Enterprise and Organizational Modeling and Simulation

10th International Workshop, EOMAS 2014
Held at CAiSE 2014, Thessaloniki, Greece, June 16–17, 2014
Selected Papers
Contents

Enterprise Conceptual Modelling and Simulation

Extraction and Reconstruction of Enterprise Models ............................................. 3
    Mario Sánchez, Julio Cesar Reyes, and Jorge Villalobos

Towards Multi-perspective Process Model Similarity Matching ............................ 21
    Michael Heinrich Baumann, Michaela Baumann, Stefan Schönig, and Stefan Jablonski

Verifying Cross-Organizational Workflows Over Multi-Agent Based Environments ................................................................. 38
    Mirtha Lina Fernández Venero

Modeling and Visualization of Urban Planning and Building Development Processes for Local Government of Small Settlements ................................................................. 59
    Vojtěch Merunka and Iveta Merunková

Enterprise Modelling Formal Foundation

Enterprise Architecture: A Formalism for Modeling Organizational Structures in Information Systems ................................................................. 77
    Alexander Lawall, Thomas Schaller, and Dominik Reichelt

Business Rules, Constraints and Simulation for Enterprise Governance ............... 96
    Amjad Fayoumi and Pericles Loucopoulos

The Prefix Machine – A Formal Foundation for the BORM OR Diagrams Validation and Simulation ................................................................. 113
    Martin Podloucký and Robert Pergl

Enterprise Optimisation

Simulation-Based Cyber-Attack Assessment of Critical Infrastructures ................ 135
    Marlies Rybnicek, Simon Tjoa, and Rainer Poisel

Emergency Response Planning Information System ........................................... 151
    Victor Romanov, Ilya Moskovoy, and Margarita Onokhova

On Compatibility Analysis of Inter Organizational Business Processes ............... 171
    Zohra Sbaï and Kamel Barkaoui
Recovering Traceability Links Between Code and Specification Through Domain Model Extraction .......................................................... 187
Jiří Vinárek, Petr Hnětynka, Viliam Šimko, and Petr Kroha

Choreography Modeling Compliance for Timed Business Models .......................................................... 202
Manuel I. Capel and Luis E. Mendoza

Author Index .................................................................................................................................................. 219
