Introduction 1

1 Developing mature organizations for societal value 3
  Developing organizations to create value 3
  Developing a global value system 5
  Value as purpose 6
  Redefining OL&D as an evidence-based profession 8
  Value and ethics 9
  Only mature organizations become virtuous circles of value creation 11
  The Six Stages of the Maturity Scale 14
  Saying no to training demands 14
  Anticipating learning needs 16
  Anticipating learning needs moves the organization to Stage 4 17
  Re-educating senior managers about learning 19

2 The evaluation challenge: theory and practice 33
  Let’s face it – evaluation is never going to be a popular subject 33
  Dealing with the top 10 objections to measurement, evaluation and ROI 34
  What is the purpose of learning? 37

Where does conventional management development fit? 120
Design principles — deconstruction versus results 121
Where does learning technology fit in? 122

5 Strategic OL&D is integral to business strategy 125
OL&DPs have a vocation to create value through people 125
Establishing the principles of evidence-based OL&D 126
What does ‘being strategic’ really mean? 129
Developing strategic thinking as an OL&DP 131
OL&DPs are consummate business analysts 134
The strategic framework for whole system analysis 135
The vision thing 136
Learning strategy 138
Turning a burger vision into reality 141
Operational learning — minimum information 144
Measuring whole system effectiveness 145
Developing ‘soft’ management skills 146

6 The role of OL&D in a mature organization 150
A completely new role 150
The OL&DP’s role as wise counsel 152
The internal customer isn’t always right 155
A positive and constructive relationship for the OL&DP 157
An evaluation feedback algorithm — follow the simple steps 158
The learning contract 158

7 Designing and developing the whole system 166
Designing the whole system means the whole system 166
Can an organization learn? 169
That used to be the HP way 170
Specifying the learning organization 171
Brain transplants for non-learning organizations 173
The necessary conditions for a learning organization 175
Offering new insights into organizational management 176
The concept of balanced measures and scorecards 177
EFQM — The European Foundation for Quality Management Model 179
Whole system development 181
Human systems analysis 182
Organization design always comes before organization development 184
IHRM’s Ten Pillars 186
Process improvement is a good place to start 189
Designing the honest organization 191
Designing and developing individual roles, strategically 193
Process analysis: the nuts and bolts of role definition 194
The human interconnectivity of processes 197
Learning loops 199
Rating organizational maturity 201
