Patient Engagement

A Consumer-Centered Model to Innovate Healthcare

Managing Editor: Aneta Przepiórka

Associate Editor: Pietro Cipresso

Language Editor: Matthew Coleshill
Contents

Introduction — x
Why a New Book on Patient Engagement? — x
The First Section of the Book: Towards the PHE Model — xi
The Second Section of the Book: the Value of Positive Technology to Promote Patient Engagement — xi
The Third Section of the Book: the PHE Model in Practice — xii

Guendalina Graffigna, Serena Barello
1 Introduction — 1
2 The Main Challenges of the 21st Century — 2
3 When the “Demand” for Healthcare Changes: Directions of Innovation — 4
4 Patient Engagement: Improving the Exchange Between Demand and Supply of Healthcare — 6
5 The Advantages of Engaging Patients in Their Care — 8
6 Engaging Patients “from Theory Into Practice”: Agenda Setting — 9
References — 10

Guendalina Graffigna, Serena Barello, Stefano Triberti
Giving (Back) a Role to Patients in the Delivery of Healthcare Services: Theoretical Roots of Patient Engagement — 13
1 Introduction — 13
2 Historical Milestones in the Development of the Concept of Patient Engagement: The Tradition of Participatory Healthcare — 14
3 Distinguishing the Concept of Engagement from Other Closely Related Concepts — 14
  3.1 Involvement, Participation, and Shared Decision-Making — 15
  3.2 Compliance and Adherence — 16
  3.3 Self-management — 18
  3.4 Patient Empowerment — 18
  3.5 Patient Activation — 19
  3.6 Technology Engagement — 20
4 Towards a Definition of Patient Engagement: Its Relationship with Related Constructs — 21
5 Conclusions — 24
References — 25

Evaluating Patient Engagement and User Experience of a Positive Technology Intervention: The H-CIM Case — 66

1 Technologies for Patient Engagement: a Roadmap of Methodologies to Develop Effective e-Health Interventions — 66
2 The Intervention Field: New Technologies for the Physical Rehabilitation of the Elderly — 67
3 Developing Health Technologies for Patient Engagement: a Methodological Road Map Based on the PHE Model — 68
4 Sustaining Patient Engagement in Rehabilitation Activities: a Case Study of the H-CIM Platform — 69
4.1 User Experience Evaluation — 71
4.2 What Are the Implications for Patient Engagement? — 72
5 Conclusion — 75
References — 75

Serena Barello, Guendalina Graffigna

Engagement-sensitive Decision Making: Training Doctors to Sustain Patient Engagement in Medical Consultations — 78

1 Introduction — 78
2 PHE Model as a Road Map for Guiding Doctors Engaging Patients in Decision Making — 79
3 Promoting Patient Engagement in Shared Decision Making: It Takes Two — 81
4 Towards an “Engagement-sensitive” Decision Making Style: the PHE Model as an Orienting Framework for Doctors Communicational Behaviours — 83
5 Engaging Patients in Decision Making “from Theory into Practice”: Agenda Setting for Medical Education — 88
6 Conclusions: Direction for the Future — 89
References — 90

Livio Provenzi, Serena Barello, Guendalina Graffigna

1 Introduction — 94
2 The Emerging Need to Engage Parents in the NICU — 96
3 The Process of Caregiver Engagement in NICU — 97
3.1 The Blackout: Preterm Delivery as an “Out of the Blue” Experience — 97
