Preface

Part 1 Introduction

1 Introduction to Sustainable Business

Sustainable Companies Gain the Upper Hand

1.1 What Do We Mean By "Sustainability"? 4
1.1.1 Sustainability Is a Loaded Word 4
1.1.2 Running Out of Space 6
1.1.3 The New Global Trend: Doing Less Bad and More Good 10
1.1.4 The Unsustainable Status Quo: Fisheries 11

1.2 Causes and Consensus Around Sustainable Business 12
1.2.1 What Do Externalities Have to Do with It? 12
1.2.2 Shareholder Pressure 14
1.2.3 Multiple Drivers, One Destination 15
1.2.4 Baseline Shift Toward Sustainability 15

1.3 The Forms and Stages of Sustainable Business 17
1.3.1 Sustainability Marginalized 17
1.3.2 Sustainability Grows Up 18
1.3.3 Sustainability Gears Up 21

1.4 The Business Case for Sustainability 22
1.4.1 There Is Actually Just One Bottom Line 22
1.4.2 Environmental Changes and Business Implications 24
1.4.3 Green Shoots and Blue Oceans 24
1.4.4 Overview of the Textbook 24

Key Terms 28
Discussion Questions 28

Case 1: BMW Pioneers Sustainable Automotive Technology 28
Case 2: Greening the Game of Golf 29

Further Research 30
Endnotes 31
2 Perspectives

Ecosystem Services

2.1 Introduction: Perspectives on Sustainability 34
2.2 Social Perspectives 35
   2.2.1 Stakeholder Engagement 35
   2.2.2 Corporate Social Responsibility 36
   2.2.3 Human Rights 40
   2.2.4 Laws and Regulations 40
   2.2.5 Ethics and Environmental Justice 41
2.3 Economic Perspectives 43
   2.3.1 Globalization and its Discontents 43
   2.3.2 Environmental Kuznets Curve and its Criticism 46
   2.3.3 Natural Capital Accounting and Sustainable Land Use 48
   2.3.4 Sustainable Engineering 50
2.4 Environmental Perspectives 51
   2.4.1 Regenerative Capacity 51
   2.4.2 Biomimicry 52
   2.4.3 Cradle-to-Cradle 53
   2.4.4 Human Ecology 53

Key Terms 54
Discussion Questions 55
Case: Emerging Drinking Water Contaminants 55
Additional Material 56
Endnotes 57

3 Leadership, Change Management, and Corporate Governance 59

Sustainable Leadership, Corporate Governance, and Innovation at Unilever

3.1 Introduction: Leadership as Antidote to Collective Action Problems 60
   3.1.1 What Is a Collective Action Problem? 61
   3.1.2 What Is a Tragedy of the Commons? 62
   3.1.3 Sustainability through Self-Regulation 63
   3.1.4 The Sustainable Leadership Gap 64
3.2 Leadership 65
   3.2.1 What Is Sustainable Business Leadership? 65
   3.2.2 New Competencies of Sustainable Business Leaders 67
   3.2.3 Sustainable Leadership Strategy 68
3.3 Change Management 70
   3.3.1 Entrepreneurialism and Innovation 70
3.3.2 Developing a Sustainable Business Strategy 72
3.3.3 Change Management 73
3.3.4 Hiring Strategy and Employee Engagement 75

3.4 Strategic Alignment for Sustainability Through Corporate Governance 76
3.4.1 Strategic Alignment: Integrating Sustainability into Corporate Strategy 76
3.4.2 Sustainable Corporate Governance 77
3.4.3 Corporate Governance Mechanisms 79
3.4.4 Resolving Conflicts Between Shareholders and Stakeholders: Rise of the B-Corp 81
3.4.5 Executive Compensation 83
3.4.6 Rise of the Chief Sustainability Officer 84

Key Terms 86
Discussion Questions 87

Case 1: Corporate Leadership Amidst Turbulent Times 87
Case 2: Drilling Down on Corporate Governance 88

Further Research 89
Endnotes 89

Part II Accountability

4 Legal Frameworks for Sustainability 95

Climate Change Divides Corporate Lobbying Efforts
4.1 The Role of Law in Corporate Sustainability 96
4.1.1 Hard Law, Soft Law, Legal Hierarchy, International Law 99
4.1.2 The Legal Environment of Business 102
4.1.3 Incentives for Legal Compliance 102
4.2 Law and Sustainability by Business Area 104
4.2.1 Design, Production, and Pollution 105
4.2.2 Supply Chain, Marketing, and Consumer Protection 109
4.2.3 Packaging, Waste, and Disposal 114
4.2.4 Land Use Planning 116
4.3 Limits of the Law 117
4.3.1 Legal Compliance vs. Sustainable Performance 117
4.3.2 Lobbying for Lax Laws 118
4.3.3 Under-Enforcement of Good Laws 119

Key Terms 120
Discussion Questions 121
Case 1: Can Litigation Set Public Policy on the Use of Drugs in Industrial Agriculture?  121
Case 2: The American Legislative Exchange Council and So-Called "Ag Gag" Rules  122
Further Research  123
Endnotes  123

5 Metrics, Tools, and Reporting: The Role of Finance and Accounting  127

Nature's Invoice
5.1 Introduction: Why Measure and Report?  128
  5.1.1 The Role of Finance & Accounting  128
  5.1.2 Information-Driven Sustainable Business Model  130
  5.1.3 (Almost) Everyone Is Doing It  132
  5.1.4 What Are the Benefits of Monitoring and Reporting?  132
  5.1.5 Drivers of Sustainability Reporting  134
5.2 Metrics  136
  5.2.1 What Are Metrics?  136
  5.2.2 The Triple Bottom Line  137
  5.2.3 Sustainability Performance Metrics  138
  5.2.4 What to Look for in a Metric  139
5.3 Tools  140
  5.3.1 Natural Capital Accounting  140
  5.3.2 Life Cycle Assessment  141
  5.3.3 Environmental Footprinting  143
5.4 Reporting  145
  5.4.1 Leadership and Reporting  146
  5.4.2 Threshold for Reporting: Materiality  147
  5.4.3 Sharing Sustainability Information With End Consumers  148
  5.4.4 ISO Standards For Sustainability Reporting  148
  5.4.5 Global Reporting Initiative  149

Key Terms  151
Discussion Questions  152
Case 1: Chocolate Crusaders  152
Case 2: Suede Shoe Blues  153
Further Research  154
Endnotes  154
6 Risk Management

Happy Meals Dodge Tainted Toys

6.1 Risk Management and Sustainable Business 158
   6.1.1 The Role of Risk Management in Sustainable Business 159
   6.1.2 The Risky Environment of Business 161
   6.1.3 The Moral Psychology of Risky Business Decisions 161
   6.1.4 The Enterprise Risk Management Continuum 162

6.2 Risk Identification 166
   6.2.1 Business Risks Managed by Sustainability 166
   6.2.2 Preventable Versus Uncontrollable Risk 169
   6.2.3 Water-Related Business Risks 170
   6.2.4 Climate Change-Related Business Risks 171

6.3 Risk Assessment 171
   6.3.1 Scenario Planning 172
   6.3.2 Measuring the Materiality of Risk 173
   6.3.3 Vulnerability 174
   6.3.4 Putting It All Together 176

6.4 Risk Response 176
   6.4.1 Bearing Risk 177
   6.4.2 Avoiding Risk 178
   6.4.3 Mitigating Risk 178
   6.4.4 Sharing Risk: Insurance 179

6.5 Risk Management Strategies in Business 181
   6.5.1 Business Continuity Planning 181
   6.5.2 Resilience 182

Key Terms 183
Discussion Questions 183

Case: Managing a Hospital’s Fight Against an Epic Flu 184
Further Research 184
Endnotes 185

Part III Implementation

7 Marketing 189

From Superbowl Ads to Viral Videos

7.1 Introduction: Marketing Sustainability 190
   7.1.1 Conventional Marketing Versus Marketing Sustainability 191
   7.1.2 Segmenting the Market for Sustainable Products 192
7.1.3 Trends In Marketing Sustainability: Avenues for SMEs 194
7.1.4 Rewards of Sustainable Marketing 196

7.2 Legal and Ethical Boundaries 198
7.2.1 Truth-In-Advertising Rules 198
7.2.2 Guidelines for Marketing Environmental Attributes 199
7.2.3 Product/Process Information Distinction 200
7.2.4 What Is Greenwashing? 202

7.3 Strategy for Marketing Sustainability 203
7.3.1 Sustainability Marketing Principles 203
7.3.2 Brand Development 204
7.3.3 Stages of Marketing Sustainability 205
7.3.4 International Marketing 206
7.3.5 Challenges to Marketing Sustainability 207

7.4 Certification Programs 211
7.4.1 Guidelines for Third-Party Certification Programs 212
7.4.2 Types of Certification Programs 213
7.4.3 Certification Design 214
7.4.4 Challenges to Sustainable Certification 216

Key Terms 217
Discussion Questions 217

Case 1: Marketing Sustainable Dinner Ware 217
Case 2: Nike, Inc. v. Kasky 219

Further Research 220
Endnotes 220

8 Supply Chain Management 223

Building a Sustainable Supply Chain: Lessons from Starbucks

8.1 Sustainable Supply Chain Management in Context 224
8.1.1 The Role of SCM in Sustainability 225
8.1.2 Managing Supply Chain Risks: Going Beyond the First Tier 227
8.1.3 Traceability and Increased Supply Chain Transparency 228
8.1.4 Business Benefits of Sustainable SCM 229
8.1.5 Water-Related Supply Chain Risks 230
8.1.6 Human Rights, Child Labor, and Occupational Safety in Global Supply Chains 230

8.2 Managing the Entire Product Life Cycle 232
8.2.1 Life Cycle Assessment and Cradle-to-Cradle Design 233
8.2.2 Product Design 234
8.2.3 Packaging 234
8.2.4 Sourcing 236
8.2.5 Process Design 237
8.3 Managing the Supply Chain Infrastructure 238
8.3.1 Logistics 238
8.3.2 Reverse Logistics 239
8.3.3 Transportation 241
8.3.4 Facility Location 242
8.4 Managing Supply Chain Stakeholders 244
8.4.1 Suppliers 245
8.4.2 Consumers 246
8.4.3 Non-Governmental Organizations (NGOs) and Non-Profits 248
8.4.4 Governmental Agencies and Regulation 248
8.4.5 Competitors 249
8.4.6 Communities 250
Key Terms 252
Discussion Questions 252
Case 1: Gone Fishing: Human Trafficking on the High Seas 252
Case 2: iSlave: Labor Conditions in Consumer Technology Parts Suppliers 253
Further Research 254
Endnotes 255

9 Operations Management 259

Ancient Air Conditioning in Modern Building Design

9.1 The Role of Operations Management in Sustainability 260
9.1.1 The OM Function 260
9.1.2 How OM Impacts Sustainability 262
9.1.3 Water-Related Operations Management Risks 263
9.2 Operations Strategy 264
9.2.1 Sustainable Operations as a Competitive Priority 264
9.2.2 Sustainable OM Strategy 265
9.2.3 Stakeholder View of Operational Output 267
9.2.4 Striking the Right Balance through Quality Management 267
9.3 Operations Design 268
9.3.1 Product Design 268
9.3.2 Process Design 272
9.3.3 Process Performance Metrics 273
