# Social Preference, Institution, and Distribution

An Experimental and Philosophical Approach

# Contents

<b>1 Introduction: Applying the Experimental Method to Economic Thought: From Adam Smith to Vernon Smith</b> .....	1
1.1 The Emergence of the Experimental Method in Economics .....	1
1.2 “ <i>Das Adam Smith Probleme</i> ”: Human Behaviors in the History of Economic Thought .....	3
1.2.1 From A. Smith to <i>Methodenstreit</i> Between Menger and the German Historicists.....	3
1.2.2 L. v. Mises’ Human Action and Praxeology as an Original Discipline .....	7
1.2.3 Keynes’ Strategic Avoidance of a Micro-foundation for Macroanalysis .....	8
1.3 Meanings of Experimental Methods in Economics: Human Behaviors in Situational Logic and Empirical Tests .....	9
1.3.1 Popper’s Situational Logic for Objective Understanding of Human Behaviors .....	9
1.3.2 Human Behaviors in Social Institutions .....	10
1.3.3 Experimental Methods for Testing Behaviors and Preferences Under Social Conditions .....	11
1.4 The Scope, Method, and Aim of This Book: Distribution Experiments from Institutional and Historical Perspectives .....	13
1.4.1 Distribution in Economic Experiments .....	14
1.4.2 Distribution in the History of Economic Thought.....	15
1.4.3 Aim, Scope, and Contents of This Book .....	16
References .....	19
<b>2 Fairness Ideals, Hidden Selfishness, and Opportunistic Behavior: An Experimental Approach</b> .....	21
2.1 Introduction .....	21
2.2 Opportunism and Its Theoretical Connotations.....	23
2.3 Experimental Design.....	25
2.4 Models, Hypotheses, and Predictions .....	26

2.4.1	Previous Models and Premises .....	26
2.4.2	Hypotheses .....	29
2.4.3	Value Functions, Fairness Ideals, and Predictions .....	30
2.5	Experimental Results .....	34
2.5.1	Statistical Description .....	34
2.5.2	Distribution in Group Without Opportunity .....	35
2.5.3	Distribution in Groups with Opportunity .....	35
2.5.4	Fairness Ideals by Opportunities .....	36
2.6	Discussion .....	38
2.7	Conclusions .....	43
	Appendices .....	44
	References .....	45
<b>3</b>	<b>What Is “Fair” Distribution Under Collaboration?:</b>	
	<b>Evidence from Lab Experiments .....</b>	<b>47</b>
3.1	Introduction .....	48
3.2	Marx, Webbs, and Cole: Studies on Two Types of Payments .....	52
3.3	Experimental Design .....	53
3.4	Models, Hypothesis, and Predictions .....	55
3.5	Results .....	59
3.5.1	Overview .....	59
3.5.2	Classification of Fairness Ideals .....	60
3.5.3	Fairness Ideals by Treatment .....	61
3.6	Discussion .....	63
3.7	Conclusions .....	65
	Appendices .....	66
	Instructions for IW with-PI Treatment .....	66
	Instructions for the IW Without-PI Treatment .....	68
	Instructions for the CW with-PI Treatment .....	69
	Instructions for the CW Without-PI Treatment .....	70
	References .....	70
<b>4</b>	<b>Income Sharing Between Workers and Investors: Economic</b>	
	<b>Experiments on Functional Income Distribution .....</b>	<b>73</b>
4.1	Introduction .....	73
4.2	Background: Different Models in Functional Income Distribution .....	76
4.2.1	Model 1: Libertarian .....	76
4.2.2	Model 2: Labor-Value Radicalist .....	77
4.2.3	Model 3: Egalitarianism .....	78
4.3	Methodology: Experimental Design, Treatments, Fairness Ideals, and Classifications .....	79
4.3.1	Experimental Design .....	79
4.3.2	Fairness Ideals .....	81
4.3.3	Classification Criteria for Fairness Ideals .....	84
4.3.4	Models, Hypothesis, and Predictions .....	85
4.4	Results of the Experiments .....	87

4.4.1	Overview .....	87
4.4.2	Libertarian .....	89
4.4.3	Fairness Ideals by Treatments and Roles .....	90
4.5	Discussion .....	92
4.5.1	Functional or Nonfunctional .....	93
4.5.2	Investor or Worker .....	93
4.5.3	Whether Capital Is Gained via Investor Labor .....	94
4.5.4	Fairness in Functional Distribution and Implications for the Actual Economy .....	95
4.6	Conclusions .....	97
Appendix	.....	98
Instructions for the with-Labor Treatment .....		98
Instruction for the Without-Labor Treatment .....		101
References	.....	101
<b>5</b>	<b>Socially Responsible Investment: Distributive Experiment Among Investors, Companies, and Society .....</b>	<b>103</b>
5.1	Introduction .....	103
5.2	Stock Corporations and Corporate Social Responsibility .....	105
5.3	Experimental Design .....	107
5.4	Models and Predictions .....	110
5.4.1	Value Function .....	110
5.4.2	Investment Funds and Companies' Performance Information in Past Periods .....	111
5.4.3	Public Gains/Losses, Distribution Rate for Investors, and Company Types .....	115
5.5	Experimental Results .....	117
5.5.1	Overviews .....	117
5.5.2	Trends in Public Gain/Loss and Distribution Rate by Treatment .....	119
5.5.3	Types of Companies by Treatment .....	121
5.6	Discussions .....	124
5.6.1	Information Disclosure Works, But Is Not Perfect .....	124
5.6.2	Punishment Is More Effective than Reward .....	125
5.6.3	How Can SRI Be an Appropriate Institution? .....	126
5.7	Concluding Remarks .....	126
Appendix	.....	127
Economic Experiment: Instruction .....		127
References	.....	131
<b>6</b>	<b>From <i>Gedankenexperiment</i> to Social Economics: Wieser's Empiricism and the Social Sciences .....</b>	<b>133</b>
6.1	Introduction .....	133
6.2	Historical Background: Empiricism from Menger to Wieser .....	135
6.3	Menger's Empiricism .....	137
6.4	Wieser's Meaning of "Experience" .....	138

6.4.1	“Experience” as Stored in Common Language.....	140
6.4.2	“Experience” as a Result of Introspection or Inner Observation .....	141
6.4.3	“Experience” as Mental Experiments in the Social Sciences.....	142
6.4.4	“Experience” as Observation or as the Result of Methodological Motivationalism .....	143
6.5	Structure of Wieser’s Empiricism .....	145
6.6	Conclusion: Deriving Implications for Behavioral Theories from Wieser’s Empiricism .....	147
6.6.1	Subjective Rationality .....	148
6.6.2	Situational Analysis of Institutions and Human Behaviors ...	149
6.6.3	Empirical Tests of Theories from Micro-level to Macro-level.....	149
6.6.4	Methodological Motivationalism .....	151
	References .....	152
<b>7</b>	<b>Conclusion: From Behavioral Theories to Institutional Evolution .....</b>	<b>155</b>
7.1	Introduction .....	155
7.2	Humans Are “Institutionalized” Existences by “Going Concerns” ...	156
7.3	Humans “Institutionalize” Going Concerns and Circular Cumulative Causations .....	159
7.4	Beyond Laissez-Faire or Social Constructivism: To Institutional Evolution via Piecemeal Social Engineering .....	162
7.5	Concluding Remarks.....	165
	References .....	165
