Of Synthetic Finance
Three essays of speculative materialism

Benjamin Lozano
Contents

List of illustrations xix
Acknowledgments xx

Introduction 1

1 Some material properties of synthetic finance 6
Moneyness 6
Divisibility 7
Reversibility 9
Liquidity 13
Maturity 22
Risk 25
Cash flow 29
First ontological principle of synthetic finance 38

2 The materialism of synthetic finance: a case study on credit derivatives in seven notes 42
Note 1 Credit default swaps 42
Note 2 Total return swaps 44
Note 3 Credit derivatives 47
Note 4 Tranches 52
Note 5 Credit linked notes 56
Note 6 Structured investment vehicles 60
Note 7 Synthetic CDOs 64
Ending with a modest proposal 69

3 Wagers of the synthetic: Difference & Repetition as heterodox political economy 73
Introduction 73
Synthetic symmetry 74
Contents

Hyperfungibility 79
Speculative materialist communism 81
Nomadic distribution 83
Virtual objects 86
Qualitative multiplicities 92
Three wagers of speculative materialism 103

Appendices: two kinds of symmetry, three classes of exchange

Appendix 1 – Symmetry and exchange (or, economic transformations) 109
Appendix 2 – Classical exchange 112
Appendix 3 – Generic finance 120
Appendix 4 – Synthetic finance 127
Appendix 5 – Markets as multiplicities 134
