Preface 19

Chapter 1 Managing in the Digital World 30
  MANAGING IN THE DIGITAL WORLD: Apple 31

Information Systems Today 32
  The Rise of the Information Age 35
  BRIEF CASE Technology at Starbucks 36
  Five IT Megatrends in the Information Age 37
  WHO’S GOING MOBILE The Evolution of Post-PC Devices 41

Evolution of Globalization 42
  Key Factors Enabling Globalization 42
  The Rise of Information Systems Outsourcing 44
  Opportunities of Operating in the Digital World 45
  Challenges of Operating in the Digital World 46

Information Systems Defined 47
  KEY PLAYERS Wipro and Infosys—The Global Outsourcing Leaders 47
  Data: The Root and Purpose of Information Systems 48
  Hardware, Software, and Telecommunications Networks: The Components of Information Systems 49
  People: The Builders, Managers, and Users of Information Systems 49
  Organizations: The Context of Information Systems 54

The Dual Nature of Information Systems 58
  Case in Point: An Information System Gone Awry: Leap Year Glitch Stops Government Cloud Computing Services (or Doesn’t?) 58
  Case in Point: An Information System That Works: FedEx 59
  Information Systems for Competitive Advantage 59
  Why Information Systems Matter 60
  WHEN THINGS GO WRONG Failure: The Path to Success? 60

IS Ethics 61
  COMING ATTRACTIONS The Future of Cloud-Based Communications 61
  Information Privacy 62
  Intellectual Property 66
  ETHICAL DILEMMA The Human Cost of the Newest Gadgets 67
  The Need for a Code of Ethical Conduct 68
  The Digital Divide 68

  INDUSTRY ANALYSIS Business Career Outlook 69

Key Points Review 70 • Key Terms 71 • Review Questions 72
• Self-Study Questions 72 • Problems and Exercises 73 • Application Exercises 74 • Team Work Exercise 75 • Answers to the Self-Study Questions 75

  BRIDGING THE DIGITAL DIVIDE 76
  ENABLING GLOBAL PAYMENTS AT PAYPAL 77
Chapter 2  Gaining Competitive Advantage Through Information Systems  78

MANAGING IN THE DIGITAL WORLD: The Business of Merging “Groups” and “Coupons”  79

Enabling Organizational Strategy through Information Systems  80
Organizational Decision-Making Levels  81
Organizational Functional Areas  83
Information Systems for Automating: Doing Things Faster  84
Information Systems for Organizational Learning: Doing Things Better  85
Information Systems for Supporting Strategy: Doing Things Smarter  86
Sources of Competitive Advantage  87

■ BRIEF CASE For Sale By Owner: Your Company’s Name.com  88
Identifying Where to Compete: Analyzing Competitive Forces  89
Identifying How to Compete: Analyzing the Value Chain  89
The Role of Information Systems in Value Chain Analysis  91
The Technology/Strategy Fit  91
Assessing Value for the IS Infrastructure  92
Putting It All Together: Developing a Successful Business Model  92
Changing Mind-Sets About Information Systems  93

International Business Strategies in the Digital World  94
Home-Replication Strategy  94

■ WHEN THINGS GO WRONG The Pains of Miscalculating Groupon  95
Global Business Strategy  96
Multidomestic Business Strategy  96
Transnational Business Strategy  98

Valuing Innovations  99

■ WHO’S GOING MOBILE Mobile Operating Systems  99
The Need for Constant IS Innovation  100
Successful Innovation Is Difficult  100
Organizational Requirements for Innovation  102
Predicting the Next New Thing  103

■ COMING ATTRACTIONS Google’s Project Glass: A Pair of Glasses  103
The Innovator’s Dilemma  104

■ KEY PLAYERS The Global Elite  108

Freeconomics: Why Free Products Are the Future of the Digital World  110
How Freeconomics Works  110
The Freeconomics Value Proposition  111

■ ETHICAL DILEMMA Underground Gaming Economy  112
Applying Freeconomics in the Digital World  113

■ INDUSTRY ANALYSIS Banking Industry  114
Key Points Review  115  ▪  Key Terms  116  ▪  Review Questions  116
  ▪  Self-Study Questions  116  ▪  Problems and Exercises  118  ▪  Application
  Exercises  119  ▪  Team Work Exercise  119  ▪  Answers to the Self-Study
  Questions  120

■ LINKEDIN  121
■ NETFLIX  122

Chapter 3  Managing the Information Systems Infrastructure and Services  124

MANAGING IN THE DIGITAL WORLD: “I Googled You”  125

The IS Infrastructure  127

■ WHO’S GOING MOBILE The Cloud Phone  129
Applications and Databases Supporting Business Processes  130
Contents

Chapter 5  Enhancing Organizational Communication and Collaboration Using Social Media  
MANAGING IN THE DIGITAL WORLD: Facebook.com  
The Need for Communication and Collaboration  
The Evolving Web  
The Evolving Social Interaction  
The Evolving Collaboration through Collective Intelligence  
The Evolving Workspace  
BRIEF CASE Crowdsourcing a Constitution  
Future Web Capabilities  
Enterprise 2.0  
Traditional Collaboration Tools  
Groupware  
Videoconferencing  
Intranets and Employee Portals  
Social Media and the Enterprise  
Enhancing Communication Using Social Media  
Enhancing Cooperation with Social Media  
COMING ATTRACTIONS Bio-Storing Files in Bacteria  
Enhancing Collaboration with Social Media  
KEY PLAYERS You, the Content Creator  
WHO’S GOING MOBILE Mobile Social Media  
Enhancing Connection with Social Media  
ETHICAL DILEMMA “Zucking” Up the Universe  
Managing the Enterprise 2.0 Strategy  
Organizational Issues  
WHEN THINGS GO WRONG Social Media Meltdown at Nestlé  
Pitfalls of Web 2.0 Marketing  
INDUSTRY ANALYSIS Online Travel  
Key Points Review  
Key Terms  
Review Questions  
Self-Study Questions  
Problems and Exercises  
Team Work Exercise  
Answers to the Self-Study Questions  
DIGG.COM: THE RISE AND FALL OF A SOCIAL MEDIA GIANT  
WIKIPEDIA: WHO IS EDITING?
Chapter 8

Strengthening Business-to-Business Relationships via Supply Chain and Customer Relationship Management

Supply Chain Management

- What Is a Supply Chain? 339
- B2B Marketplaces 341
- Managing Complex Supply Networks 342
- Benefits of Effectively Managing Supply Chains 342
- Optimizing the Supply Chain through Supply Chain Management 345
- WHEN THINGS GO WRONG Apple’s “Very Angry Birds” Disrupt App Store Supply Chain 346
- SCM Architecture 347
- BRIEF CASE The Formula for Success: Demand Media 349
- Developing an SCM Strategy 349
- Managing B2B Financial Transactions 350
- Key Technologies for Enhancing SCM 351
- COMING ATTRACTIONS Saving Lives through 3D Bioprinting 353

Customer Relationship Management

- KEY PLAYERS Salesforce.com 356
- Developing a CRM Strategy 357
- Architecture of a CRM System 358
- WHO’S GOING MOBILE The Power of Mobile CRM 360
- ETHICAL DILEMMA CRM: Targeting or Discriminating? 365
- Ethical Concerns with CRM 366
- INDUSTRY ANALYSIS Manufacturing 367
- Key Points Review 367 • Key Terms 368 • Review Questions 368
- Self-Study Questions 369 • Problems and Exercises 370 • Application Exercises 371 • Team Work Exercise 371 • Answers to the Self-Study Questions 371
- THE BATTLE FOR THE DASHBOARD 372
- CRM 2.0 373

Chapter 9

Developing andAcquiring Information Systems

Making the Business Case 376
- Business Case Objectives 376
- The Productivity Paradox 377
### Contents

- **Making a Successful Business Case** 379
- **BRIEF CASE** The Cold War in Software Patents 380
- **COMING ATTRACTIONS** Microsoft’s PixelSense—Any Place, Any Time 383
- Presenting the Business Case 385
- **ETHICAL DILEMMA** Genetic Testing 386

#### The Systems Development Process 388

- Customized versus Off-the-Shelf Software 388
- Open Source Software 388
- Combining Customized, Open Source, and Off-the-Shelf Systems 390
- IS Development in Action 390
- The Role of Users in the Systems Development Process 392
- Steps in the Systems Development Process 392
- **WHO’S GOING MOBILE** Creating Mobile Apps 393
- Phase 1: Systems Planning and Selection 394
- Phase 2: Systems Analysis 394
- Phase 3: Systems Design 396
- Phase 4: Systems Implementation and Operation 398
- Repeating the SDLC: Systems Maintenance 400
- **KEY PLAYERS** Game Development Studios 401
- Other Approaches to Designing and Building Systems 403

#### Acquiring Information Systems 404

- **WHEN THINGS GO WRONG** Conquering Computer Contagion 405
- External Acquisition 405
- Outsourcing Systems Development 410
- **INDUSTRY ANALYSIS** Broadcasting 411
- Key Points Review 412 • Key Terms 413 • Review Questions 413
- Self-Study Questions 414 • Problems and Exercises 414 • Application Exercises 416 • Team Work Exercise 417 • Answers to the Self Study Questions 417
- **NEXT GENERATION IDENTIFICATION**: FBI, ICE DATABASES EXPAND AND JOIN FORCES 418
- **THE EMERGENCE OF OPEN SOURCE SOFTWARE** 419

#### Chapter 10 Securing Information Systems 420

**MANAGING IN THE DIGITAL WORLD**: Not So “Anonymous”—Activists, Hacktivists, or Just Plain Criminals? 421

#### Computer Crime 422

- Hacking and Cracking 424
- Types of Computer Criminals 424
- **ETHICAL DILEMMA** Espionage 425
- Constructive Code 428
- Internet Hoaxes 434
- Cybersquatting 434
- Cyberharassment, Cyberstalking, and Cyberbullying 434
- Software Piracy 435
- Federal and State Laws 437
- **WHO’S GOING MOBILE** Mobile Security 438

#### Cyberwar and Cyberterrorism 438

- Cyberwar 439
- Cyberterrorism 440
- **BRIEF CASE** 3D Crime Scenes 444
Information Systems Security 444
Safeguarding IS Resources 444
Technological Safeguards 445

COMING ATTRACTIONS Speeding Security Screening 446
Human Safeguards 453
Computer Forensics 454

KEY PLAYERS White Knights of the Internet Age 455

Managing IS Security 456
Developing an IS Security Plan 456
The State of Systems Security Management 458

WHEN THINGS GO WRONG Stopping Insider Threats: WikiLeaks and Bradley Manning 459

Information Systems Controls, Auditing, and the Sarbanes–Oxley Act 460
IS Auditing 460
The Sarbanes–Oxley Act 462

INDUSTRY ANALYSIS Cybercops Track Cybercriminals 463

Key Points Review 463 • Key Terms 465 • Review Questions 465
Self-Study Questions 466 • Problems and Exercises 466 • Application Exercises 468 • Team Work Exercise 468 • Answers to the Self-Study Questions 469

UNDER ATTACK 470
CHINA’S GREAT (FIRE) WALL 471

Technology Briefing: Foundations of Information Systems Infrastructure 472

Foundational Topics in IS Hardware 473
Input Technologies 473
Processing: Transforming inputs into outputs 475
Output Technologies 480

Foundational Topics in IS Software 481
System Software 481
Programming Languages and Development Environments 482
Open Source Software 487

Foundational Topics in Networking 488
Evolution of Computer Networking 488
Types of Networks 490
Packet Switching 493
Network Standards and Protocols 493
Network Technologies 496
The Internet 503

Foundational Topics in Database Management 509
Relational Database Design 509

Key Points Review 514 • Key Terms 515 • Review Questions 516
Self-Study Questions 517 • Problems and Exercises 518
Answers to the Foundational Hardware Self-Study Questions 520 • Answers to the Foundational Software Self-Study Questions 520 • Answers to the Foundational Networking Self-Study Questions 520 • Answers to the Foundational Database Self-Study Questions 520

Acronyms 521
Glossary 525
References 543
Name Index 553
Organization Index 557
Subject Index 559
