

# SYSTEMIC FRAGILITY IN THE GLOBAL ECONOMY

BY  
JACK RASMUS

CLARITY PRESS, INC.

# TABLE OF CONTENTS

## INTRODUCTION / 15

- Fundamental Trends & Determinants / 17
- Key Variables and Forms of Fragility / 17
- Instability in the Real Economy / 19
- Financial Instability in the Global Economy / 21
- Outline of the Book / 24

## PART I: STAGNATION AND INSTABILITY IN THE GLOBAL ECONOMY

### 1. FORECASTING REAL & FINANCIAL INSTABILITY / 28

- The Chronic Problem of Over-Optimistic Official Forecasts / 28
- 2014: Transition Year for the Global Economy / 30
  - Europe / 31
  - Japan / 32
  - China / 33
  - Global Oil Deflation / 33
  - EMEs / 34
  - USA / 35
- The Prediction Dilemma Posed by SWANS—Gray and Black / 36
- IMF's Global Economic Forecasts / 38
- World Bank Forecasts / 41
- OECD Forecasts / 43
- Global Central Bank Forecasts / 44
- The Inability to Forecast Financial Instability / 45

### 2. THE 'DEAD-CAT BOUNCE' RECOVERY / 48

- Dead Cats and Epic Recessions / 48
- Five Realities of the Post-Crash 'Bounce' / 53
- Secular Stagnation—A New Normal? / 60
- Industrial Production and Trade Recessions Are Already Here / 60
- Redefining GDP to Overestimate Global Growth / 61
- One More Bounce? / 64

### 3. THE EMERGING MARKETS' PERFECT STORM / 67

- What's an EME? / 70
- External Forces Destabilizing EMEs / 71
  - The China Factor / 71
  - The AE Interest Rate Factor / 72

Global Currency Wars / 73  
Global Oil Deflation / 75  
Who 'Broke' the EME Growth Model? / 78  
Internal Forces Causing EME Instability / 80  
EME Capital Flight / 80  
EME Currency Collapse / 82  
Domestic Inflation / 83  
Brazil: Canary in the EME Coal Mine? / 85  
EME Financial Fragility & Instability / 88

**4. JAPAN'S PERPETUAL RECESSION / 91**

Japan's 'Made in the USA' Bubble and Crash / 92  
Japan's Rolling Banking Crisis / 95  
Lessons of 1990-2005 Ignored / 97  
Japan's Five Recessions / 98  
Japan's Response to Recession, 2008-2012 / 100  
Shirakawa's Warning / 104  
'Abenomics' 1.0: Back to the Future / 105  
Abenomics 2.0: Doubling Down on Policy That Doesn't Work / 108  
Growing Fragility in the Japanese Economy / 110

**5. EUROPE'S CHRONIC STAGNATION / 114**

The Limits of Exports-Driven Recovery / 114  
German Origins of Eurozone Instability / 117  
Eurozone's Double Dip Recession: 2011-2013 / 121  
ECB Opens the Money Spigot ... Just a Little / 123  
Germany's Export Pivot to Asia / 127  
Eurozone's 2nd Short, Shallow Recovery: 2013-2014 / 128  
Eurozone's QE Money Firehose: 2015 / 131  
'Triple Dip' Recession on the Horizon? / 134  
Lessons the Eurozone Has Yet to Learn / 137

**6. CHINA: BUBBLES, BUBBLES, DEBT AND TROUBLES / 140**

China's Successful Fiscal Recovery Strategy: 2009-2012 / 141  
AE's Failed Monetary Recovery Strategy: 2009-2015 / 142  
China's Liquidity Explosion / 144  
The Inevitable Debt Crisis / 146  
China's Shadow Banks / 147  
China's Triple Bubble Machine / 150  
China's Real Economic Slowdown: 2013-2015 / 155  
China Global Contagion Effects / 156  
China & Global Systemic Fragility / 158

## **PART II: THE DEAD CAT'S 9 LIVES: KEY TRENDS OF SYSTEMIC FRAGILITY**

- 7. SLOWING REAL INVESTMENT / 160**
  - Real Investment vs. Financial Investment / 161
  - Slowing Real Asset Investment / 162
  - Causes of Slowing Real Investment / 164
  
- 8. DRIFT TOWARD DEFLATION / 166**
  - Deflation Effects on Investment, Consumption and Financial Assets / 167
  - From Global Disinflation to Deflation / 167
    - Europe / 167
    - Japan / 169
    - China / 169
    - Emerging Markets / 170
    - USA / 171
  - Good vs. Bad Deflation Debate / 172
  - Oil, Commodities, and Financial Asset Deflation / 173
  - QE and Deflation / 176
  - Austerity and Goods Deflation / 177
  - Deflation and Systemic Fragility / 178
  
- 9. MONEY, CREDIT & EXPLODING LIQUIDITY / 180**
  - Liquidity as Central Bank Money / 182
  - Liquidity as Inside Credit / 186
  
- 10. RISING LEVELS OF GLOBAL DEBT / 188**
  - The Continuing Rise in Global Debt / 190
  - The Myth of US Debt Deleveraging / 191
  - Debt and Fragility / 194
  
- 11. THE SHIFT TO FINANCIAL ASSET INVESTMENT / 196**
  - Origins of the Financial Asset Investment Shift / 196
  - Enabling Causes of the Shift / 198
  - Expanding Price-Profit Gaps / 199
  - How Big Is the Shift? / 200
  - The Unstable Financial Asset Markets / 202
  - Where Is the Next Financial Fault Line? / 203
    - Global Equity Markets / 203
    - Global Bond Markets / 204
    - Emerging Markets' Corporate Debt / 207

Chinese Financial Markets / 207  
US Financial Markets / 209  
European Financial Markets / 210  
Other Global Financial Markets / 211  
Securitized Financial Asset Markets / 212  
The Shift, Financial Fragility, and Instability / 212

12. STRUCTURAL CHANGE IN FINANCIAL MARKETS / 214  
From Liquidity & Debt to a New Financial Structure / 214  
What Is a Shadow Bank? / 216  
How Big Is Global Shadow Banking? / 221  
    US Shadow Banking / 222  
    Chinese Shadow Banking / 222  
    Europe's Lagging Shadow Bank Sector / 223  
A Short List of Major Shadow Banking Categories / 223  
The New Finance Capital Elite / 226  
The Futility of Shadow Bank Regulation / 228  
Why Shadow Banking Is Fundamentally Unstable / 231  
Changing Financial Structure as Source of Financial Instability / 233
13. STRUCTURAL CHANGE IN LABOR MARKETS / 235  
Financial and Consumption Fragility Compared / 235  
Forms of Labor Market Structural Change / 237  
Changes in Job Structure / 238  
    Growth of Contingent Employment / 238  
    Decline of Manufacturing-Construction Employment / 240  
    Changing Structure of Unemployment / 242  
De-Unionization and Decline of Collective Bargaining / 244  
Changes in the Wage Structure / 246  
    Hollowing Out the Middle Tier / 246  
    Shrinking the Minimum Wage / 246  
    Overtime Pay Exemptions / 247  
    General Wage Theft / 247  
    Cost Shifting Health Care / 248  
Reductions in 'Deferred' and 'Social' Wages / 248  
    Decline of Deferred Wage Income / 248  
    The Decline in Social Wage Income / 251  
Changes in Hours of Work Arrangements / 252  
    Tech Time / 252  
    Home Time / 253  
    Travel Time / 253

Double Time / 254

Unpaid Internships / 254

The Emerging 'Sharing' Economy / 254

Debt as a Reduction of Future Wage Income / 255

Wage Income, Debt, and Consumption Fragility / 256

14. **CENTRAL BANKS & FRAGILITY / 260**

Monetary Policy Tools—Old & New / 260

The \$25 Trillion Global Bank Bailout / 262

Why Free Money Continued After the Bailouts / 264

Central Bank Liquidity Feeds Financial Asset Inflation / 270

The Contradictions of Central Banking / 273

Why Central Banks Don't Stop Financial Bubbles / 277

Central Banking and Systemic Fragility / 280

15. **GOVERNMENT DEBT & GOVERNMENT FRAGILITY / 286**

Defining Government Debt and Income / 286

Estimating Government Debt / 287

Key Trends: Government Debt, Income & Fragility / 292

Trend #1: Secular Trends and the Rise in Government  
Debt / 292

Subcontracting Government Services / 292

Privatizing Government Production Assets and  
Services / 293

Shifting Debt: From Corporations to Government to  
Households / 295

Trend #2: Business Cycles and Short Term Government  
Debt / 295

Government Debt from Central Bank Bailouts / 296

Government Debt from Government Bank Bailouts / 296

Government Debt from Special Agency Bailouts / 297

Government Debt from Non-Financial Corporate Bail-  
outs / 298

Government Debt from Transfers and Subsidies to  
Households / 298

Trend #3: Government Income & Government Debt / 299

Secular Corporate Tax Reduction / 299

Cyclical Corporate Tax Reduction / 295

Investor Incomes Tax Reduction / 301

Addendum: Corporate Cash Piles and Distributions / 302

Government Income and Failing Economic Recovery / 304

Trend #4: Neoliberalism Solutions to Government Debt: the 'Twin Deficits' / 305
US Twin Deficits / 306
The Eurozone's Failed 'Twin Deficits' Strategy / 310
Debt, Income and Government Fragility / 312

### **PART III: THE FAILED CONCEPTUAL FRAMEWORK OF CONTEMPORARY ECONOMIC ANALYSIS**

<b>16. HYBRID KEYNESIANS &amp; RETRO-CLASSICALISTS / 318</b>
Conceptual Limits of Classical Economics / 320
Postscript on Marx's Economics / 327
The Neoclassical Detour: 1870s to 1920s / 327
Keynes' Original Contributions / 329
The Limitations of Keynes / 339
The Hybrids / 345
The Retros / 356
<b>17. MECHANICAL MARXISM / 365</b>
Critiquing the Propositions of Mechanical Marxist and Falling Rate of Profit (FROP) 367
FROP Explains Short Run Business Cycles / 367
Negative Productivity, Supply Side, and Collapsing Long Run into Short Run / 367
Only Productive Labor in Goods Production Creates Surplus and Profits / 369
Only Primary Exploitation of Productive Labor Determines Changes in Profits / 370
Redefining Profits to Fit the Theory / 373
Profits Determine Real Asset Investment / 375
Real Investment Drives Financial Investment / 376
Financial Assets are 'Fictitious' Capital & Independent of Real Investment & Cycles / 378
Financial Asset Prices Are Not Responsible for Economic Instability / 379
Banks Are Intermediaries Redistributing Profits as Credit / 380
Money, Credit and Debt / 382
Summary / 384
A Note on Marx on Finance in Vol. 3 of <i>Capital</i> / 385

## **18. CONTRIBUTIONS & LIMITS OF MINSKY'S 'FINANCIAL INSTABILITY HYPOTHESIS' / 392**

- Marx and Keynes Were Before Their Time / 394
- Minsky on Financial Instability / 396
- Minsky's Contributions / 404
- The Limits of Minskyan Analysis / 407
  - The Missing Dichotomy of Investment / 407
  - The Burden of Kalecki's Theory of Profits / 408
  - Two- vs. Three-Price Theory / 408
  - Cash Flow vs. Income Analysis / 408
  - Fragility's Undeveloped 3rd Key Variable / 409
  - Government as Solution vs. Source of Fragility / 409
  - Dynamic & Systemic vs. Financial Fragility / 410
  - Transmission Mechanisms / 411
  - Institutional Framework / 411
  - Origins of Debt / 412
  - Money vs. Inside Credit / 412
  - Business Cycles & Phases of Profits-Debt / 413

## **PART IV: A THEORY OF SYSTEMIC FRAGILITY**

### **19. A THEORY OF SYSTEMIC FRAGILITY / 417**

- The Historical Context / 417
- Some Queries from History / 421
- Excess Liquidity at the Root of Debt Accumulation / 422
- Inside Credit Liquidity / 425
- From Excess Liquidity to Excess Debt / 426
- Debt and the Shift to Financial Asset Investing / 427
  - Financial Asset vs. Real Asset / 429
  - Financial Asset Investing Shift / 431
- The New 'Spread': Financial vs. Real Investment / 435
  - Inflation-Deflation and the Two Price Theory / 439
  - From Stagflation to 'Definflation' / 442
  - The Irrelevant 'Money Causes Inflation' Debate / 443
- Liquidity As Brake on Real Growth / 444
- Restructuring Financial and Labor Markets / 445
  - Financial Market Structural Change / 445
  - Labor Market Structural Change / 449
  - Structural Change and Fragility / 452
- Fiscal-Monetary Policy: From Stabilizing to Destabilizing / 453

**What Can Be Done / 453**

**A Brief Recapitulation of Key Trends & Systemic Fragility / 456**

**Measuring the Three Forms of Systemic Fragility / 458**

**Fragility Feedback Effects / 461**

**Transmission Mechanisms of Systemic Fragility / 468**

**Price Systems as TXM / 468**

**Government Policy as TXM / 474**

**APPENDIX / 477**

**Preliminary Equations for a Theory of Systemic Fragility / 477**

**INDEX / 483**
