Notes 38

Part 1 The international setting 43

2 Prices in the open economy: purchasing power parity 45

   Introduction 45
   2.1 The law of one price in the domestic economy 46
   2.2 The law of one price in the open economy 53
   2.3 A digression on price indices 57
   2.4 Purchasing power parity 60
   2.5 Purchasing power parity – the facts at a glance 65
   2.6 Purchasing power parity extensions 71
   2.7 Empirical research 76
   2.8 Conclusions 77

### 7 Sticky prices: the Dornbusch model  
196  
- Introduction  
  196  
- 7.1 Outline of the model  
  197  
- 7.2 Monetary expansion  
  202  
- 7.3 A formal explanation  
  205  
- 7.4 Case study: oil and the UK economy  
  210  
- 7.5 Empirical tests: the Frankel model  
  215  
- 7.6 Conclusions  
  217  
  
**Summary**  
  217  
**Reading guide**  
  218  
**Notes**

### 8 Portfolio balance and the current account  
220  
- Introduction  
  220  
- 8.1 Specification of asset markets  
  221  
- 8.2 Short-run equilibrium  
  224  
- 8.3 Long-run and current account equilibrium  
  230  
- 8.4 Evidence on portfolio balance models  
  231  
- 8.5 Conclusions  
  236  
  
**Summary**  
  236  
**Reading guide**  
  237  
**Notes**  
  237  

### 9 Currency substitution  
239  
- Introduction  
  239  
- 9.1 The model  
  240  
- 9.2 Evidence on currency substitution  
  246  
- 9.3 Conclusions  
  247  
  
**Summary**  
  248  
**Reading guide**  
  248  
**Notes**  
  249  

### 10 General equilibrium models  
251  
- Introduction  
  251  
- 10.1 The Redux model  
  253  
- 10.2 Extensions of Redux  
  270  
- 10.3 Evidence  
  272  
- 10.4 Conclusions  
  273  
  
**Summary**  
  274  
**Reading guide**  
  275  
**Notes**  
  276  
**Appendix 10.1: Derivation of price index (Equation 10.2)**  
  278  
**Appendix 10.2: Derivation of household demand (Equations 10.6 and 10.6')**  
  279  
**Appendix 10.3: Log linearisation of model solution (Equations L1–L4)**  
  280  
**Appendix 10.4: Sticky prices**

#### Notes

- Appendix 17.1:  
  A. Derivation of the first-order condition for money (Equation 17.36)  
  B. Derivation of the first-order condition for foreign bonds (Equation 17.37)  
  C. Proof of the solution for the exchange rate (Equation 17.43)  
  D. Proof that Equation 17.50 is the solution for Equation 17.49  

#### 18 Order flow analysis

- Introduction  
- 18.1 The structure of the foreign currency market  
- 18.2 Defining order flow  
- 18.3 Fear of arbitrage, common knowledge and the hot potato  
- 18.4 The pricing process  
- 18.5 Empirical studies of order flow  
- 18.6 Conclusions  
- Summary  
- Reading guide  
- Notes  

#### 19 A certain uncertainty: nonlinearity, cycles and chaos

- Introduction  
- 19.1 Deterministic versus stochastic models  
- 19.2 A simple nonlinear model  
- 19.3 Time path of the exchange rate  
- 19.4 Chaos  
- 19.5 Evidence  
- 19.6 Conclusions  
- Summary  
- Reading guide  
- Notes  

#### Part 6 Conclusions
