Contents of Boxes, Diagrams, Figures, and Tables  xi

### PART I.

**Chapter 1** The Real Rate of Profits/Returns Equals Zero, Actually and Endogenously  1

1.1 Introduction  2  
1.2 Consumption-neutral to growth and technology, with stop macro-equality  2  
1.3 Rate of return after deducting inflation/deflation is zero  4  
1.4 From exogenous to endogenous ‘Phelps’ golden rule, Cooperating and reinforcing the market principles  6  
1.5 The first money-neutral tests: using externals of ten-year debt yield, Money supply, and the exchange rate by country  7  
1.6 The second money-neutral tests endogenously Using the speed years and the valuation ratio  9  
1.7 Conclusions  9  
References  11

**Chapter 2** Royal Roads to A Utopian Economy, Wholly under the Endogenous-Equilibrium = the Price-Equilibrium  18

2.1 Introduction  20  
2.2 Most serious obstacle to full-employment  22  
2.3 New discoveries save decision-makers and policy-makers  24  
2.4 Consumption-neutral to growth and technology: macro versus micro  25  
2.5 Conclusions  28  
Roadmap: Neutrality of financial/market assets to real assets, along with chapters  26  
References  32  
Appendices  37  
Appendix 1: Basic endogenous equations in the discrete time  37  
Appendix 2: Scientific approach to topology under two-dimensions  38

**Chapter 3** Structural Improvement in Labor Productivity: Individual Life-Time versus Systems  44

3.1 Life-time productivity analysis  45  
3.2 Improvement in labor productivity by economy and by enterprise  47  
3.3 Conclusions  49  
References  50
