Complexity in Entrepreneurship, Innovation and Technology Research

Applications of Emergent and Neglected Methods
Contents

The Challenge of Dealing with Complexity in Entrepreneurship, Innovation and Technology Research: An Introduction .......... 1
Elisabeth S.C. Berger and Andreas Kuckertz

Part I Methodological and Conceptual Discussion

Arash Najmaei

Applying Mixed Methods in Entrepreneurship to Address the Complex Interplay of Structure and Agency in Networks: A Focus on the Contribution of Qualitative Approaches ..................... 37
Judith Mühlenhoff

Complexity, Cultural Evolution, and the Discovery and Creation of (Social) Entrepreneurial Opportunities: Exploring a Memetic Approach .......................................................... 63
Michael P. Schlaile and Marcus Ehrenberger

Complexity and Entrepreneurship: Modeling the Process of Entrepreneurship Education with the Theory of Synergetics ........ 93
Andreas Liening, Jan-Martin Geiger, Ronald Kriedel, and Waldemar Wagner

Computer Simulation Studies of the Entrepreneurial Market Process ................................................................. 117
Mohammad Keyhani

Analyzing Complex Organizational Arguments with Logical Model Building ................................................................. 139
Gábor Péli
Part II  Qualitative Methods

Exploring Complex Phenomena with Qualitative Research Methods: An Examination of Strategic Innovation Trajectories in Haute Cuisine
Matthias Wenzel, Ninja Natalie Senf, and Jochen Koch  .......................................................... 163

Effectuation and the Think-Aloud Method for Investigating Entrepreneurial Decision Making
M. Laura Frigotto  .......................................................... 183

Applying Factorial Surveys for Analyzing Complex, Morally Challenging and Sensitive Topics in Entrepreneurship Research: The Case of Entrepreneurial Ethics
Petra Dickel and Peter Graeff  .......................................................... 199

Illustrating Complexity in the Brand Management of Family Firms
Birgit Felden, Philipp Fischer, Michael Graffius, and Laura Marwede  .......................................................... 219

A Systematic Approach to Business Modeling Based on the Value Delivery Modeling Language
Joachim Metzger, Nicolai Kraemer, and Orestis Terzidis  .......................................................... 245

Action Research as a Viable Methodology in Entrepreneurship Research
Christian Schultz, Dana Mietzner, and Frank Hartmann  .......................................................... 267

Part III  Configurational Methods

Is Qualitative Comparative Analysis an Emerging Method?—Structured Literature Review and Bibliometric Analysis of QCA Applications in Business and Management Research
Elisabeth S.C. Berger  .......................................................... 287

The Complex Determinants of Financial Results in a Lean Transformation Process: The Case of Italian SMEs
Arnaldo Camuffo and Fabrizio Gerli  .......................................................... 309

Young Innovative Companies and Access to Subsidies
Norat Roig-Tierno, Alicia Mas-Tur, and Belén Ribeiro-Navarrete  .......................................................... 331

Applying QCA and Cross-impact Analysis to the Study on ICT Adoption and Use by Croatian SMEs
Arnela Ceric and Branka Krivokapic-Skoko  .......................................................... 349

Configurational Analysis in the Evaluation of Complex Public Programs: Application in the Area of Knowledge Transfer
Dariusz Szkłarczyk, Seweryn Krupnik, Jan Strycharz, Patrycja Antosz, Zuzanna Drożdżak, Karolina Łukasiewicz, and Anna Szczucka  .......................................................... 371
Entrepreneurial Orientation and the Handling of Complexity in Small and Medium Enterprise Research ........................................ 397
Markus Braun and Thomas Steger

Part IV  Semantic Methods

Capturing the Complexity and Ambiguity of Academic Fields: Determining Consensual Definitions for Small Business Research, Entrepreneurship and Their Shared Interface ............................. 417
Andreas Kuckertz and Christoph Mandl

What Do Organizations Think Are Their Risks and Uncertainties? Risk Self-Assessments Within Securities Reports as a New Source for Entrepreneurship, Innovation and Technology Research .................. 439
Terje Grønning

Complexity of Textual Data in Entrepreneurship and Innovation Research ................................................................. 459
Beth-Anne Schuelke-Leech and Betsy L. Barry

About the Authors ................................................................. 481
