Introduction

PART I MODELS OF HOUSEHOLD BEHAVIOR

1 Facts
  1.1 Marriage, Divorce, and Remarriage
      1.1.1 Marital Status
      1.1.2 Marital Histories
      1.1.3 Flows
      1.1.4 Transitions
      1.1.5 Households
  1.2 Marriage, Work, and Wages
      1.2.1 Time Use
      1.2.2 Wages
      1.2.3 The Marriage Premium
  1.3 Who Marries Whom?
  1.4 Children
      1.4.1 Fertility
      1.4.2 Children under Different Household Arrangements
  1.5 Saving and Life Stages
  1.6 References

2 The Gains from Marriage
  2.1 Public Goods
  2.2 Specialization and Increasing Returns to Scale
Contents

2.3 Imperfect Credit Markets 69
2.4 Risk-Sharing 71
2.5 Children 72
  2.5.1 Technology and Preferences 72
  2.5.2 Intact Families 73
  2.5.3 Divorce with No Transfers 74
2.6 Concluding Remarks 76
2.7 References 77

3 Preferences and Decision Making 80
  3.1 Preferences 80
  3.2 Household Production 84
    3.2.1 The General Framework 84
    3.2.2 Children 88
  3.3 The Unitary Model 89
  3.4 Noncooperative Models 90
    3.4.1 No Public Goods 90
    3.4.2 One Public Good 92
    3.4.3 Altruism and the Rotten Kid Theorem 95
    3.4.4 Many Public Goods 97
  3.5 Cooperative Models: The Collective Approach 99
    3.5.1 Decision Processes 100
    3.5.2 Assuming Efficiency 102
    3.5.3 Distribution Factors 104
    3.5.4 Modeling Efficiency 105
    3.5.5 Pareto Weights and Power 111
    3.5.6 Household Utility 112
    3.5.7 Caring 114
    3.5.8 Children 115
    3.5.9 The Unitary Model as a Special Case 116
    3.5.10 The Rotten Kid Theorem Revisited 119
    3.5.11 Bargaining Models 122
    3.5.12 Other Approaches 127
  3.6 References 130

4 The Collective Model: A Formal Analysis 133
  4.1 Collective Demand Functions: A General Characterization 133
    4.1.1 The Collective Household Utility Function 133
    4.1.2 Structural and Observable Demand 133
    4.1.3 The Slutsky Matrix for Collective Demands 136
4.1.4 Distribution Factors 137
4.1.5 Larger Households 139
4.1.6 Children 140
4.2 Duality in the Collective Model 141
  4.2.1 The Collective Expenditure Function 141
  4.2.2 Indirect Utilities 143
  4.2.3 Welfare 144
4.3 The Case of Purely Private Consumptions 147
  4.3.1 The Sharing Rule 147
  4.3.2 Caring Preferences 149
  4.3.3 Indirect Utilities 150
4.4 Application: Labor Supply with Private Consumption 151
  4.4.1 The General Setting 151
  4.4.2 Egoistic Preferences and Private Consumption 153
  4.4.3 Collective Labor Supply 154
4.5 Public Goods 156
  4.5.1 Lindahl Prices 156
  4.5.2 The Conditional Sharing Rule 158
  4.5.3 Application: Labor Supply, Female Empowerment, and Expenditures on Public Good 160
4.6 Household Production in the Collective Model 163
  4.6.1 The Basic Model 164
  4.6.2 Domestic Production and Time Use 165
  4.6.3 Empirical Issues 173
4.7 References 174

5 Empirical Issues for the Collective Model 176
  5.1 What Are the Objects of Interest? 176
  5.2 Data without Price Variation 179
    5.2.1 Necessary and Sufficient Conditions for a Collective Model 179
    5.2.2 Identifiability 182
    5.2.3 Private Consumption 184
    5.2.4 Assignability 185
  5.3 Observing Price Responses 187
    5.3.1 Testing the Collective Model 187
    5.3.2 Identifying the Collective Model 189
    5.3.3 A Simple Example 192
    5.3.4 The Revealed-Preference Approach 196
  5.4 The Case of Labor Supply 197
7.2 Stable Matching with Transferable Utilities: The Becker-Shapley-Shubik Model
  7.2.1 The Basic Framework 282
  7.2.2 Assortative Mating 289
  7.2.3 Matching with a Continuum of Agents 294
  7.2.4 Multidimensional Matching 296
7.3 Matching with General Utilities 298
7.4 Search
  7.4.1 The Basic Framework 301
  7.4.2 Search and Assortative Mating 307
7.5 Bargaining in Marriage (BIM) 311
7.6 References 314

8 Sharing the Gains from Marriage 316
  8.1 Determination of Shares with a Finite Number of Agents
    8.1.1 The Two-Men–Two-Women Case 317
    8.1.2 Bounds on Levels 321
    8.1.3 Bounds on Differences 322
  8.2 The Continuous Case 325
    8.2.1 Basic Results 325
    8.2.2 A Tractable Specification 328
    8.2.3 Comparative Statics 332
    8.2.4 Taxation 337
    8.2.5 An Example 340
    8.2.6 Matching on Preferences: Roe v. Wade and Female Empowerment 346
  8.3 Matching with General Utilities 354
    8.3.1 Recovering Individual Utilities: The General Strategy 355
    8.3.2 A Specific Example 356
  8.4 Matching by Categories 363
  8.5 Appendix: Extreme-Value Distributions 368
  8.6 References 369

9 Investment in Schooling and the Marriage Market 371
  9.1 The Basic Model
    9.1.1 Definitions 373
    9.1.2 Assumptions 373
    9.1.3 The Marriage Market 375
