Global Governance in the
Management of Natural Resources

The Case of the Extractive Industries
Transparency Initiative (EITI)

Dissertation
to obtain the degree of Doctor at the Maastricht University,
on the authority of the Rector Magnificus, Prof. dr. L.L.G. Soete
in accordance with the decision of the Board of Deans,
to be defended in public on Tuesday 4 November 2014, at 16:00 hours

by

Oxana Slobozhan

Table of Contents .................................................................................. i
List of Tables and Figures .................................................................. iv
Natural Resource Management Terms ................................................. v

Introduction: Structure and the Main Findings of the Dissertation .......... 1

Chapter 1: The Potential of Transparency-focused Transnational Initiatives in Overcoming the Resource Curse ..................................................... 7

1.1 Introduction .................................................................................. 7

1.2 Negative Impacts of Resource Abundance ..................................... 9

1.3 Is the Resource Curse Unavoidable? ............................................ 14

1.4 Which Causal Pathways of the Resource Curse Does Transparency Address? ...................................................................................... 18

1.5 Tracing Potential Impact of Transparency-focused Transnational Initiatives in Natural Resource Management: KP, PWYP, NRC, and EITI .......... 26

1.6 Conclusion .................................................................................... 34

Chapter 2: Theoretical Framework ...................................................... 37

2.1 Introduction .................................................................................. 37

2.2 Review of the Literature on the EITI: Motivating This Project’s Research Puzzles .............................................................................. 38

2.3 Conceptualizing the Dependent Variables ...................................... 46

2.4 Rational Actor Framework Applied to the Empirical Questions of the PhD Project .................................................................................. 50

2.4.1 Why countries adopt new policies ........................................... 53

2.4.2 How do implementation activities differ between the EITI-implementing countries, and why? ................................................................. 54

2.4.3 How does the configuration of stakeholder positions at the MSGs impact the implementation activities? ......................................................... 55

2.5 Conclusion .................................................................................... 57

Chapter 3: Why Adopt? Determinants of Country Decisions to Initiate EITI Candidacy ................................................................................. 59

3.1 Introduction .................................................................................. 59

3.2 EITI Adoption across Countries .................................................. 60

3.3 Theorizing Determinants of EITI Adoption .................................. 63

3.3.1 Domestic characteristics ......................................................... 64
Chapter 4: Opening up the Black Box of EITI Compliance: Cross-country Differences in the Implementation Activities

4.1 Introduction
4.2 Conceptualizing Implementation, Compliance, and Effectiveness
4.3 Cross-country Differences in the EITI Implementation
   4.3.1 Which sectors are covered?
   4.3.2 How is materiality of revenue streams defined?
   4.3.3 How is data checked for validity?
   4.3.4 What is the extent of disaggregation?
   4.3.5 Is there sub-national reporting?
   4.3.6 Are social payments included?
   4.3.7 Are additional phases of the resource management cycle included?
   4.3.8 In the years prior to official EITI guidelines, was there a multi-stakeholder group established?
4.4 Who Does More and Why? Disaggregation Practices among the EITI Participants
4.5 Conclusion

Chapter 5: The Influence of Stakeholder Arrangements on the EITI Implementation in Azerbaijan and Kazakhstan

5.1 Introduction
5.2 Similarities in Socio-economic Structures of Azerbaijan and Kazakhstan
5.3 MSG Stakeholder Positions: Expectations from the Literature
5.4 EITI Implementation Activities in Azerbaijan and Kazakhstan
   5.4.1 Summary of Implementation History in Azerbaijan and Kazakhstan
   5.4.2 Which sectors are covered?
   5.4.3 How is “materiality” of revenue streams defined?
   5.4.4 How is data checked for validity?
   5.4.5 What is the extent of disaggregation?
   5.4.6 Is there sub-national reporting?
   5.4.7 Are social payments included?
   5.4.8 Are additional phases of resource management cycle included?
   5.4.9 In the years prior to official EITI guidelines, was there a MSG established?
5.4.10 Comparative summary of implementation activities in Azerbaijan and Kazakhstan ........................................ 137

5.5 Analyzing the Influence of Stakeholders on the Implementation Activities .................................................................................................................. 139

5.6 Conclusion ................................................................................................................................. 149

Chapter 6: Lessons from Implementation: Reforming the EITI? .............................................. 153

6.1 Introduction ............................................................................................................................................. 153

6.2 Challenges of Non-adoption and Absence of Extensive Implementation ................................. 154
  6.2.1 Obstacles to adoption .................................................................................................................. 154
  6.2.2 Obstacles to extensive implementation ...................................................................................... 156

6.3 New Instruments Improving Transparency in Natural Resource Management Practices ......................................................................................................................... 160
  6.3.1 Mandatory EITI extensive requirements .................................................................................. 162
  6.3.2 Compliance as a scaled index .................................................................................................... 167
  6.3.3 Mandatory company reporting: US and EU law developments ........................................... 169

6.4 Conclusion ............................................................................................................................................. 174

Conclusion ............................................................................................................................................... 178

Annex I. The EITI Principles and Criteria ............................................................................................ 184
Annex II. Resource-Rich Countries and EITI Implementation Status .................................................. 186
Annex III. EITI Dataset Codebook ......................................................................................................... 189
Annex IV. List of the Conducted Interviews ......................................................................................... 210
References .............................................................................................................................................. 212
Addendum on Valorization .................................................................................................................... 234
Samenvatting ........................................................................................................................................... 241
Biography ............................................................................................................................................... 247
MGSoG Dissertation Series .................................................................................................................... 248
