

# Redefining Health Care Systems

ROBERT H. BROOK

# Contents

---

<b>Dedication</b> .....	iii
<b>Introduction</b> .....	1
<b>EXPLOITING THE KNOWLEDGE BASE OF HEALTH SERVICES RESEARCH</b>	
<b>Core Facts Derived from 50 Years of Health Services Research</b> .....	5
1. Health Status Can Be Measured .....	6
2. Free Care Increases Health Service Use but Does Not Improve Health .....	8
3. Patient Copayments Strongly Influence Health Care Use .....	9
4. How Physicians Are Paid Influences How They Practice .....	9
5. Quality of Care Can Be Measured .....	10
6. Quality of Care Varies.....	13
7. The Appropriateness of Care Can Be Determined .....	14
8. Geography Is a Strong Predictor of Health Service Use.....	15
9. Depression, a Leading Cause of Morbidity, Is Poorly Detected and Poorly Treated.....	16
10. Physicians and Patients Need Tools to Support Decisionmaking .....	17
11. One Person's Waste Is Another's Income.....	18
12. Social Factors Are Powerful Determinants of Health.....	19
<b>Science and Technology Will Increase Health Care Costs</b> .....	20
<b>How Health Services Research Can Fix the Health Care System</b> .....	21
<b>STORIES</b>	
<b>Story One: Why Fixing Simple Problems in Medicine Would Dramatically Increase Quality</b> .....	31
<b>Story Two: Whom Does the Institutional Review Board Protect?</b> .....	32
<b>Story Three: Introducing Quality Measurement to the Wild West</b> .....	35
<b>Story Four: Passionate Responses to the Notion of Change</b> .....	37
<b>Story Five: Why Free Care Doesn't Improve Health</b> .....	38
<b>Story Six: Age and Resistance to Change</b> .....	38
<b>Story Seven: Resisting Funder Pushback When Findings Don't Match Expectations</b> .....	40

**Story Eight: Transparency and Responsibility**..... 41  
**Conclusion**..... 42
