Handbook of Research on Driving Competitive Advantage through Sustainable, Lean, and Disruptive Innovation

Latif Al-Hakim  
*University of Southern Queensland, Australia*

Xiaobo Wu  
*Zhejiang University, China*

Andy Koronios  
*University of South Australia, Australia*

Yongyi Shou  
*Zhejiang University, China*

A volume in the Advances in Business Strategy and Competitive Advantage (ABSCA) Book Series
Table of Contents

Preface ........................................................................................................................................... xvii

Acknowledgment .......................................................................................................................... xxvii

Section 1
Theories, Strategies, and Emerging Concepts

Chapter 1
Technology Innovation Adoption Theories ......................................................................................... 1
  Omar Ali, University of Southern Queensland, Australia
  Jeffrey Soar, University of Southern Queensland, Australia

Chapter 2
Lean Thinking and the Innovation Process ...................................................................................... 39
  Hilal Hurriyet, Western Sydney University, Australia
  Dilupa Nakandala, Western Sydney University, Australia

Chapter 3
Lean Thinking via Business Intelligence Technologies and Innovation Process ............................ 59
  Seniye Ümit Oktay Firat, Marmara University, Turkey
  Canan Ağlan, Marmara University, Turkey
  Zeynep Tuğçe Kalender, Marmara University, Turkey
  İlayda Ülkü, T. C. Istanbul Kultur University, Turkey
  Gökçen Bayram, Marmara University, Turkey
  Mehmet Erdem, Marmara University, Turkey

Chapter 4
Multiplex Waves in the Planning of Innovation Processes in Business Systems ........................... 86
  Mishail Mokiy, State University of Management, Russia
  Vladimir Godin, State University of Management, Russia
  Pavel Gureev, State University of Management, Russia
  Veronica Filonchik, Russian Presidential Academy of National Economy and Public Administration, Russia
Chapter 5
Innovative Strategies, Feedbacks, Learning, and Change ............................................................... 111
Diana Valeria Suarez, Universidad Nacional de General Sarmiento, Argentina

Chapter 6
Competitive Advantage, Open Innovation, and Dynamic Capabilities: Is Sanofi Employing an Open Innovation Strategy? ......................................................................................................................... 140
Geoffroy Labrouche, IEP de Toulouse, France
Med Kechidi, Université Toulouse Jean-Jaurès, France

Chapter 7
Promoting Lean Innovation for SMEs: A Mexican Case ........................................................................ 165
José Luis Solleiro, Universidad Nacional Autónoma de México, Mexico
Rosario Castañón, Universidad Nacional Autónoma de México, Mexico
Claudia Gaona, Consejo Nacional de Ciencia y Tecnología, Mexico

Section 2
Barriers and Challenges

Chapter 8
The Barriers to Innovation Diffusion: The Case of GM Food in Sri Lanka ........................................... 186
Dilupa Nakandala, Western Sydney University, Australia
Tim Turpin, Western Sydney University, Australia

Chapter 9
Challenges to Firms’ Collaborative Innovation Facing the Innovation Babel Tower ........................... 204
Monica Elizabeth Edwards-Schachter, Universitat Politècnica de València, Spain

Chapter 10
Low Carbon Energy Innovations Systems in Natural Resource Rich Developing Countries: The Case of Brazil .................................................................................................................................................. 228
André Tosi Furtado, University of Campinas, Brazil

Chapter 11
How Do LCD Innovations Differ? Challenges and Specificities of Low Carbon Technologies and Energy Systems ........................................................................................................................................ 244
Rainer Walz, Fraunhofer Instituts Systems and Innovation Research, Germany

Chapter 12
Building Innovation Systems for Small-Scale Agricultural Activities in Sub-Saharan Africa: Key Success Factors ........................................................................................................................................... 276
Olawale Oladipo Adejuwon, Obafemi Awolowo University, Nigeria
Chapter 13
Identifying Nanotechnological Systems of Innovation: Developing Indicators as a Tool to Support Nanotechnology Innovation Policy in Brazil ................................................................. 305
   Flávio J. M. Peixoto, Brazilian Institute of Geography and Statistics, Brazil & Federal University of Rio de Janeiro, Brazil

Chapter 14
Innovation and Intellectual Property Rights: The Case of Soybean Seeds in Argentina and the United States ................................................................. 334
   Mercedes Campi, IIEP-Baries (UBA-CONICET), Argentina

Chapter 15
Challenges for Innovation Due to Firm Size: The Case of Brazilian Industrial Firms ..................... 355
   Graziela Ferrero Zucoloto, Instituto de Pesquisa Econômica Aplicada, Brazil
   Mauro Oddo Nogueira, Instituto de Pesquisa Econômica Aplicada, Brazil

Chapter 16
Higher Education, Technological Change, and Local Development: Experiences and Challenges in Cuban Context ................................................................. 376
   Jorge Núñez Jover, University of Havana, Cuba
   Gaila Figueroa Alfonso, University of Havana, Cuba
   Ariannis Alcázar Quiñones, University of Havana, Cuba
   Isviyesys Armas Marrero, University of Havana, Cuba

Section 3
Empirical and Statistical Studies

Chapter 17
Data Science and Big Data Analytics in Financial Services: A Case Study ........................................ 396
   Suren Behari, University of Southern Queensland, Australia
   Aileen Cater-Steel, University of Southern Queensland, Australia
   Jeffrey Soar, University of Southern Queensland, Australia

Chapter 18
Learning and Innovation in Multinational Companies from Emerging Economies: The Case of CEMEX .............................................................................. 424
   Arturo Torres Vargas, Universidad Autónoma Metropolitana, Mexico
   Javier Jasso Villazul, Universidad Nacional Autónoma de México, Mexico

Chapter 19
International R&D Collaboration in High Tech: The Challenges of Jet Fighter Development Partnerships in Emerging Economies .................................................... 455
   Solmaz Filiz Karabag, Linkoping University, Sweden
   Christian Berggren, Linkoping University, Sweden
Chapter 20
Innovation in the Health System: Evidences from Brazilian Local Production and Innovation Systems

Marcelo Pessoci de Matos, Federal University of Rio de Janeiro, Brazil
Maria Clara Couto Soares, Federal University of Rio de Janeiro, Brazil
José Eduardo Cassiolato, Federal University of Rio de Janeiro, Brazil
Julia Queiroz, Fundo Brasileiro para a Biodiversidade, Brazil

Chapter 21
Shared Electronic Health Records as Innovation: An Australian Case

Troy Pullen, Queensland State Archives, Australia
Latif Al-Hakim, University of South Australia, Australia

Chapter 22
Antecedents of Collaborative Arrangements in the Innovation and Production System

Yongyi Shou, Zhejiang University, China
Ying Li, Zhejiang University, China
Lubin Wu, Zhejiang University, China

Chapter 23
The Effect of Organizational Slack on Innovation Performance: An Empirical Study of High-Tech Industry in China

Qiuyue Pan, Zhejiang University, China
Jiang Wei, Zhejiang University, China
Latif Al-Hakim, University of South Australia, Australia

Chapter 24
Exploring the Impact of University-Industry Linkages on Firms' Innovation: Empirical Evidence from Mexico

Noé Becerra Rodríguez, Metropolitan Autonomous University, Mexico
Gabriela Dutrénit Bielous, Metropolitan Autonomous University, Mexico

Chapter 25
Characteristics of Innovation in the Arabic Countries

Samia Satti Osman Mohamed Nour, University of Khartoum, Sudan
