ERGONOMICS AND HUMAN FACTORS IN SAFETY MANAGEMENT

EDITED BY
Pedro M. Arezes
Paulo Victor Rodrigues de Carvalho
Contents

Preface ............................................................................................................................................... ix
Editors ............................................................................................................................................. xiii
Contributors .................................................................................................................................... xv

SECTION I Occupation Safety

Chapter 1 Reliability in Occupational Risk Assessment: Stability and Reproducibility Evaluation When Using a Matrix-Based Approach .................................................. 3
Filipa Carvalho and Rui B. Melo

Chapter 2 Regulatory, Organizational, and Operational Issues in Road Construction Safety ...................................................................................................................... 31
Ashim Kumar Debnath, Tamara Banks, Ross Blackman, Nathan Dovian, Narelle Haworth, and Herbert Biggs

Chapter 3 Development of an Occupational Health and Safety Management System for Manufacturing Companies in Mexico Using Factorial Analysis .................................................. 49
Luis Cuautle Gutiérrez and Miguel Angel Avila Sánchez

Chapter 4 Characterization of the Portuguese Furniture Industry’s Safety Performance and Monitoring Tools ................................................................................................................. 65
Matilde A. Rodrigues, Pedro Arezes, and Celina P. Leão

Chapter 5 HSEQ Assessment Procedure for Supplying Network: A Tool for Promoting Sustainability and Safety Culture in SMEs ....................................................... 83
Seppo Väyrynen, Henri Jounila, Jukka Latva-Ranta, Sami Pikkarainen, and Kaj von Weissenberg

Chapter 6 Ergonomics Point of View of Work Accidents in Safety Management Perspective .................................................................................................................... 109
Mario Cesar R. Vidal, Rodrigo Arcuri Marques Pereira, Renato José Bonfatti, Alessandro Jatobá, and Paulo Victor Rodrigues de Carvalho

SECTION III  Models and Other Topics

Chapter 13  Transitional Journey Maps: Reflections on Creating Workflow Visualizations
Reinier J. Jansen, René van Egmond, and Huib de Ridder

Chapter 14  The Missing Links in System Safety Management
Karen Klockner and Yvonne Toft

Chapter 15  Prediction of High Risk of Drowsy Driving by a Bayesian Estimation Method: An Attempt to Prevent Traffic Accidents due to Drowsy Driving
Atsuo Murata

Chapter 16  Space Missions as a Safety Model
Irene Lia Schlacht

Chapter 17  Categorization of Effective Safety Leadership Facets
Sari Tappura and Noora Nenonen

Chapter 18  Women with Upper Limb Repetitive Strain Injury (RSI) and Housework
Zixian Yang and Therma Wai Chun Cheung
