Simulating Knowledge Dynamics in Innovation Networks
Contents

1 Simulating Knowledge Dynamics in Innovation Networks:
   An Introduction ................................................. 1
   Petra Ahrweiler, Andreas Pyka, and Nigel Gilbert

Part I Innovation Strategies

2 Firm-Level Business Strategies and the Evolution of Innovation
   Networks in the Nordic Internet Service Industry ............. 17
   Martin Blom and Jarle Moss Hildrum

3 The Evaluation of Value Chain Marketing Strategies:
   An Agent-Based Approach ..................................... 47
   Stephanie Hintze and Christian Lüthje

4 Micro Strategies and Macro Patterns in the Evolution
   of Innovation Networks: An Agent-Based Simulation Approach .... 73
   Matthias Müller, Tobias Buchmann, and Muhamed Kudic

Part II Testing Policy Options

5 Simulating the Effects of Public Funding on Research in Life
   Sciences: Direct Research Funds Versus Tax Incentives .......... 99
   Manuela Korber and Manfred Paier

6 R&D Policy Support and Industry Concentration: A SKIN
   Model Analysis of the European Defence Industry ............... 131
   Fulvio Castellacci, Arne Fevolden, and Martin Blom

7 Testing Policy Options for Horizon 2020 with SKIN ............. 155
   Petra Ahrweiler, Michel Schilperoord, Andreas Pyka, and Nigel Gilbert

8 Towards a Prototype Policy Laboratory for Simulating
   Innovation Networks ........................................... 185
   Michel Schilperoord and Petra Ahrweiler
Part III Applying SKIN to Innovation Sectors

9 Modelling the Emergence of a General Purpose Technology from a Knowledge Based Perspective: The Case of Nanotechnology... 201
Benjamin Schrempf and Petra Ahrweiler

10 Multilevel Analysis of Industrial Clusters: Actors, Intentions and Randomness Model ........................................ 217
Ozge Dilaver, Elvira Uyarra, and Mercedes Bleda

Index .......................................................... 243
