Contents

Volume 1

1 Introduction to Financial Econometrics and Statistics ............... 1
Cheng-Few Lee and John C. Lee

2 Experience, Information Asymmetry, and Rational
Forecast Bias ........................................................................ 63
April Knill, Kristina L. Minnick, and Ali Nejadmalayeri

3 An Appraisal of Modeling Dimensions for Performance
Appraisal of Global Mutual Funds ........................................... 101
G. V. Satya Sekhar

4 Simulation as a Research Tool for Market Architects ............... 121
Robert A. Schwartz and Bruce W. Weber

5 Motivations for Issuing Putable Debt: An Empirical
Analysis .............................................................................. 149
Ivan E. Brick, Oded Palmon, and Dilip K. Patro

6 Multi-Risk Premia Model of US Bank Returns: An Integration
of CAPM and APT ................................................................ 187
Suresh Srivastava and Ken Hung

7 Nonparametric Bounds for European Option Prices .............. 207
Hsuan-Chu Lin, Ren-Raw Chen, and Oded Palmon

8 Can Time-Varying Copulas Improve the Mean-Variance
Portfolio? .............................................................................. 233
Chin-Wen Huang, Chun-Pin Hsu, and Wan-Jiun Paul Chiou

9 Determinations of Corporate Earnings Forecast Accuracy:
Taiwan Market Experience ..................................................... 253
Ken Hung and Kuo-Hao Lee

10 Market-Based Accounting Research (MBAR) Models: A Test of
ARIMAX Modeling .............................................................. 279
Anastasia Maggina
11 An Assessment of Copula Functions Approach in Conjunction with Factor Model in Portfolio Credit Risk Management .......... 299
   Lie-Jane Kao, Po-Cheng Wu, and Cheng-Few Lee

   Raj Aggarwal and John W. Goodell

   Wan-Jiun Paul Chiou and Robert L. Porter

14 Evaluating Long-Horizon Event Study Methodology .......... 383
   James S. Ang and Shaojun Zhang

15 The Effect of Unexpected Volatility Shocks on Intertemporal Risk-Return Relation ................. 413
   Kiseok Nam, Joshua Krausz, and Augustine C. Arize

16 Combinatorial Methods for Constructing Credit Risk Ratings .......... 439
   Alexander Kogan and Miguel A. Lejeune

17 Dynamic Interactions Between Institutional Investors and the Taiwan Stock Returns: One-Regime and Threshold VAR Models ................. 485
   Bwo-Nung Huang, Ken Hung, Chien-Hui Lee, and Chin W. Yang

18 Methods of Denoising Financial Data .......... 519
   Thomas Meinl and Edward W. Sun

19 Analysis of Financial Time Series Using Wavelet Methods .......... 539
   Philippe Masset

20 Composite Goodness-of-Fit Tests for Left-Truncated Loss Samples ................. 575
   Anna Chernobai, Svetlozar T. Rachev, and Frank J. Fabozzi

21 Effect of Merger on the Credit Rating and Performance of Taiwan Security Firms .......... 597
   Suresh Srivastava and Ken Hung

22 On-/Off-the-Run Yield Spread Puzzle: Evidence from Chinese Treasury Markets ................. 617
   Rong Chen, Hai Lin, and Qianni Yuan

23 Factor Copula for Defaultable Basket Credit Derivatives .......... 639
   Po-Cheng Wu, Lie-Jane Kao, and Cheng-Few Lee
24 Panel Data Analysis and Bootstrapping: Application to China Mutual Funds ........................................ 657
Win Lin Chou, Shou Zhong Ng, and Yating Yang

Dilip K. Patro

Volume 2

26 A Comparison of Portfolios Using Different Risk Measurements .................................................. 707
Jing Rung Yu, Yu Chuan Hsu, and Si Rou Lim

27 Using Alternative Models and a Combining Technique in Credit Rating Forecasting: An Empirical Study .......... 729
Cheng-Few Lee, Kehluh Wang, Yating Yang, and Chan-Chien Lien

28 Can We Use the CAPM as an Investment Strategy?: An Intuitive CAPM and Efficiency Test ............... 751
Fernando Gómez-Bezares, Luis Ferruz, and Maria Vargas

29 Group Decision-Making Tools for Managerial Accounting and Finance Applications ..................... 791
Wikil Kwak, Yong Shi, Cheng-Few Lee, and Heeseok Lee

30 Statistics Methods Applied in Employee Stock Options ........... 841
Li-jiun Chen and Cheng-der Fuh

31 Structural Change and Monitoring Tests ................ 873
Cindy Shin-Huei Wang and Yi Meng Xie

32 Consequences for Option Pricing of a Long Memory in Volatility ............................................... 903
Stephen J. Taylor

33 Seasonal Aspects of Australian Electricity Market .......... 935
Vikash Ramiah, Stuart Thomas, Richard Heaney, and Heather Mitchell

34 Pricing Commercial Timberland Returns in the United States ..................................................... 957
Bin Mei and Michael L. Clutter

35 Optimal Orthogonal Portfolios with Conditioning Information ...................................................... 977
Wayne E. Ferson and Andrew F. Siegel

49  Computer Technology for Financial Service ....................... 1341
    Fang-Pang Lin, Cheng-Few Lee, and Huimin Chung

50  Long-Run Stock Return and the Statistical Inference ............ 1381
    Yanzhi Wang

Volume 3

51  Value-at-Risk Estimation via a Semi-parametric Approach:
    Evidence from the Stock Markets ............................... 1399
    Cheng-Few Lee and Jung-Bin Su

52  Modeling Multiple Asset Returns by a Time-Varying $t$
    Copula Model ..................................................... 1431
    Long Kang

53  Internet Bubble Examination with Mean-Variance Ratio ........... 1451
    Zhidong D. Bai, Yongchang C. Hui, and Wing-Keung Wong

54  Quantile Regression in Risk Calibration .......................... 1467
    Shih-Kang Chao, Wolfgang Karl Härdle, and Weining Wang

55  Strike Prices of Options for Overconfident Executives .......... 1491
    Oded Palmon and Itzhak Venezia

56  Density and Conditional Distribution-Based Specification
    Analysis .............................................................. 1509
    Diep Duong and Norman R. Swanson

57  Assessing the Performance of Estimators Dealing with
    Measurement Errors ................................................ 1563
    Heitor Almeida, Murillo Campello, and Antonio F. Galvao

58  Realized Distributions of Dynamic Conditional Correlation
    and Volatility Thresholds in the Crude Oil, Gold, and
    Dollar/Pound Currency Markets .................................... 1619
    Tung-Li Shih, Hai-Chin Yu, Der-Tzon Hsieh, and Chia-Ju Lee

59  Pre-IT Policy, Post-IT Policy, and the Real Sphere in Turkey ... 1647
    Ahmed Hachicha and Cheng-Few Lee

60  Determination of Capital Structure: A LISREL Model
    Approach ............................................................. 1669
    Cheng-Few Lee and Tzu Tai

61  Evidence on Earning Management by Integrated Oil and Gas
    Companies ............................................................ 1685
    Raafat R. Roubi, Hemantha Herath, and John S. Jahera Jr.
A Comparative Study of Two Models SV with MCMC Algorithm
Ahmed Hachicha, Fatma Hachicha, and Afif Masmoudi

Internal Control Material Weakness, Analysts Accuracy and Bias, and Brokerage Reputation
Li Xu and Alex P. Tang

What Increases Banks Vulnerability to Financial Crisis: Short-Term Financing or Illiquid Assets?
Gang Nathan Dong and Yuna Heo

Accurate Formulas for Evaluating Barrier Options with Dividends Payout and the Application in Credit Risk Valuation
Tian-Shyr Dai and Chun-Yuan Chiu

Pension Funds: Financial Econometrics on the Herding Phenomenon in Spain and the United Kingdom
Mercedes Alda García and Luis Ferruz

Estimating the Correlation of Asset Returns: A Quantile Dependence Perspective
Nicholas Sim

Multi-criteria Decision Making for Evaluating Mutual Funds Investment Strategies
Shin Yun Wang and Cheng-Few Lee

Econometric Analysis of Currency Carry Trade
Yu-Jen Wang, Huimin Chung, and Bruce Mizrach

Evaluating the Effectiveness of Futures Hedging
Donald Lien, Geul Lee, Li Yang, and Chunyang Zhou

Analytical Bounds for Treasury Bond Futures Prices
Ren-Raw Chen and Shih-Kuo Yeh

Rating Dynamics of Fallen Angels and Their Speculative Grade-Rated Peers: Static vs. Dynamic Approach
Huong Dang

Creation and Control of Bubbles: Managers Compensation Schemes, Risk Aversion, and Wealth and Short Sale Constraints
James S. Ang, Dean Diavatopoulos, and Thomas V. Schwarz

Range Volatility: A Review of Models and Empirical Studies
Ray Yeutien Chou, Hengchih Chou, and Nathan Liu
Contents

75 Business Models: Applications to Capital Budgeting, Equity Value, and Return Attribution .................................. 2051
  Thomas S. Y. Ho and Sang Bin Lee

Volume 4

76 VAR Models: Estimation, Inferences, and Applications .......... 2077
  Yangru Wu and Xing Zhou

77 Model Selection for High-Dimensional Problems .................. 2093
  Jing-Zhi Huang, Zhan Shi, and Wei Zhong

78 Hedonic Regression Models ........................................... 2119
  Ben J. Sopranzetti

79 Optimal Payout Ratio Under Uncertainty and the Flexibility Hypothesis: Theory and Empirical Evidence ...................... 2135
  Cheng-Few Lee, Manak C. Gupta, Hong-Yi Chen, and Alice C. Lee

80 Modeling Asset Returns with Skewness, Kurtosis, and Outliers ................................................................. 2177
  Thomas C. Chiang and Jiandong Li

81 Does Revenue Momentum Drive or Ride Earnings or Price Momentum? ................................................................. 2217
  Hong-Yi Chen, Sheng-Syan Chen, Chin-Wen Hsin, and Cheng-Few Lee

82 A VG-NGARCH Model for Impacts of Extreme Events on Stock Returns ................................................................. 2263
  Lie-Jane Kao, Li-Shya Chen, and Cheng-Few Lee

83 Risk-Averse Portfolio Optimization via Stochastic Dominance Constraints .......................................................... 2281
  Darinka Dentcheva and Andrzej Ruszczyński

84 Implementation Problems and Solutions in Stochastic Volatility Models of the Heston Type ....................................... 2303
  Jia-Hau Guo and Mao-Wei Hung

85 Stochastic Change-Point Models of Asset Returns and Their Volatilities .............................................................. 2317
  Tze Leung Lai and Haipeng Xing

86 Unspanned Stochastic Volatilities and Interest Rate Derivatives Pricing .............................................................. 2337
  Feng Zhao
