Contents

List of figures viii
List of tables ix
Editorial review board xi
List of contributors xii
Foreword by Soocheol Lee xiv
Preface xv

PART I THEORY
Section A Exploring theoretical assumptions

1 Environmental taxes and fees: wrestling with theory 5
Janet E. Milne

2 Environmental taxation for a sustainable future: perspectives from environmental macroeconomics 24
Seck L. Tan and Dodo J. Thampapillai

3 The role of the precautionary principle in designing energy taxes in Australia 39
Prafila Pearce

Section B The relationship between environmental taxation and trade

4 Inherent logic of EU energy taxes: toward a balance between market protection and environment protection 55
Álvaro Antón Antón and Marta Villar Ezcurra

5 WTO open trade rules and domestic environmental protection policies: a balancing approach 69
Bill Butcher

6 Addressing the inequality issue under border carbon adjustment 82
Xin Zhou, Takashi Yano and Mustafa Moinuddin
Environmental taxation and green fiscal reform

7 Toward green transfer pricing: including environmental parameters in transfer pricing rules
   Alice Pirlot

Section C  Permit trading and price stability

8 The EU Emission Trading Scheme: is there a need for price stabilization?
   Claudia Kettner, Daniela Kletzan-Slamanig and Angela Köppl

9 Incentivizing technologic change in emissions trading systems: the case of excess supply
   Stefan E. Weishaar

Section D  Political economy

10 The political economy of subsidy reform: which factors are game-changers?
    Jacqueline Cottrell

11 Decision making for market-based environmental cost allocation: the case of packaging waste policy in Germany
    Susumu Kitagawa

PART II  IMPACT
Section A  Environmental taxes

12 Environmental taxes – definitional analysis: behavioural change or revenue raising
   Sally-Ann Joseph

13 Abatement of emissions for a sustainable future: revisiting the carbon tax in China
   Yuhong Zhao

14 Effects and issues of the 2010 resource tax reform in Xinjiang
   Yanmin He

15 Macroeconomic effects of environmental tax subsidy reform: an evaluation for Italy
   Cristina Brandimarte
## Contents
