<i>Foreword</i>		<i>xi</i>
<i>Acknowledgments</i>		<i>xiii</i>
<i>About the Authors</i>		<i>xv</i>
<i>Abbreviations</i>		<i>xvii</i>
	Overview	1
	Reference	15
Chapter 1	Introduction	17
	Objective and Structure of the Study	17
	Why Is Broadband Important for Economic and Social Development?	20
	How Does MENA Compare in Terms of Broadband?	23
	Notes	25
	References	26
Chapter 2	National Broadband Policies and Market Development	31
	The Need for Broadband Policies	31
	Three Core Objectives of Broadband Policy and Three Stages of Market Development	35
	Clustering Countries According to Their Level of Broadband Development	42
	References	56
Chapter 3	Infrastructure Deployment and Developing Competition	59
	Backbone Network Infrastructure	60
	Access Network Infrastructure	61
	International and Regional Infrastructure	62
	National Backbone and Backhaul Infrastructure	74
	Access Network Connectivity	80
	Notes	97
	References	98

Chapter 4	Recommendations to Accelerate the Development of Broadband Infrastructure	101
	Promote Facilities-Based Competition	103
	Introduce New Models of Infrastructure Supply	105
	Implement Measures to Reduce Deployment Costs	111
	Government Intervention to Stimulate Broadband in Underserved Areas	118
	Notes	124
	References	124
Chapter 5	Conclusion	127
Annex A	Selected Country Case Studies	129
	Morocco	129
	Tunisia	140
	The Arab Republic of Egypt	152
	Jordan	159
	Algeria	167
	Libya	178
	Notes	191
Boxes		
2.1	Egypt's National Broadband Plan	33
2.2	Broadband Policy: Objectives and Implementation of the Digital Agenda for Europe	34
2.3	Broadband Diffusion Curve	35
2.4	Affordability of Broadband for the Poorest	39
2.5	<i>Ex-ante</i> Sector-Specific Regulation in Telecommunications	41
3.1	Mobile Broadband Technologies	62
3.2	Leveraging Sovereign Wealth Funds to Expand Fiber-optic Networks: Gulf Bridge International	67
3.3	Open Access to International Submarine or Terrestrial Cables	70
3.4	Regulated Access to Submarine Cable Landing Stations in Tunisia	71
3.5	Joint Infrastructure Deployment Framework in Bahrain	79
3.6	National Infrastructure Deployment Project in Lebanon	80
3.7	Jordan's National Broadband Network	81
3.8	Broadband Usage Patterns in the Youth Population	86
3.9	The Digital Dividend	88
3.10	Ladder of Investment and Regulated Wholesale Broadband Offers	92
4.1	Relaxing Regulations for Aerial Wiring to Stimulate Broadband Development	105
4.2	Mobile Network Operators Are Pioneers in the Optimization of Network Costs	106
4.3	Leapfrogging in Lithuania	112

4.4	Cutting the Rollout Costs of Broadband Infrastructure in the European Union	114
4.5	Cross-Sectoral Passive Infrastructure Sharing in Portugal	116
4.6	Approaches to Passive Infrastructure Mapping	118
4.7	Coverage Obligations in 4G/LTE Licenses in Germany and Sweden	121
4.8	Designing Public Subsidies for Rural Broadband: The Example of Chile	122
4.9	Satellite Rural Broadband in Canada	123

Figures

1.1	Broadband Consumer Needs and Technology Options	18
1.2	Percentage of Wikipedia Articles per Language	22
B2.3.1	The S-Curve	35
B2.3.2	Penetration of Wireline Broadband Services in Various Countries	36
2.1	Fixed and Mobile Broadband Prices	37
2.2	Mobile Broadband Penetration and Affordability, December 2012	38
2.3	Fixed Broadband Penetration and Affordability, December 2012	38
2.4	Importance of Policy Objectives Depends on the Stage of Broadband Market Development	40
2.5	Fixed Broadband Penetration and Access Prices, December 2012	43
2.6	Fixed-to-Mobile Substitution in an Emerging Market (Arab Republic of Egypt) and a Mature Market (Bahrain), December 2012	45
2.7	Fixed-to-Mobile Substitution in Jordan, December 2012	48
2.8	S-Curves of Fixed Broadband Market Development in Bahrain, the United Arab Emirates, and Qatar	49
2.9	Trends in Fixed Broadband Access Technologies in Bahrain and the United Arab Emirates, December 2012	50
2.10	Mobile Broadband Penetration and Access Prices, December 2012	52
2.11	Take-up of Mobile Broadband in the Arab Republic of Egypt, Morocco, and Libya, December 2012	53
3.1	Network Components of Broadband Infrastructure	60
B3.1.1	Mobile Broadband Technologies	62
3.2	Synergies from Utilities' Investments: Roads and Water Distribution/Sanitation in Jordan	78
3.3	Global Consumer Internet Video Traffic	82
3.4	Complementary Fixed and Mobile Architectures	83
B3.8.1	Population Distribution in MENA	86
B3.8.2	User Age Distribution on Facebook in Egypt and Saudi Arabia	87
B3.8.3	Proportion of Mobile Phone Use, by Age and Activity	87
3.5	Distribution of Fixed Broadband Connections per Technology in Four MENA Subregions, December 2012	90

3.6	Distribution of Fixed Broadband Connections per Technology in MENA, December 2012	91
3.7	Fixed Broadband Market Shares of Incumbent Operators in MENA, December 2012	92
B3.10.1	Investment Ladder and Optimal Broadband Regulatory Model	93
3.8	Growth in Fixed Broadband Connections per Technology in MENA, December 2011–December 2012	94
4.1	Liberalization of the Telecommunications Sector in Bahrain	102
4.2	Supply-Side Policy Measures to Accelerate Broadband Deployment	103
B4.2.1	Overview of Mobile Network Cost Optimization Models	107
4.3	Overview of Possible New Models of Infrastructure Supply	108
4.4	Involvement of Real-Estate Companies in the Passive Infrastructure Layer	110
B4.3.1	Evolution of Breakdown of FTTx Deployment by Operator Type in Lithuania	113
4.5	Typical Stages of the Broadband Network Deployment Chain	113
B4.8.1	Mobile Broadband Subscriptions per Operator in Chile	122
A.1	Libyan Market Structure	178

Maps

1.1	Economies in the MENA Region	19
3.1	Submarine Cables and Cross-border Connections in North Africa	63
3.2	Submarine Cables and Cross-border Connections in the Middle East	64
3.3	Cross-border Connections in Maghreb Countries	66
B3.2.1	Fiber-optic cables	68
3.4	International Submarine Cable Connectivity in Morocco	73
A.1	International Submarine Cable Connectivity in Morocco	130
A.2	Main Links of Maroc Telecom's National Fiber Backbone	131
A.3	Main Links of Finetis Maroc's National Fiber Backbone	133
A.4	Key Characteristics of ONCF's Fiber-Optic Infrastructure	136
A.5	Key Characteristics of ONEE's Fiber-Optic Infrastructure	138
A.6	International Submarine Cable Connectivity in Tunisia	142
A.7	Main Links of Tunisie Telecom's National Fiber Backbone	143
A.8	Key Characteristics of SNCFT's Fiber-Optic Infrastructure	145
A.9	Key Characteristics of Tunisie Autoroutes' Fiber-Optic Infrastructure	148
A.10	Key Characteristics of STEG's Fiber-Optic Infrastructure	150
A.11	International Submarine Cable Connectivity in Egypt	153
A.12	Key Characteristics of EETC's Fiber-Optic Infrastructure	155
A.13	Key Characteristics of ENR's Fiber-Optic Infrastructure	157
A.14	International Submarine Cable Connectivity in Jordan	160
A.15	Main Links of Jordan Telecom's National Fiber Backbone	161

A.16	Key Characteristics of NEPCO's Fiber-Optic Infrastructure	163
A.17	Key Characteristics of NBN's Fiber-Optic Infrastructure	166
A.18	International Submarine Cable Connectivity in Algeria	168
A.19	Main Links of Algeria Telecom's National Fiber Backbone	172
A.20	Main Links of Djezzy's National Fiber Backbone	173
A.21	Main Links of Sonatrach's and ADE's National Fiber Backbone	175
A.22	Key Characteristics of Sonelgaz's Fiber-Optic Infrastructure	176
A.23	Key Characteristics of SNTF's Fiber-Optic Infrastructure	177
A.24	International Submarine Cable Connectivity in Libya	180
A.25	Libya–Tunisia–Egypt Terrestrial Interconnectivity, 2011	182
A.26	LPTIC NGBN Infrastructure, 2013	184
A.27	GECOL's National Fiber Optic Infrastructure, 2013	186
A.28	Fiber-Optic Infrastructure of Libyan Gas and Oil Companies, 2013	188
A.29	Fiber-Optic Infrastructure of MMR, 2013	190

Tables

1.1	Examples of Broadband Employment Multipliers	21
1.2	Overview of Broadband in MENA	24
2.1	National Broadband Policies Within MENA, 2013	32
B2.2.1	National Broadband Plans' Coverage Targets in Selected EU Countries	34
B2.4.1	Affordability of Broadband in Emerging Markets	39
2.2	Penetration and Prices of Fixed and Mobile Broadband Access, December 2012	44
2.3	Market Share of Incumbent Operator in Selected Markets, December 2012	48
2.4	Distribution of MENA Countries Among Three Development Stages	52
2.5	Penetration Rates and Prices of Mobile Broadband Access, December 2012	54
2.6	Clustering of MENA Countries in Terms of Broadband Market Development	56
3.1	Design Capacity for Existing Cables and Effective Bandwidth per Capita, 2011	65
3.2	Competition for International Submarine Cable Connectivity	69
3.3	How Ready are MENA Economies for Affordable Broadband?	74
3.4	Options for Expansion of National Backbone Infrastructure	75
3.5	Options for Expansion of National Backbone Infrastructure in Selected Countries	76
3.6	Global Consumer Web, Email, and Data Traffic, 2012–17	82
3.7	Mobile Broadband Connections per Technology in MENA Subregions, December 2012	84
3.8	Digital Switchover Across the MENA Region	88

3.9	Launch of 4G Services in the MENA Region, September 2011– December 2012	89
3.10	Penetration of PCs and Internet User-to-PC Ratio in the MENA Region, 2011	95
3.11	Evolution of FTTH/B in MENA Subregions	96
4.1	Supply-Side Policy Measures in Accordance with Broadband Market Development	104
4.2	Distribution of Costs Between Different Infrastructure Layers	106
4.3	Operational Models Involving Real-Estate Developers and Telecommunications Operations	111
4.4	Examples of Active and Passive Infrastructure Sharing	115
4.5	Coordination Mechanisms in Finland, France, and the Netherlands	117
4.6	Bottlenecks and Barriers to More Efficient Use of Passive Infrastructure	118
B4.6.1	Approaches to Passive Infrastructure Mapping	119
A.1	Algerian International Gateways: Landing Stations, Terrestrial, and Potential Alternatives	170
A.2	Key Features of Libya's NGBN Infrastructure, 2013	183
A.3	Key Features of GECOL Fiber Optic Infrastructure, 2013	185
A.4	Fiber-Optic Infrastructure of Libyan Gas and Oil Companies, 2013	187
A.5	Key Features of the MMR Infrastructure	189
