect	303
13.3 Growth and Terms of Trade: Immiserizing Growth	305
13.3.1 The Large Country and the Terms of Trade	305
13.3.2 Immiserizing Growth	307

13.4	Increase in Factor Endowments and International Trade: Rybczynski's Theorem	309
13.5	Technical Progress and International Trade	310
13.5.1	Types of Technical Progress	310
13.5.2	Effects of Neutral Technical Progress on Production Levels and the Terms of Trade	312
13.5.3	Effects of Biased Technical Progress	315
13.5.4	Conclusion	319
	References	319
14	International Trade and Growth: Dynamics	321
14.1	Dynamic Models	321
14.2	A Simple Closed-Economy Two-Sector Growth Model	322
14.3	Extension to an Open Economy	325
	References	327
15	Endogenous Growth and Trade, Old and New	329
15.1	Introduction	329
15.2	A Small Open Economy with Endogenous Technical Progress ...	330
15.3	Endogenous Growth, North-South Trade and Imitation: A New Version of the Product Cycle	331
	References	334
 Part VI Globalization		
16	Globalization and Economic Geography	337
16.1	Introductory Remarks	337
16.2	Transport Cost, Location Theory, and Comparative Advantage ...	338
16.3	The Core-Periphery Model	340
16.3.1	Description of the Model	341
16.3.2	Conclusion	348
16.4	Other Models	349
16.4.1	Housing Congestion	349
16.4.2	Input-Output Linkages	352
16.4.3	Diminishing Returns to Labour in the <i>A</i> Sector	355
16.4.4	Footloose Capital	356
16.5	Too Much or Too Little Agglomeration?	358
16.6	Conclusion	361
	References	363
17	Trade Integration and Wage Inequality	365
17.1	Introduction	365
17.2	Comparative Advantage, Technical Change, and the Skill Premium	366
17.2.1	Trade Integration	366
17.2.2	Technical Change	367

17.2.3	Trade Integration and Skill-Biased Technical Change	368
17.2.4	Trade Integration Between Countries with Different Technology	369
17.2.5	Trade-Induced Skill-Biased Technical Change	372
17.2.6	A Generalization	375
17.3	Offshoring and the Skill Premium	380
17.3.1	Fragmentation of Production	380
17.3.2	Offshoring Knowledge Output	382
17.4	Economies of Scale and the Skill Premium	385
17.4.1	Intermediate Inputs and Productivity	385
17.4.2	Skill Biased Economies of Scale and Demand Elasticity	388
17.5	Heterogeneous Firms, and the Skill Premium	390
17.5.1	Trade Integration and Firm Revenue Inequality	391
17.5.2	Quality and Heterogeneous Fixed Inputs	392
17.5.3	Endogenous Technology Adoption with Heterogeneous Workers	394
17.5.4	Heterogeneous Hiring (Fixed) Costs	398
17.5.5	Heterogeneous Globalization Modes	402
17.6	Endogenous Market Size	406
17.7	Conclusion	407
	References	408

Part VII Appendices

18	Appendix to Chapter 2	411
18.1	Maximization of World Income and the Dual Problem	411
18.2	Maximization of National Income and Minimization of Real Cost	413
18.3	A Ricardian Model with a Continuum of Goods	415
18.3.1	Supply	415
18.3.2	Demand	416
18.3.3	Determination of the Relative Wage Rate and Specialization	418
18.3.4	Trade Policy	419
18.4	On the Determination of the Terms of Trade	422
	References	426
19	Appendix to Chapter 3	429
19.1	The Transformation Curve and the Box Diagram	429
19.1.1	A Formal Derivation of the Transformation Curve and Its Properties	429
19.1.2	Convexity or Concavity of the Transformation Curve	431
19.1.3	Homogeneous Production Functions and Transformation Curve	432

19.2	A Simple Closed Economy	434
19.2.1	The Basic Model	434
19.2.2	The Supply Side of the Model	435
19.2.3	The Demand Side of the Model	436
19.3	International Trade and Offer Curves	437
19.3.1	The Equilibrium Conditions: The Offer Curve and Its Slope	437
19.3.2	Relationships Between the Various Elasticities	439
19.4	Stability	440
19.4.1	Terms-of-Trade Adjustment	440
19.4.2	Quantity Adjustment	441
19.5	Duality Approach	443
19.5.1	The Jones Model	443
19.5.2	Revenue Functions and Expenditure Functions	447
	References	449
20	Appendix to Chapter 4	451
20.1	Factor-Intensity Reversals	451
20.2	Proof of the Fundamental Theorem	454
20.3	The Factor-Price-Equalization Theorem	456
20.4	A Brief Outline of the Generalizations of the Heckscher-Ohlin Model	456
20.5	The Factor Price Equalization Set	459
20.6	The Heckscher-Ohlin-Vanek Theorem	460
	References	462
21	Appendix to Chapter 5	463
21.1	The Factor-Price-Equalization Theorem	463
21.2	The Stolper-Samuelson Theorem	463
21.3	The Rybczynski Theorem	464
	References	465
22	Appendix to Chapter 6	467
22.1	The Specific Factors Model	467
22.2	The Cost of Transport	472
22.3	Intermediate Goods	473
22.3.1	Final Goods as Inputs	473
22.3.2	Pure Intermediate Goods	474
22.4	Elastic Supply of Factors	478
22.5	Non-traded Goods	480
22.5.1	The Behaviour of the Offer Curve	481
22.6	Specific Factors and De-industrialization	484
22.6.1	Effects on Prices, Outputs and Factor Rewards	486
22.7	International Factor Mobility	487
22.7.1	The Theorems of International Trade Theory Under Factor Mobility	490
22.7.2	Factor Mobility in the Specific Factors Model	495

22.8	Uncertainty and International Trade	495
22.9	Smuggling	498
	References	500
23	Appendix to Chapter 9	503
23.1	A Neo-Heckscher-Ohlin Model	503
23.2	A Model of Monopolistic Competition	506
	23.2.1 Love for Variety and Demand	506
	23.2.2 The Production Side	509
	23.2.3 International Trade	510
23.3	Homogeneous Goods, Oligopoly, and Trade	513
	23.3.1 A Cournot-Type Model	513
	23.3.2 The Equilibrium Solution	514
	23.3.3 Stability	516
23.4	Vertically Differentiated Goods, Oligopoly, and Trade	516
	23.4.1 Consumers	516
	23.4.2 Firms, and Market Equilibrium	518
	23.4.3 International Trade	521
23.5	Horizontal Differentiation, Oligopoly, and Trade	522
	23.5.1 Demand for Characteristics	522
	23.5.2 The Production Side	523
	23.5.3 International Trade	524
	References	525
24	Appendix to Chapter 10	527
24.1	Tariffs, Terms of Trade, Domestic Relative Price	527
24.2	Cartels	530
24.3	The Effective Rate of Protection	532
24.4	Imperfect Competition and Trade Policy	533
	24.4.1 A Tariff Under Vertical Product Differentiation	533
	24.4.2 Monopolistic Competition and Welfare-Improving Tariff	535
	24.4.3 Strategic Trade Policy Under Oligopoly with Homogeneous Good	536
	24.4.4 Strategic Trade Policy Under Oligopoly with Differentiated Good	541
	References	542
25	Appendix to Chapter 11	543
25.1	The Optimum Tariff	543
25.2	The Theory of Second Best	544
	References	546
26	Appendix to Chapter 12	547
26.1	Lobbies, Political Parties, and Endogenous Determination of Protection	547
26.2	Dumping	549
	References	550

27	Appendix to Chapter 13	551
27.1	Classification of the Effects of Growth.....	551
27.2	Comparative Statics of the Effects of Growth in General	553
27.2.1	Immiserizing Growth	556
27.3	Changes in Factor Endowments, Rybczynski's Theorem, and the Terms of Trade	557
27.3.1	Simultaneous Increase in Both Factors	561
27.4	Technical Progress	563
27.4.1	Effects of Technical Progress on Factor Intensities and Rewards	564
27.4.2	Effects of Technical Progress on Output Levels	567
27.4.3	Effects of Technical Progress on the Terms of Trade	569
	References.....	570
28	Appendix to Chapter 14	571
28.1	A Dynamic Model of Growth and Trade.....	571
28.2	Momentary Equilibrium	573
28.3	Long Run Equilibrium	575
	References.....	578
29	Appendix to Chapter 15	579
29.1	Endogenous Growth and Traditional Trade Theory	579
29.2	Endogenous Growth and Trade: Innovation, Imitation, and Product Cycles.....	581
29.2.1	Demand	581
29.2.2	Supply: Product Quality, Innovation, and Imitation	584
29.2.3	The No-Arbitrage Conditions	588
29.2.4	The Labour Markets	589
29.2.5	Steady-State Equilibrium.....	589
29.2.6	Comparative Dynamics.....	594
	References.....	604
30	Appendix to Chapter 16	607
30.1	Numerical Phase Lines.....	607
30.2	Calibration	609
30.2.1	The Model	609
30.2.2	Calibration of the Model	611
	References.....	615
31	Appendix to Chapter 17	617
31.1	A Model of Economic Geography, International Trade, and Globalization.....	617
31.1.1	The Demand Side.....	617
31.1.2	The Supply Side	618
31.1.3	Equilibrium	619

31.2 The Dynamics of the Model and the Emergence of a Core-Periphery Pattern	620
31.2.1 The Manufacturing Sector	621
31.2.2 The Dynamics: Bifurcation Analysis	627
References	628
Bibliography	629
Index	653
