**CHAPTER 1  THE PROACTIVE NEW PRODUCT DEVELOPMENT PROCESS**
- Learning Objectives
- Introduction
- New Product Development Is Risky
- Service Economy
- Stage-Gate: A Systematic, Sequential, Iterative Process
  - The Fuzzy Front End: Discovery through Scoping
  - Design Phase: Building the Business Case through Development
  - Testing and Validation
  - Launch and Postlaunch Review
- Criticisms of Sequential Processing
- What Is a New Product Exactly? How Can They Be Classified?
- Types of New Products and Customizing the Development Process
- Why Innovation Type Matters
- Avoiding Failures
- Marketing's Involvement in the Stage-Gate Process
- The New Product Manager
- Goals of the Text
- Chapter Summary
- Glossary
- Review Questions
- Assignment Questions
- Endnotes

**CHAPTER 2  NEW PRODUCT INNOVATION STRATEGY**
- Learning Objectives
- Introduction
Corporate Strategy Dictates Innovation Strategy
Innovation Strategy
Innovation Strategy Dictates the New Product Development Strategy
Reactive versus Proactive Innovation Development Process
Which Innovation Strategy to Use?
New Product Portfolio Management
Tools for Portfolio Management
Portfolio Maps
Portfolio Review Process
Formal Process versus Reality
Chapter Summary
Glossary
Review Questions
Assignment Questions
Endnotes

Chapter 3 Opportunity Identification and Idea Generation: The Fuzzy Front End
Learning Objectives
Introduction
Opportunity Identification
Step 1: Generating Product Ideas
  Identifying Lead Users
Ideation Methods
  Scenario Generation
  Problem Analysis
  Crowdsourcing for New Product Ideas
  Brainstorming
  Inventive Templates
  Individual Creativity
  Group Creativity
Step 2: Aligning Opportunities with NPD Strategy
  Portfolio Alignment
Step 3: Market Identification
  Growth Potential
  Economies of Scale
  Competitive Attractiveness
  Investment
  Reward
  Risk
Step 4: Market Selection
  Substitution
  Selecting the Best Opportunities
Chapter Summary
Glossary
Review Questions
Assignment Questions
Endnotes
Creativity Resources

Chapter 4 Out of the Fuzzy Front End into the Design Phase
Learning Objectives
Introduction
CONTENTS

Go/No Go Decision Making 91
Idea Screening Gate 94
Idea Selection Process 94
Number of Ideas 95
Scoping: The First Stage 96
Scoring Models 99
Voice of the Customer Analysis 99
Experiential Interviews 102
Empathic Design and User Observation 103
Elicitation Techniques 105
Benefit Chains 105
Web-Based "Eavesdropping" 107
Evaluating the Data 109
Building the Business Case 111
Situational Analysis 112
Product Definition 113
Project Justification 114
Project Plan 114
Chapter Summary 115
Glossary 116
Review Questions 118
Assignment Questions 118
Endnotes 120

Chapter 5 The Concept Test 123
Learning Objectives 123
Introduction 124
What Is a Concept Test? 125
Conducting the Concept Test 127
Step One: Determine Goal of Concept Test 127
Step Two: Select a Survey Population 128
Step Three: Select Most Appropriate Survey Format 129
Step Four: Prepare the Concept Statement 130
Step Five: Develop the Questionnaire and Conduct the Survey 134
Step Six: Interpret and Report the Results 137
Sales Forecasts Based on Purchase Intent 139
Forecasting New Product Sales from Likelihood of Purchase Ratings 140
Creating a Positioning Statement 141
Concerns with Concept Tests 142
Chapter Summary 143
Glossary 144
Review Questions 145
Assignment Questions 145
Appendix: Concept Description Example for TH!NK Electric Vehicle 146
Endnotes 148

Chapter 6 Perceptual Maps 151
Learning Objectives 151
Introduction 153
Customers Buy Based on Perceptions 153
Benefits and Value 154
Perceptual Maps 155
Types of Perceptual Maps 158
# CONTENTS

Factor Analysis Summary ........................................ 166
Identifying a New Dimension (Factor) .......................... 167
Overall Similarity Gap Maps and Other Mapping Techniques ... 168
  Overall Similarity Gap Map ....................................... 168
  Value Maps and Customer Priorities .............................. 169
Chapter Summary .................................................. 172
Glossary ..................................................................... 173
Review Questions ....................................................... 175
Assignment Questions ............................................... 175
Endnotes ..................................................................... 176

## Chapter 7 Estimating Sales Potential

Learning Objectives .................................................. 179
Introduction ................................................................ 181
Forecasting Techniques ............................................. 182
  Judgment Techniques ............................................... 183
  Quantitative Techniques .......................................... 184
  Customer/Market Research Techniques ......................... 186
New Product Forecasting Strategy ............................... 186
Forecasting Using Purchase Intention .......................... 188
  Repeat Purchasing .................................................... 192
  ATAR with Cannibalization ......................................... 194
Probability Scales ..................................................... 195
Forecast Prediction ..................................................... 196
Diffusion of Innovation .............................................. 196
Estimating $p$ and $q$ .................................................. 198
Regression to Estimate Purchase Probabilities ................. 202
  Estimation of Parameters ........................................... 203
Managerial Use of the Model ...................................... 204
Chapter Summary ..................................................... 205
Glossary ..................................................................... 205
Review Questions ....................................................... 208
Assignment Questions ............................................... 209
Appendices ................................................................ 210
Appendix A ............................................................... 210
  Additional Forecasting References .............................. 210
  Sources for Estimates of Bass Model $p$ and $q$ ............ 210
Appendix B .................................................................. 211
Endnotes ..................................................................... 212

## Chapter 8 Proactive New Product Development Process

Learning Objectives .................................................. 217
Introduction ............................................................. 218
  Design .................................................................... 219
  Voice of the Engineer Blending with Voice of the Customer 222
Generate Product Designs ............................................ 226
Product Architecture and Platform in Product Design ........ 227
  Product Platform ...................................................... 228
  Product Architecture ................................................ 230
Technology Roadmapping ........................................... 231
Design Thinking and the NPD Process .......................... 235
  Problem-Solving Approach or Process ......................... 236
Process and Methods ................................................. 236

**Chapter 9**  
**PRODUCT/MARKET TESTING**

- Learning Objectives
- Introduction
- Reducing Risk
- Product Use Testing
  - Preuse Reactions
  - Alpha Testing
  - Beta Testing
  - Conducting Product Use Tests
  - Issues in Product Use Tests
  - Summary of Product Use Testing Procedures
- Market Components Testing
  - Testing Advertising
  - Testing Price
  - Testing Distribution Options
  - Summary of Marketing Components Testing
- Premarket Testing
  - Pseudosal
  - Trial/Repeat Measurement
  - Controlled Sales
  - Summary of Premarket Testing
- Market Testing
  - Test Markets
  - Rollouts
  - Market Testing for Durable Consumer Goods and Industrial Products/Services
  - Summary of Market Testing
- Chapter Summary
- Glossary
- Review Questions
- Assignment Questions
