SECOND EDITION

Organization Design
A guide to building effective organizations

Patricia Cichocki
with Christine Irwin
## CONTENTS

- List of figures  xi
- List of tables  xii
- List of tools  xiii
- About the authors  xiv
- Foreword  xv
- Acknowledgements  xvii

**Introduction**  1

### PART ONE  Understanding organization design  9

**01** Putting organization design in context  11

What is design?  13
What is an organization?  16
What is organization design?  17
Why does organization design matter?  17
Why design an organization?  20
Conclusion  26

**02** Familiarize yourself with the Organization Design Compass and the OPTIMAL Way  27

Organization design models  29
The Organization Design Compass  31
Designing the OPTIMAL Way  37
Varying how you deploy the OPTIMAL Way  44
Conclusion  49

**03** Some essential building blocks  50

Organizational archetypes to get you started  52
Metaphors to change your perspective  65
Three frameworks to help you position an organization  68
Conclusion  73
PART TWO  Designing your organization the OPTIMAL Way  75

04  Outlining your brief  77

Getting off to a good start  78
Shaping the brief, understanding it, challenging it  81
Distilling the strategic intent and framing the brief  91
OPTIMAL programme considerations  98
Conclusion  103

05  Pulling together your programme  104

Resourcing the programme  105
Shaping your approach  114
OPTIMAL programme considerations  118
Conclusion  125

06  Taking stock of the change required  126

Building an evidence base  127
Assessing the direction and extent of change  139
OPTIMAL programme considerations  147
Conclusion  148

07  Identifying assessment criteria  150

Evaluating using design principles and criteria  151
Design principles for selected organization types  155
Defining design principles and criteria  157
OPTIMAL programme considerations  159
Conclusion  159

08  Mapping the design options  162

Generating design concepts  165
Developing design outlines  179
Conclusion  191

09  Assessing the alternatives  192

Assessing design options against design criteria  194
Choosing between design options  199
OPTIMAL programme considerations  202
Conclusion  204
10 Laying out the way forward 206

Developing the design blueprint 208
Preparing for implementation 216
Transitioning from design to implementation 220
OPTIMAL programme considerations 222
Conclusion 223

Taking the OPTIMAL Way forward 224

PART THREE Dealing with recurring challenges 227

11 How to maintain design integrity over time 229

What design integrity entails 230
How to maintain design integrity 231
The roles and responsibilities of a design authority 233
Conclusion 236

12 How to choose between design options when the environment is very uncertain 237

Scenarios, scenario planning and scenario testing 238
Building scenarios 240
Using scenarios before you design 243
Using scenarios to assess alternative designs 243
Conclusion 250

13 How to assess the level of capability maturity of an organization over time 251

A framework for assessing capability maturity 252
How to assess capability maturity 254
Case example: Assessing capability maturity 255
Case example: Assessing design maturity 258
Conclusion 260
Appendix 1 Skills required in an organization design team  265
Appendix 2 Organization designers’ typical backgrounds  270
Appendix 3 OPTIMAL Way outputs  272
Appendix 4 Design outputs by level and Compass segment with examples of implementation tasks  276
