Hui Zhou

China's Monetary Policy Regulation and Financial Risk Prevention

The Study of Effectiveness and Appropriateness

Springer

Contents

1 Literature Review and Research Framework 1
1.1 Literature Review on the Effectiveness of Monetary Policy Regulation on Economic Growth and Inflation 1
1.2 Literature Review on the Appropriateness of Money Policy Regulation on Asset Price 3
1.3 Literature Review on Financial System Risk Prevention and Regulation 5
1.3.1 Literature Review on Systemic Financial Risk Prevention ... 5
1.3.2 Literature Review on Macro-Prudential Regulation on Financial System 11
1.4 Research Content and Framework 13
1.5 Content, Research Method, Academic Innovation, Academic Value and Limitations 15
1.5.1 The Content of This Book Mainly Covers the Following ... 15
1.5.2 Research Methods 16
1.5.3 Theoretical Innovation 17
1.5.4 Limitations 18

2 Effectiveness Study of Chinese Monetary Policy Regulation on Economic Growth and Inflation 19
2.1 Retrospect of Chinese Monetary Policy 20
2.1.1 Exploration Stage: From Reform and Opening up to 1992 ... 20
2.1.2 Optimation Stage: From 1993 to 1996 21
2.1.3 Gradual Maturity Stage: Since 1997 22
2.2 Intermediary Target: An Important Guarantee for Monetary Policy Effectiveness 25
2.2.1 Interest Rate, an Immature Choice 26
2.2.2 Interest Rate, an Immature Choice 26
2.2.3 Money Supply, an Ideal Choice 26

2.3 Empirical Effectiveness Research on China's Monetary Policy Regulation on Economic Growth and Price Level 27
2.3.1 Model Establishment 27
2.3.2 Data Collection and Processing 29
2.3.3 Basic Statistical Characteristics 29
2.3.4 Empirical Analysis Based on MGARCH-BEKK Model 30
2.4 Conclusions on the Effectiveness of Money Policy Regulation..... 31

3 Appropriateness Study of Monetary Policy Regulation on Real Estate Price 33
3.1 Real Estate Development and Macro-Control from 1998 to 2013... 33
3.1.1 The Development of Chinese Real Estate Industry and Market 33
3.1.2 Government Macro-Control Measures..... 36
3.2 Research Hypothesis and Quantitative Model Selection 40
3.2.1 Hypothesis Research: Based on the Ultimate Goal 40
3.2.2 Hypothesis Research: Based on the Interest Gaming Between Central and Local Government..... 41
3.3 Empirical Analysis of Monetary Policy Impact on Real Estate Price... 45
3.3.1 Quantitative Model Establishment..... 45
3.3.2 Growth Speed Model 46
3.3.3 Data Collection and Processing 47
3.3.4 Basic Statistical Characteristics..... 47
3.3.5 Empirical Analysis Based on MGARCH-BEKK Model 48
3.3.6 Empirical Analysis Based on GARCH Mean Equation Model 53
3.4 Research Conclusion and Policy Suggestions 54
3.4.1 Basic Conclusion 54
3.4.2 Policy Suggestions..... 54

4 Appropriateness Study of Monetary Policy Regulation on Stock Price 61
4.1 Development Retrospect of China's New Capital Market..... 61
4.1.1 Development of China's Capital Market in the Recent Decades 61
4.1.2 Policy Factors Affecting China's Stock Market..... 64
4.2 Monetary Policy Impact on Chinese Stock Market 66
4.2.1 Economic Growth Rate Model..... 67
4.2.2 Fluctuation Correlation Model..... 68
4.2.3 Data Collection, Processing, and Basic Statistic Characteristics 69
4.2.4 Empirical Analysis Based on GARCH Mean Equation Model 70
4.2.5 Empirical Analysis Based on MGARCH-BEKK Model 71
4.3 Research Conclusion and Policy Suggestions 74

5 Appropriateness Study of Monetary Policy Regulation on Bond Price 79
5.1 Development Retrospect of Chinese Bond Market 79
5.1.1 Bond Development—General History 79
5.1.2 Bond Development History—From Product Perspective ... 82
5.1.3 China's Bond Market Versus Overseas Bond Market 82
5.2 Description of Policies Affecting China's Bond Market After 2006 ... 84
5.2.1 Affecting Bond Market by Means of Impact on Money Supply 84
5.2.2 Adjusting Bond Market by Affecting Market Interest Rate ... 84
5.2.3 Setting Market Access Requirements to Adjust Bond Market 85
5.2.4 Adjusting Bond Issuance Approval Progress to Adjust Bond Market 86
5.3 Empirical Analysis Based on Chinese Bond Market 86
5.3.1 Data Collection and Processing 86
5.3.2 Basic Statistic Characteristics 89
5.3.3 Empirical Analysis Based on GARCH Mean Equation Model 90
5.3.4 Empirical Analysis Based on MGARCH-BEKK Model 91
5.4 Policy Suggestions on Improving the Appropriateness of Monetary Policy Regulation on Bond Market 94
5.4.1 Forward-Looking in Monetary Policy Formulation and Implementation 94
5.4.2 Changing Fragmented Regulatory Framework 95
5.4.3 Introducing Government Bond Futures in Due Time to Widen Interest Rate Derivatives 95
5.4.4 Performing Net Settlement 96
5.4.5 Vigorously Promoting Innovative Bond Issuance 96
5.4.6 Improving Market Maker System 97

6 Appropriateness Study of Monetary Policy Regulation on Futures Market 99
6.1 Development Retrospect of Chinese Futures Market 99
6.1.1 Promoting Basic System Construction for Laws and Regulations and Vigorously Improving Market Development Basis and Supervision Environment 100
6.1.2 Accelerating Innovation of Commodity Futures Categories, Financial Futures Market Taken Initial Shape Smoothly and Soundly 100
6.1.3 Market Functions Taken Initial Shape and the Capability to Serve the National Economic Development Keeping Improving 100
6.1.4 Transformation in Regulation Ideas and Approaches 101

6.2 Monetary Policy Impact on Chinese Futures Market 103
6.2.1 Review of Chinese Monetary Policies (1999—July, 2011) ... 103
6.2.2 Monetary Policy Impact on Futures Market 107
6.3 Monetary Policy Impact on Futures Variety 108
6.4 Empirical Analysis Based on Chinese Futures Market 114
6.4.1 Data Collection and Processing 114
6.4.2 Basic Statistical Characteristics 115
6.4.3 Empirical Analysis Based on GARCH Mean Equation Model 116
6.4.4 Empirical Analysis Based on MGARCH-BEKK Model 116
6.5 Policy Suggestions on Enhancing Monetary Policy Appropriateness and Perfecting Futures Market 119

7 Study on Chinese Systemic Risk Prevention 123
7.1 Systemic Financial Risk Measurement 123
7.1.1 Measurement of Systemic Financial Risk 123
7.1.2 Prewarning of Systemic Financial Risk 124
7.2 Model Establishment and Parameter Estimation 126
7.3 Description and Selection of Financial Risk Prewarning Indicator 128
7.3.1 Risk Prewarning Indicator System 128
7.3.2 Pressure Index Construction 129
7.4 Model and Empirical Test 131
7.4.1 Early Warning Model Test on Currency Crisis 132
7.4.2 Prewarning Model Test on Bank Crisis 133
7.4.3 Prewarning Model Test on Asset Bubble 135
7.4.4 Early Warning on Financial Risks 137
7.5 Conclusions and Policy Suggestions 137
7.5.1 Empirical Conclusions 137
7.5.2 Macro-Policy Suggestions 141

8 Study on Building China's Financial Supervision System 143
8.1 Latest Trend of Financial Supervision of Developed Economies and Enlightenment to China 143
8.1.1 Main Content of US Emergency Financial Supervision 143
8.1.2 Main Content of US Financial Regulation Reform Act 145
