
Valuing Convenience in Public Transport

Roundtable Report

Table of contents

Executive summary	9
Chapter 1. Summary of discussions	
by Mark Wardman	13
Introduction	15
Background	18
Measuring and valuing convenience	28
Review of evidence	33
The research agenda	64
Policy implications	68
Concluding remarks	70
Notes	71
References	72
Chapter 2. Measuring and valuing convenience: A review of global practices and challenges form the public transport sector	
by Richard Anderson, Benjamin Condry, Nicholas Findlay, Ruben Brage-Ardao, Haojie Li	77
Introduction	78
Measuring convenience	81
Valuing convenience	97
Conclusions	103
Acknowledgements	105
Annex A	106
Notes	107
References	108
Chapter 3. Valuation of urban rail service: Experiences from Tokyo, Japan	
by Hironori Kato	111
Introduction	112
The government’s cost-benefit analysis manual for rail projects in japan	112
Example of valuing urban rail service: 2000 urban rail development master plan in tokyo	121
Conclusions	129
Acknowledgements	131
References	131
Chapter 4. Valuing convenience in public transport in the Korean context	
by Sungwon Lee	135
Introduction	136
Rationale behind public transport policy reform in korea	136
Seoul’s public transport system	142
Seoul public transport reform achievements	144
Summary and results of the reform of public transport services	148
References	150

Chapter 5. Crowding on public transport for Île-de-france

by Eric Kroes, Marco Kouwenhoven, Laurence Debrincat, Nicolas Pauget	151
Background	152
Objectives and research approach	152
Literature review	153
Qualitative research.....	155
Stated preference research.....	156
A typology based upon attitudes	159
Analysis of stated preferences.....	161
Revealed preference research.....	168
Discussion and resulting values of crowding.....	169
Example of cost-benefit-analysis application	170
Concluding remarks	173
Acknowledgements	174
Notes	174
References	175
List of participants	177

Tables

1.1 Official multipliers for public transport convenience terms	25
1.2 Walk and wait time multipliers	35
1.3 OVT multipliers by country	36
1.4 Walk and wait (RP) multipliers.....	36
1.5 OVT multipliers by journey purpose	36
1.6 OVT multipliers by mode	37
1.7 Transport for london walk and wait multipliers and congestion.....	38
1.8 Impact of crowding on station walking and waiting times	39
1.9 Headway and displacement multipliers by country	41
1.10 Headway and displacement time multipliers by journey purpose.....	42
1.11 Headway and departure time shift multipliers by mode	42
1.12 Multipliers implied meta-model.....	43
1.13 Implied transfer penalties.....	44
1.14 Ttransfer penalty variations.....	45
1.15 Implied transfer penalties.....	45
1.16 Metro transfer penalties	46
1.17 Reliability multipliers by model specification	47
1.18 Reliability multipliers by country	48
1.19 Reliability multipliers by journey purpose.....	48
1.20 Multipliers by mode	48
1.21 Implied reliability multipliers for train and bus	49
1.22 New netherlands reliability ratio evidence.....	50
1.23 Implied crowding multipliers	52
1.24 Estimated crowding multipliers	53
1.25 Time multipliers on paris metro	53
