CONTENTS

PREFACE TO THE SECOND EDITION OF FOOD POLITICS xiii

1 An Overview of Food Politics 1

What is food politics? 1
Is food politics driven by material interests or by social values? 2
Is food politics a global or a local phenomenon? 4
Who are the most important actors in food politics? 6
Has the politics of food and agriculture recently been changing? 7

2 Food Production and Population Growth 9

Who was Thomas Malthus, and why did he see hunger as inevitable? 9
Was Malthus ever influential? 10
Are Malthusians still influential? 12
Can we feed a growing population without doing irreversible damage to the environment? 13
Is Africa facing an eco-Malthusian food crisis today? 14
Do Malthusians try to reduce population growth? 15
Do Malthusians argue that we should reduce food consumption? 17
3 The Politics of High Food Prices

When did high food prices become a political issue? 18
What caused these spikes in international food prices? 19
How many people became hungry when prices spiked in 2007–2008? 21
Do international food price spikes cause violent conflict? 23
Have higher food prices triggered “land grabs” in Africa? 24
Have subsidies and mandates for biofuels contributed to higher international food prices? 26
Have higher international prices become a permanent feature of food politics? 28

4 The Politics of Chronic Hunger and Famine

How do we measure hunger? 31
How many people around the world remain chronically undernourished? 32
What causes chronic undernutrition? 34
Does chronic hunger trigger political unrest? 35
Is chronic undernutrition a problem in the United States? 36
Do developing countries have policy remedies for chronic undernutrition? 39
What is the difference between undernutrition and famine? 41
When have famines taken place? 42
What causes famines? 42
How do famines end? 45
What has been the most successful international response to famine? 46
Can famine be prevented? 47

5 Food Aid and Agricultural Development Assistance

What is international food aid? 49
Which countries get food aid? 50
Do rich countries give food aid to dispose of their surplus production? 51
Why are America's food aid policies so difficult to change? 52
Does food aid create dependence or hurt farmers in recipient countries? 54
Do governments seek coercive power from food aid? 56
How is agricultural development assistance different from food aid? 57
How much international assistance do rich countries provide for agricultural development? 59
Which agencies operate United States agricultural development assistance? 60
Who benefits from agricultural development assistance? 61

6 The Green Revolution Controversy 64

What was the green revolution? 64
Why is the green revolution controversial? 65
Did the green revolution end hunger? 67
Did the green revolution lead to greater rural inequality? 69
Was the green revolution bad for the environment? 71
Why did the original green revolution not reach Africa? 73
What farming approaches do green revolution critics favor? 75
How have green revolution critics shaped international policy? 78

7 The Politics of Obesity 81

Is the world facing an obesity crisis? 81
How do we measure obesity? 81
What are the consequences of the obesity epidemic? 82
What is the cause of today's obesity epidemic? 84
Does cheap food cause obesity? 85
Do fast foods and junk foods cause obesity? 87
Is the food industry to blame for the way we eat? 88
Do "food deserts" cause obesity? 91
What government actions are being taken to reverse the obesity crisis? 93
Who lobbies for and against stronger policies on obesity? 97

8 The Politics of Farm Subsidies and Trade 100

Do all governments give subsidies to farmers? 100
What explains the tendency of all rich countries to subsidize farm income? 101
Do farmers in rich countries need subsidies to survive? 102
Why are farm subsidies hard to cut? 103
What is the "farm bill" and what is the "farm lobby"? 105
Is the use of corn for ethanol a subsidy to farmers? 107
What is the value of promoting corn-based ethanol in the United States? 108
How do farm subsidies shape international agricultural trade? 110
Has the WTO been able to discipline farm subsidies? 111
Do trade agreements like NAFTA hurt farmers in countries like Mexico? 113

9 Farming, the Environment, Climate Change, and Water 116

Does agriculture always damage the environment? 116
What kind of farming is environmentally sustainable? 118
What is low-impact or "precision" farming? 121
Do fragile lands, population growth, and poverty make farming unsustainable? 123
Do cash crops and export crops cause environmental harm? 125
Do farm subsidies promote environmental damage in agriculture? 126
How will climate change affect food production? 128
Does agriculture contribute to climate change? 131

13 Food Safety and Genetically Engineered Foods

How safe is America’s food supply?  
How do foods become contaminated?  
Who regulates food contamination in the United States?  
Is food safety an issue in international trade?  
Does the industrialization of agriculture make food less safe?  
Is irradiated food safe?  
What is genetically modified food?  
How are genetically engineered foods regulated?  
How widespread are genetically engineered foods?  
Why do some people resist GMOs?  
Do genetically engineered crops strengthen corporate control?  
Are GMO foods and crops safe?  
Could genetically engineered crops provide benefits to small farmers in developing countries?
14 Who Governs the World Food System? 205

Is there a single world food system? 205
How do national governments exercise control? 206
Which are the most important international organizations in the food and farming sector? 207
What has limited the influence of international organizations? 211
Do multinational corporations control the world food system? 214
How much power do non-governmental organizations have? 216
What is the role of private foundations? 218

15 The Future of Food Politics 220

In the future, will obesity continue to replace hunger as the world’s most serious food problem? 220
In the future, will food and farming systems become more localized or more globalized? 221
In the future, will the spread of affluent eating habits destroy the natural environment? 223
In the future, will the politics of food remain contentious? 224
