

A RANDOM WALK DOWN WALL STREET

The Time-Tested Strategy for
Successful Investing

BURTON G. MALKIEL

W. W. NORTON & COMPANY

New York • London

CONTENTS

<i>Preface</i>	17
<i>Acknowledgments from Earlier Editions</i>	21

Part One

STOCKS AND THEIR VALUE

1.	FIRM FOUNDATIONS AND CASTLES IN THE AIR	25
	What Is a Random Walk?	26
	Investing as a Way of Life Today	28
	Investing in Theory	30
	The Firm-Foundation Theory	31
	The Castle-in-the-Air Theory	33
	How the Random Walk Is to Be Conducted	35
2.	THE MADNESS OF CROWDS	37
	The Tulip-Bulb Craze	38
	The South Sea Bubble	41

Wall Street Lays an Egg	48
An Afterword	55

3. **SPECULATIVE BUBBLES FROM THE SIXTIES INTO THE NINETIES** 56

The Sanity of Institutions	56
The Soaring Sixties	57
<i>The New "New Era": The Growth-Stock/New-Issue Craze</i>	57
<i>Synergy Generates Energy: The Conglomerate Boom</i>	60
<i>Performance Comes to the Market: The Bubble in Concept Stocks</i>	65
The Nifty Fifty	68
The Roaring Eighties	70
<i>The Return of New Issues</i>	70
<i>Concepts Conquer Again: The Biotechnology Bubble</i>	71
<i>ZZZZ Best Bubble of All</i>	73
What Does It All Mean?	75
<i>The Japanese Yen for Land and Stocks</i>	76

4. **THE EXPLOSIVE BUBBLES OF THE EARLY 2000s** 79

The Internet Bubble	79
<i>A Broad-Scale High-Tech Bubble</i>	81
<i>Yet Another New-Issue Craze</i>	84
<i>TheGlobe.com</i>	86
<i>Security Analysts \$peak Up</i>	88
<i>New Valuation Metrics</i>	89
<i>The Writes of the Media</i>	91
<i>Fraud Slithers In and Strangles the Market</i>	93
<i>Should We Have Known the Dangers?</i>	96
The U.S. Housing Bubble and Crash of the Early 2000s	97
<i>The New System of Banking</i>	98
<i>Looser Lending Standards</i>	100
<i>The Housing Bubble</i>	101
Bubbles and Economic Activity	104
<i>Does This Mean That Markets Are Inefficient?</i>	104

Part Two

HOW THE PROS PLAY THE BIGGEST GAME IN TOWN

5. **TECHNICAL AND FUNDAMENTAL ANALYSIS** 109
- Technical versus Fundamental Analysis 110
 - What Can Charts Tell You? 111
 - The Rationale for the Charting Method 115
 - Why Might Charting Fail to Work? 116
 - From Chartist to Technician 117
 - The Technique of Fundamental Analysis 118
 - Three Important Caveats 126
 - Why Might Fundamental Analysis Fail to Work? 128
 - Using Fundamental and Technical Analysis Together 130
6. **TECHNICAL ANALYSIS AND THE RANDOM-WALK THEORY** 134
- Holes in Their Shoes and Ambiguity in Their Forecasts 134
 - Is There Momentum in the Stock Market? 136
 - Just What Exactly Is a Random Walk? 137
 - Some More Elaborate Technical Systems 141
 - The Filter System* 141
 - The Dow Theory* 142
 - The Relative-Strength System* 143
 - Price-Volume Systems* 143
 - Reading Chart Patterns* 144
 - Randomness Is Hard to Accept* 145
 - A Gaggle of Other Technical Theories to Help You Lose Money 146
 - The Hemline Indicator* 146
 - The Super Bowl Indicator* 148
 - The Odd-Lot Theory* 149
 - Dogs of the Dow* 149
 - January Effect* 150
 - A Few More Systems* 151
 - Technical Market Gurus* 151
 - Why Are Technicians Still Hired? 154

Appraising the Counterattack	154
Implications for Investors	157

7. **HOW GOOD IS FUNDAMENTAL ANALYSIS? THE EFFICIENT-MARKET HYPOTHESIS** 159

The Views from Wall Street and Academia	160
Are Security Analysts Fundamentally Clairvoyant?	160
Why the Crystal Ball Is Clouded	163
1. <i>The Influence of Random Events</i>	164
2. <i>The Production of Dubious Reported Earnings through "Creative" Accounting Procedures</i>	165
3. <i>Errors Made by the Analysts Themselves</i>	168
4. <i>The Loss of the Best Analysts to the Sales Desk, to Portfolio Management, or to Hedge Funds</i>	170
5. <i>The Conflicts of Interest between Research and Investment Banking Departments</i>	170

Do Security Analysts Pick Winners? The Performance of the Mutual Funds	174
--	-----

The Semi-Strong and Strong Forms of the Efficient-Market Hypothesis (EMH)	182
<i>A Note on High-Frequency Trading (HFT)</i>	184

Part Three

THE NEW INVESTMENT TECHNOLOGY

8. **A NEW WALKING SHOE: MODERN PORTFOLIO THEORY** 189

The Role of Risk	190
Defining Risk: The Dispersion of Returns	191
<i>Illustration: Expected Return and Variance Measures of Reward and Risk</i>	191
Documenting Risk: A Long-Run Study	194
Reducing Risk: Modern Portfolio Theory (MPT)	196
Diversification in Practice	201

9.	REAPING REWARD BY INCREASING RISK	209
	Beta and Systematic Risk	210
	The Capital-Asset Pricing Model (CAPM)	213
	Let's Look at the Record	219
	An Appraisal of the Evidence	221
	The Quant Quest for Better Measures of Risk: Arbitrage Pricing Theory	223
	The Fama-French Three-Factor Model	225
	A Summing Up	226
10.	BEHAVIORAL FINANCE	229
	The Irrational Behavior of Individual Investors	232
	<i>Overconfidence</i>	232
	<i>Biased Judgments</i>	235
	<i>Herding</i>	239
	<i>Loss Aversion</i>	243
	<i>Pride and Regret</i>	245
	Behavioral Finance and Savings	246
	The Limits to Arbitrage	248
	What Are the Lessons for Investors from Behavioral Finance?	252
	1. <i>Avoid Herd Behavior</i>	253
	2. <i>Avoid Overtrading</i>	255
	3. <i>If You Do Trade: Sell Losers, Not Winners</i>	256
	4. <i>Other Stupid Investor Tricks</i>	257
	Does Behavioral Finance Teach Ways to Beat the Market?	259
11.	IS "SMART BETA" REALLY SMART?	260
	What Is "Smart Beta"?	260
	Four Tasty Flavors: Their Pros and Cons	262
	1. <i>Value Wins</i>	262
	2. <i>Smaller Is Better</i>	265
	3. <i>Momentum and Reversion to the Mean</i>	266
	4. <i>Low Volatility Can Produce High Returns</i>	268
	<i>Blended Flavors and Strategies</i>	270

“Smart Beta” Funds Flunk the Risk Test	271
<i>Appraisal of “Smart Beta”</i>	271
How Well Have Factor Tilts Worked in Practice?	274
<i>Value and Size Tilts</i>	274
Blended Hybrid Strategies	277
<i>Research Affiliates Fundamental Index™ (RAFI)</i>	278
<i>Equally Weighted Portfolio Strategies</i>	280
Other Factor Tilts	281
<i>Low-Beta (Low-Volatility) Strategies</i>	281
<i>Momentum Strategies</i>	281
Implications for Investors	282
Implications for Believers in Efficient Markets	284
Capitalization-Weighted Indexing Remains at the Top of the Class	287

Part Four

A PRACTICAL GUIDE FOR RANDOM WALKERS AND OTHER INVESTORS

12. A FITNESS MANUAL FOR RANDOM WALKERS AND OTHER INVESTORS	291
Exercise 1: Gather the Necessary Supplies	292
Exercise 2: Don’t Be Caught Empty-Handed: Cover Yourself with Cash Reserves and Insurance	294
<i>Cash Reserves</i>	294
<i>Insurance</i>	295
<i>Deferred Variable Annuities</i>	297
Exercise 3: Be Competitive—Let the Yield on Your Cash Reserve Keep Pace with Inflation	297
<i>Money-Market Mutual Funds (Money Funds)</i>	298
<i>Bank Certificates of Deposit (CDs)</i>	298
<i>Internet Banks</i>	299
<i>Treasury Bills</i>	299

<i>Tax-Exempt Money-Market Funds</i>	300
Exercise 4: Learn How to Dodge the Tax Collector	300
<i>Individual Retirement Accounts</i>	301
<i>Roth IRAs</i>	303
<i>Pension Plans</i>	303
<i>Saving for College: As Easy as 529</i>	304
Exercise 5: Make Sure the Shoe Fits: Understand Your Investment Objectives	306
Exercise 6: Begin Your Walk at Your Own Home—Renting Leads to Flabby Investment Muscles	313
Exercise 7: How to Investigate a Promenade through Bond Country	315
<i>Zero-Coupon Bonds Can Be Useful to Fund Future Liabilities</i>	316
<i>No-Load Bond Funds Can Be Appropriate Vehicles for Individual Investors</i>	317
<i>Tax-Exempt Bonds Are Useful for High-Bracket Investors</i>	317
<i>Hot TIPS: Inflation-Indexed Bonds</i>	319
<i>Should You Be a Bond-Market Junkie?</i>	320
<i>Foreign Bonds</i>	321
Exercise 7A: Use Bond Substitutes for Part of the Aggregate Bond Portfolio during Eras of Financial Repression	321
Exercise 8: Tiptoe through the Fields of Gold, Collectibles, and Other Investments	322
Exercise 9: Remember That Investment Costs Are Not Random; Some Are Lower Than Others	325
Exercise 10: Avoid Sinkholes and Stumbling Blocks: Diversify Your Investment Steps	326
A Final Checkup	327
13. HANDICAPPING THE FINANCIAL RACE: A PRIMER IN UNDERSTANDING AND PROJECTING RETURNS FROM STOCKS AND BONDS	329
What Determines the Returns from Stocks and Bonds?	329
Four Historical Eras of Financial Market Returns	334

Era I: The Age of Comfort	335
Era II: The Age of Angst	337
Era III: The Age of Exuberance	341
Era IV: The Age of Disenchantment	343
The Markets from 2009 through 2014	344
Handicapping Future Returns	345
14. A LIFE-CYCLE GUIDE TO INVESTING	349
Five Asset-Allocation Principles	350
1. <i>Risk and Reward Are Related</i>	351
2. <i>Your Actual Risk in Stock and Bond Investing Depends on the Length of Time You Hold Your Investment</i>	352
3. <i>Dollar-Cost Averaging Can Reduce the Risks of Investing in Stocks and Bonds</i>	355
4. <i>Rebalancing Can Reduce Investment Risk and Possibly Increase Returns</i>	359
5. <i>Distinguishing between Your Attitude toward and Your Capacity for Risk</i>	361
Three Guidelines to Tailoring a Life-Cycle Investment Plan	363
1. <i>Specific Needs Require Dedicated Specific Assets</i>	363
2. <i>Recognize Your Tolerance for Risk</i>	364
3. <i>Persistent Saving in Regular Amounts, No Matter How Small, Pays Off</i>	364
The Life-Cycle Investment Guide	366
Life-Cycle Funds	370
Investment Management Once You Have Retired	370
<i>Inadequate Preparation for Retirement</i>	371
Investing a Retirement Nest Egg	372
<i>Annuities</i>	372
The Do-It-Yourself Method	375
15. THREE GIANT STEPS DOWN WALL STREET	379
The No-Brainer Step: Investing in Index Funds	380
<i>The Index-Fund Solution: A Summary</i>	382

<i>A Broader Definition of Indexing</i>	385
<i>A Specific Index-Fund Portfolio</i>	388
<i>ETFs and Taxes</i>	390
The Do-It-Yourself Step: Potentially Useful Stock-Picking Rules	393
<i>Rule 1: Confine stock purchases to companies that appear able to sustain above-average earnings growth for at least five years</i>	394
<i>Rule 2: Never pay more for a stock than can reasonably be justified by a firm foundation of value</i>	394
<i>Rule 3: It helps to buy stocks with the kinds of stories of anticipated growth on which investors can build castles in the air</i>	395
<i>Rule 4: Trade as little as possible</i>	395
The Substitute-Player Step: Hiring a Professional Wall Street Walker	398
The Morningstar Mutual-Fund Information Service	400
The Malkiel Step	401
A Paradox	405
Investment Advisers	407
Some Last Reflections on Our Walk	408
A Final Word	410
<i>A Random Walker's Address Book and Reference Guide to Mutual Funds and ETFs</i>	413
<i>Index</i>	423
