Overview 1
Car-Dependent Urban Development in the Developing World 2
Development-Based Land Value Capture as a Strategic Apparatus for Transit Financing and Urban Planning 2
Global Good Practices for Development-Based LVC 5
Critical Factors for Success in Developing Countries 12
Challenges and Risks 25
Roadmap for Development-Based LVC Implementation through a Gradual Approach 26
What International Development Financial Institutions Can Do 27
Conclusion 28
References 29

Part I Introduction 31

1 Development-Based Land Value Capture for Financing Transit-Oriented Development 33
Car-Dependent Urban Development in the Developing World 33
Development-Based LVC as a Strategic Financing and Planning Apparatus for Transit and TOD-Related Investments 35
Objectives, Methods, and Readership 37
Development Finance Context 39
Structure of the Book 40
Notes 40
References 41

2 Theory of Land Value Capture and Its Instruments 43
Rationale for Land Value Capture (LVC) 43
Transit-Induced Land Capitalization 44
Situating LVC in Urban Transport Finance 52
Types of LVC Instruments 54
Conclusion 61
Notes 62
References 63

Part II Lessons Learned from Global Development-Based Land Value Capture Practices 69

3 Rail Plus Property Program, Hong Kong SAR, China 71
Urban Development Context 71
Regulatory and Institutional Framework 74
Land Value Capture (LVC) 79
Development Cases 84
Debate over Land Value Capture and Housing Affordability 91
Conclusion 93
Note 94
