Troy Tassier

The Economics of Epidemiology

Springer
## Contents

### Part I  Epidemic Modeling

1  **An Introduction to Epidemic Modeling**  
   1.1 Categorical Models  
   2 Simple Epidemics and SIS Models  
   2.1 Introduction  
   2.2 The First Model: A Simple Epidemic  
   2.3 A Full SIS Model  
   2.4 Steady State  
   2.5 Computational Implementation  

3  **SIR**  
   3.1 Introduction  
   3.2 The SIR Model  
   3.2.1 Dynamics  
   3.3 Epidemic Threshold and Steady States  
   3.4 Computational Analysis  
   3.5 Herd Immunity  
   3.6 Non-Constant Populations  

### Part II  Merging Economics and Epidemiology

4  **Economic Modeling and Epidemiology**  
   4.1 Economic Utility  
   4.2 Utility and Epidemic Modeling  
   4.3 The Economics of Prevention  
   4.3.1 Individual Prevention Decisions  
   4.3.2 Public Prevention Decisions  
   4.3.3 Costs and Benefits of Public Health Decisions
