CONTENTS

Preface ix

Part I—Three Models for Making Innovation Happen

Chapter 1—The Other Side of Innovation 3

First, Shift Attention to Execution 4
Organizations Are Not Built to Execute Innovation 6
Let's Define Terms 9
Only Three Models Make Sense 13
Working Around the Performance Engine 15
Where Do the Resources Come From? 16

Chapter 2—Model S Is for Small Initiatives 21

The Limitation to Model S Is Project Size 23
The Key to Model S Success Is Motivation 25
Pushing the Limits of Model S 29
Roles for the Full-Time Teams 31

Chapter 3—Model R Delivers Repeatable Innovation 33

The Key to Model R Success Is Process Excellence 34
The Limitation to Model R Is Project Similarity 38
CONTENTS

Pushing the Limits of Model R  39
Respecting the Limits to Model R  40

Chapter 4—Model C Is for All Other Innovations  43
First, Dispose of the Myth  46
Attacking the Fundamental Incompatibilities Head On  48
Matching Each Initiative to the Right Model  50

Part II—Model C: Build the Team

Chapter 5—Build the Team: An Overview  57
You Must Create a Dedicated Team for Each Model C Initiative  58
The Dedicated Team Is Not the Whole Story  61
The Dedicated Team Has Nearly Unlimited Flexibility  64
It's Not a Peaceful Partnership  65
Avoid Common Errors  66

Chapter 6—Divide the Labor  73
When the Strength of a Team Is Less Than the Sum of the Individuals Within It  74
Some Additional Guidelines for Dividing the Labor  77
When Models R and C Overlap  80

Chapter 7—Assemble the Dedicated Team  83
Mistake #1: Too Many Insiders  85
Mistake #2: Defaulting to Existing Job Definitions  88
Mistake #3: Leaving the Same People in Charge  89
CONTENTS

Mistake #4: Adopting the Same Metrics, Processes, or Culture 90
Mistake #5: Defaulting to the Same Policies 92

Chapter 8—Manage the Partnership 95
It's Never a Fair Fight 96
Ensure That the Shared Staff Has Sufficient Capacity for Both Jobs 100
Neutralizing Anxieties That Undermine the Partnership 102

Part III—Model C: Create the Plan

Chapter 9—Create the Plan: An Overview 107
Learning First, Profits Second 108
Do Not Leave Learning to Intuition 111
Your Existing Planning Process Is Not an Innovation Asset 113

Chapter 10—Create a Structure for Disciplined Experimentation 117
Principle #1: Each Initiative Requires a Separate, Stand-Alone, Custom Plan with Custom Performance Metrics 118
Principle #2: Discuss Results and Lessons Learned in a Separate Forum 119
Principle #3: Meet Frequently 121
Principle #4: Make a Heavy Investment of Time and Energy 122
CONTENTS

Chapter 11—Break Down the Hypothesis 125
   Be Aware of the Limitations of Spreadsheets 126
   What Are We Spending Money On? And, Why? 128
   Build a Custom Scorecard 134
   Go Ahead, Put a Stake in the Ground 135

Chapter 12—Seek the Truth 141
   Performance Evaluation in the Performance Engine 142
   It Is Not So Easy for Innovation Initiatives 143
   Innovation Leaders Must Be Evaluated Differently,
   but with No Less Discipline 145
   Create an Atmosphere of Scientific Detachment 149

Conclusion—Key Lessons Learned 153

Appendices: Related Topics 157
   Appendix 1—Strategy 159
   Appendix 2—Change 164
   Appendix 3—The Chief Innovation Officer 167

Acknowledgments 171
