The World in 2050
STRIVING FOR A MORE JUST,
PROSPEROUS, AND HARMONIOUS
GLOBAL COMMUNITY

Edited by
HARINDER S. KOHLI

Emerging Markets Forum
OXFORD UNIVERSITY PRESS
Table of Contents

xiii  List of figures, boxes, and tables

xix  List of acronyms

xxv  Foreword

xxix  Acknowledgments

xxxv  Overview

Harinder S. Kohli

xxxv  Historic context and transformation over the past 60 years
xxxvii  Drivers of future long-term economic growth
xxxix  The world in 2050: Alternate scenarios
xliii  Development is more than growth
xliv  Revamping global governance
xliv  A new leitmotif for sustaining a multipolar, multicultural, and interconnected world

1  Introduction and historical context
Harinder S. Kohli

1  Introduction
1  Historical context
3  The big question—Will convergence continue?
3  Structure of the book

11  Global megatrends
Harinder S. Kohli

12  1. Demographics: An aging population
13  2. Urbanization: Toward a predominantly urbanized world
14  3. International trade: An increasingly intertwined world
15  4. Globalization of finance: Toward larger, more integrated financial markets
16  5. Rise of a massive middle class: Toward societies driven by new values and aspirations
17  6. Competition for finite natural resources
18  7. Climate change: The time to act is now...jointly
19  8. Technological progress: Potential solutions to the world's evolving challenges
22  10. Violent non-state actors: A changing global security landscape

124 Issues in EME financial sector reform to 2050
127 Conclusion

133 Where will emerging markets stand in global trade?
  Pascal Lamy

133 Introduction
133 Shaping factors of emerging countries in global trade
153 Potential disruptions in the intensity of trade and new challenges for the emerging economies
163 Evolution of trade obstacles and comparative advantages in global trade
167 Conclusion

FUTURE OF THE NATURAL WORLD, NATURAL RESOURCES, AND
TECHNOLOGICAL SOLUTIONS

171 Emerging markets and climate change—Protecting and enhancing prosperity
  Alexander Pfeiffer & Cameron Hepburn

171 Introduction
178 The scientific context
186 The low-carbon transition: Opportunities and threats
193 Political context
201 Conclusion

207 Crop yields and food security in an increasingly affluent world
  Marco Ferroni & Yuan Zhou

207 Introduction and overview
210 Global food demand to 2050 and required crop yield growth
218 Plant breeding for genetic yield gain
221 Crop management for yield growth and sustainable intensification
225 Summary and conclusion

231 Water—A motor and a precondition for sustainable development in emerging and
developing economies
  Gerard Payen

231 Introduction
231 Water-related challenges are growing in many parts of the world
234 Operating, maintaining, and developing water infrastructure
236 The political bottleneck
237 The 2030 political milestone

243 Potential technological landscape
  R.A. Mashelkar

243 Historical perspective
243 Predicting the future
244 The digital transformation of life and work
248 Technology-led transformation of physical world
252 Future energy
RISE OF EMERGING ECONOMIES AND IMPLICATIONS FOR GLOBAL GOVERNANCE

277 Alternative long-term scenarios
Claudio Loser, Harpaal Alberto Kohli, Anne Jamison, Alden LoClair, Ieva Vilkelyte, & Harinder S. Kohli

277 Context and overview
278 The past sixty years: Drivers of transformation
290 Future sources of growth in Emerging and Developing Economies
293 Alternative scenarios of long-term performance
294 Strong policy (optimistic) scenario
301 Emerging global economy: Concluding remarks

311 The state of global governance—An assessment
Montek Singh Ahluwalia

311 Introduction
312 Managing global financial interconnectivity
323 Managing trade interconnectivity
325 Managing the threat to climate change
328 A summary assessment

SOCIAL AND POLITICAL CHALLENGES TO REALIZE A PROSPEROUS GLOBAL COMMUNITY BY 2050 AS WELL AS PHILOSOPHICAL AND MORAL UNDERPINNINGS FOR SOCIETAL AND GLOBAL WELL-BEING

335 The future of violent non-state actors
Daniel Byman

335 Introduction
335 Some cautions about predictions
336 Global impact
336 Violent non-state actors: Thousands of years of history in a few short paragraphs
339 Trends and concerns about terrorism and substate violence today
341 The rise of Islamist terrorism in context
342 Anticipating future trends
344 Managing the threat

351 Eradicating poverty, reducing inequality, and promoting sustainable development
Alejandro Toledo

351 Introduction
351 Vision for a shared society
352 Reducing inequality as an imperative for promoting sustainable development
354 Why do we care about inequality?
355 Where is Latin America in terms of inequality?
357 Why do we care about poverty?
358 What is poverty?
What are the levels of poverty in Latin America?
Who are the poor?—Gender and ethnic disparities
Child poverty
Summing up

The ultimate objective of the development process—Pursuit of material wealth versus societal well-being
Yosuke Yasuda

Introduction
Does wealth conflict with well-being?
Macroeconomics of wealth and inequality
Equitable market design
Concluding remarks
Addendum by Hiroshi Watanabe

Interlude: Changing lifestyles to sustain prosperity for all
Ramgopal Agarwala & Harinder S. Kohli

Why are changing lifestyles essential for shared prosperity?
Contours of a leapfrog strategy to sustainable prosperity for all

Global partnership—A new leitmotif for an interconnected world
Vittorio Hösle & Horst Köhler

Moral arguments for interconnectedness
Solutions for sustainability
Prevention of interstate violence
A better intercultural agreement

Epilogue: Facing global challenges between now and 2050
Michel Camdessus & Harinder S. Kohli

Will global growth be sufficient?
Toward the elusive long-term sustainability of human development

Annex 1: Classification of countries into nine groups
Annex 2: Projection methodology
Annex 3: Additional regional and country-level results
Annex 4: Assessment of long-term fiscal and current account sustainability
