SECTION I INTRODUCTION: SETTING THE CONTEXT

1 Definitions of Health and Illness	3
Health and Illness: Language Issues	4
Modification of the Biomedical Model: Epidemiological Model	5
Stress as Cause of Illness	6
Models of Health Not Illness	7
From Language to Behavior: Access	10
Health Belief Model Helps Explain Utilization	11
Health Care System or Medical Care System?	13
Acknowledgments	15
2 Public Health: Defining Determinants of Health	17
What Are Determinants of Health?	17
Individual Determinants of Health	18
Social Determinants of Health	19
Why Do Health Determinants Matter?	22
Healthy People Initiative	24
Acknowledgments	27
3 Health Status Indicators	29
Measuring Death: Mortality Rates	30
Infant Mortality Rate	30
Premature Death Rate	33
Cause-Specific Mortality Rates	34

Measuring Diseases: Morbidity Rates36
 Life Expectancy Rates37
 Other Measures of Health Indicators39
 Individual Functional Health Status Measures39
 Community Health Status Indicators39
 What to Do with This Information?40
 Acknowledgments41

4 Role of Culture in the Organization of Health Care

Delivery Systems.....43
 Role of Culture in Defining Health and Illness44
 Impact of Culture on Organized Health Care Systems.....45
 Alternative or Complementary Medical Systems and Practices.....47
 Culturally Based CAM Medical Practices48
 Traditional Chinese Health System49
 Traditional Indian Health Care System50
 Traditional Mexican Health Care System.....51
 Nonculturally Based CAM Healing Practices52
 What Really Works?.....58
 From Herbs to Drugs59
 Acupuncture60
 Importance of Belief60
 Acknowledgments.....61

5 Political and Philosophical Values That Influence the U.S. Health Care System63

The Private Market and the Role of Government.....64
 Cultural Belief in Science and Technology—Sometimes.....66
 When Political Values Restrict Health Care Services67
 Health Care Services Are for Citizens.....67
 Legislative Restrictions on Legal Medical Care Services72
 Acknowledgments.....74

SECTION II FUNCTIONAL DESCRIPTION OF THE U.S. HEALTH AND MEDICAL CARE SYSTEM

6 Do We Have a System? A Functional Analysis77
 Describing the Health Care System: The Numbers79
 Functional Description: Levels of Care81
 Classic Public Health Levels of Care.....81

Classic Medical Care Services	83
Services Involving Both Medical and Public Health Perspectives.....	84
Resource Implications of Levels of Care: Issues of Balance.....	85
Acknowledgments.....	87
7 People Who Make the Medical Care System Go:	
The Workforce	89
Physicians: The Story of Professionalization and the Development of the Biomedical Model	91
Medical Education: Two Degrees	94
Graduate Medical Education	95
Financing of Medical Education	96
Licensure, Board Certification, and Continuing Medical Education of Physicians.....	96
How Many Physicians Are There and Where Do They Practice?	97
Specialization and Primary Care	98
Mid-Level Independent Clinicians.....	101
PAs	101
NPs.....	102
The Nursing Profession.....	103
Advanced Practice Degrees	104
Issues in Nursing.....	105
Other Independent Clinical Providers.....	106
Podiatrists	106
Clinical Providers with Varying Levels of Practice Independence	107
Pharmacists.....	107
Paramedics	108
Therapeutic Science Practitioners	109
Policy Issues	110
Acknowledgments.....	113
8 Hospitals	115
History	115
Development of the Hospital Industry in the United States.....	117
Classification of Hospitals.....	119
Organization and Management of Hospitals	124
Licensure, Accreditation, and Regulation	127
Hospital Finance and Controlling Costs.....	128
Controlling Hospital Costs	129

Summary and Policy Issues.....	131
Geographic Distribution of Hospitals.....	131
Reorganization of Structure of Hospitals	132
Acknowledgments.....	133
9 Ambulatory Care: Functions, Structures, and Services	135
Settings for Ambulatory Care Services	135
What Is Primary Care?	139
Functions of Primary Care.....	139
Settings for Primary Care Services.....	141
Utilization of Primary Care Services.....	145
Managed Care Concepts.....	145
Summary and Policy Issues.....	148
Acknowledgments.....	149
10 Other Components of the Medical Care System	151
Mental Health Care System.....	151
History of Mental Health Services	152
Need for Mental Health Services	154
Organization of Mental Health Services.....	155
Mental Health Care Providers	158
Psychiatrists	160
Psychologists.....	160
Clinical Social Workers.....	161
Psychiatric Nurses.....	161
Mental Health Counselors	161
Caseworkers/Mental Health Assistants	162
Lay Therapists.....	162
Access to Mental Health Services: Financial Issues	163
Public Funding of Mental Health Services	163
Private Health Insurance: Parity of Coverage.....	164
Access to Mental Health Services: Sociocultural Issues	165
Reforming the Mental Health Care System	167
Long-Term Care System	167
Organization of Long-Term Care Services.....	168
Nursing Homes.....	168
Assisted Living/Residential Living Facilities	170
Adult Day Care Services.....	171
Respite Care	171

Home-Based Care 172
 Hospice Care 173
 Financing Long-Term Care Services..... 174
 A Few Final Thoughts on Long-Term Care 175
 Dental and Vision Care Systems..... 176
 Dental Care System 177
 Providers, Education, and Regulation..... 177
 Changes in Dentistry Practice..... 178
 Financing 179
 Vision Care System..... 179
 Summary 181
 Acknowledgments..... 181

**SECTION III POLITICAL AND ECONOMIC VALUES
 AND HEALTH CARE FINANCING**

**11 Health Economics 101: Do Health Care Goods/Services
 Follow Standard Economic Rules? 185**
 Very Simple Health Economics Guidelines..... 187
 Free and Easy Entry into the Market for Producers..... 187
 Many Producers/Sellers and Consumers/Buyers
 Interacting Freely 189
 Separation of Supply and Demand 190
 The Product Being Purchased Is Homogenous 190
 Consumer Has Full/Complete Knowledge That Is Available
 and Understandable 191
 Consumers Pay for Goods/Services They Purchase/Consume 192
 Are Health Care Goods and Services Examples of Public Goods?..... 194
 An Important Economic Concept: Elasticity 195
 Market Justice versus Social Justice: Where to Go Next? 198
 Acknowledgments..... 201

12 From Economics to Health Policy and Regulation203
 What Is Health Policy? 204
 Who Creates and Implements Health Policy? 205
 How Can We Tell If a Policy Works?..... 208
 Examples of Polices and Links to Models of Allocation 209
 Summary 217
 Acknowledgments..... 218

13	Health Care Financing: Health Insurance	219
	What Is Health Insurance and Why Do We Have It?	220
	Consumer Responsibilities: What Do We Pay for and What Does Health Insurance Pay for?	221
	Determining the Price of Premiums.....	222
	Other Methods of Cost Sharing with Consumers	224
	History of the Health Insurance Industry in the United States.....	226
	Types of Health Insurance.....	229
	Private Health Insurance.....	230
	What about the Uninsured?	233
	What Difference Does Health Insurance Make?	235
	Summary	236
	Acknowledgments.....	238
14	Health Insurance: Two Conceptual Models	239
	Model I: Conventional Indemnity Health Insurance	239
	Model II: How to Control Increasing Costs—HMO Insurance Model....	241
	Elasticity.....	242
	Control Utilization	242
	Reduce Administrative Costs	243
	Pay Physicians a Different Way	243
	From Conceptual Model to Early Implementation.....	244
	From HMOs to Managed Care Plans.....	245
	HMOs	247
	PPOs	249
	Point of Service	249
	Summary	250
	Acknowledgments.....	251
15	The Payment Function: Money Moving through the System... 253	
	The Payment Function in Medicare	255
	Payments to Physicians	256
	Payments to Hospitals.....	257
	Payment Function: Medicaid	258
	Payment Function: Private Insurance	259
	Payments to Physicians	260
	Payments to Hospitals.....	262
	Consequences of the Payment Function in the U.S. Health Care System.....	263
	Another Way to Look at the Payment Function	266

Summary268
 Acknowledgments.....268

16 Why Does Medical Care Cost So Much and What Can We Do about It?269
 What Is Cost in the Health Care System?.....269
 How Much Do We Spend and on What?.....271
 Demand: Role of “Us” in High Health Care Costs.....274
 More Demand from Us: Social Problems.....275
 Supply Factors: Influence Felt throughout the Health Care System.....276
 The Health Care Workforce276
 Technology.....276
 Prescription Drugs.....278
 Costs as a Result of the Financing System.....279
 Costs Arising from the Medical Treatment Process280
 Cost Control: Approaches and Targets.....281
 Regulatory Methods of Cost Control283
 Encouraging Competition284
 Public Health Approaches.....284
 What Is the Real Problem?.....286
 Acknowledgments.....288

**SECTION IV HEALTH CARE REFORM IN THE UNITED STATES:
 TARGETED PROGRAMS AND CONSEQUENCES**

17 Health Care Reform: Past as Prologue to Present291
 The Foundation.....291
 Too Close for Comfort292
 Health Insurance Becomes an Employment Benefit293
 Health Care as Part of a Social Services Network293
 HMOs: The Beginning of Managed Care.....295
 Clinton and the Free Market.....296
 The ACA Builds on the Past.....297
 Philosophy and Goals of the ACA.....298
 Why Was It Able to Get Passed?.....299
 The Heart and Soul of the ACA: State-Run Health Insurance
 Exchanges.....301
 The Individual Mandate: Fair or Not Fair?.....306
 What Do Employers Have to Do?.....307
 Medicaid Expansion.....308

Special Groups Impacted under the ACA	309
Young Adults under the Age of 26	309
Medicare Recipients.....	309
Breast-Feeding Women	309
The Lesbian, Gay, Bisexual, and Transgender Community	310
Legal Immigrants.....	310
General Public	311
Who Pays: Financing of the ACA	311
Where Are We at Today?	312
Acknowledgments.....	317
18 Taking Care of the Elderly: Medicare	319
The Target Group: Changes over Time	319
Medicare: A Four-Part Program	321
Part A: Hospital Insurance	321
Funding.....	322
Cost Sharing Responsibilities	322
Payment Function.....	323
Part B: Medical Insurance.....	323
Funding.....	324
Cost Sharing.....	325
Payment Function.....	325
Part C: Comprehensive Coverage: Public/Private Interaction.....	326
Part D: Another Experiment in Public/Private Interaction	327
So, How Good Is Medicare?	329
Challenges Facing Medicare: Suggested Policy Changes	330
Summary	332
Acknowledgments.....	334
19 Taking Care of the Poor: Medicaid	335
Who Is Poor: Definitions of Eligibility	336
How Many People Are Poor and Who Are They?	337
Financing and Administration of Medicaid: Federal and State	339
Who Is Covered under Medicaid?	340
What Does the Medicaid Program Cover?	343
State Modifications of Financing and Coverage.....	347
Changing the Design of the Program: Oregon	348
Expanding Medicaid under the ACA	349
Does Medicaid Do What It Was Designed to Do?.....	350
Impact of Medicaid on the Target Population.....	351

Where Does the Money Go?.....	352
What Was the Original Intention of Medicaid?	352
How to Assess Medicaid?.....	352
The Good News	353
The Bad News	354
Another Way to Think about This	355
Acknowledgments.....	357
20 Taking Care of Almost Everybody Else	359
Programs Focusing on Low-Income Children	359
The Children’s Health Insurance Program	360
The Women, Infants, and Children Program	362
Poor, Frail, Elderly: The Program of All-Inclusive Care for the Elderly ...	363
A Public Health Approach: CHCs.....	365
Too Sick to Be Insured: The State Approach.....	367
Workers’ Compensation Programs	368
Indian Health Services	368
Military and Veterans Health Services Systems	371
Military Health System	371
VA	373
Does the Targeted Program Approach Work?.....	377
Acknowledgments.....	379
21 A Persistent Problem: Racial and Ethnic Disparities	
in Health Outcomes	381
What Are Health Disparities?.....	382
How Health Disparities Are Investigated	384
Role of the Environment in Health Disparities	385
A Broader Model: Biopsychosocial Considerations	386
Focusing on Health System Issues	388
What Can Be Done about Health Disparities?.....	389
Where Are We Today?.....	391
Acknowledgments.....	393
22 Alternative Models for Health Care Systems: International	
Perspectives	395
What Countries Should We Examine?.....	396
Overall Description of Health Care System and Demographic	
Features	398
Financing and Cost Sharing.....	404

Resources.....	408
Indicators of Utilization and Financial Access	410
Selected Health Status Indicators	412
What Can We Learn from These Health Systems?.....	412
Comprehensive Services and Universal Coverage	414
Zero Cost at Point of Delivery.....	414
Ability to Control Supply of Health Professionals, Including Specialty and Geographic Distribution	414
Simple Financing and Simple, Effective Cost Containment Measures.....	415
Separation of Employment and Health Insurance	416
Satisfying to Health Care Professionals/Patients	416
Summary and Final Thoughts	416
Acknowledgments.....	418
References	419
Index	449
