Spatial Econometric Interaction Modelling

Springer
Contents

1 Spatial Econometric Interaction Modelling: Where Spatial Econometrics and Spatial Interaction Modelling Meet ........ 1
   Roberto Patuelli and Giuseppe Arbia

Part I General Methodological Issues

2 Spatial Regression-Based Model Specifications for Exogenous and Endogenous Spatial Interaction ..................... 15
   James P. LeSage and Manfred M. Fischer

   Daniel A. Griffith and Manfred M. Fischer

4 Testing Spatial Autocorrelation in Weighted Networks: The Modes Permutation Test ...................................... 67
   François Bavaud

5 Effects of Scale in Spatial Interaction Models ......................... 85
   Giuseppe Arbia and Francesca Petrarca

Part II Specific Methodological Issues

6 Dealing with Intraregional Flows in Spatial Econometric Gravity Models ......................................................... 105
   Kazuki Tamesue and Morito Tsutsumi

7 A Bayesian Spatial Interaction Model Variant of the Poisson Pseudo-Maximum Likelihood Estimator ..................... 121
   James P. LeSage and Esra Satıcı
8 The Space of Gravity: Spatially Filtered Estimation of a Gravity Model for Bilateral Trade .................................................. 145
Roberto Patuelli, Gert-Jan M. Linders, Rodolfo Metulini, and Daniel A. Griffith

9 A Spatial Interaction Model with Spatially Structured Origin and Destination Effects .................................................. 171
James P. LeSage and Carlos Llano

10 Bayesian Variable Selection in a Large Vector Autoregression for Origin-Destination Traffic Flow Modelling .......... 199
Minfeng Deng

11 Double Spatial Dependence in Gravity Models: Migration from the European Neighborhood to the European Union .......... 225
Michael Beenstock and Daniel Felsenstein

12 Multilateral Resistance and the Euro Effects on Trade Flows ........ 253
Camilla Mastromarco, Laura Serlenga, and Yongcheol Shin

Part III Applications

13 The Effects of World Heritage Sites on Domestic Tourism: A Spatial Interaction Model for Italy .............................................. 281
Roberto Patuelli, Maurizio Mussoni, and Guido Candela

14 Testing Transport Mode Cooperation and Competition Within a Country: A Spatial Econometrics Approach .................. 317
Jorge Díaz-Lanchas, Nuria Gallego, Carlos Llano, and Tamara de la Mata

15 Modeling the Effect of Social-Network on Interregional Trade of Services: How Sensitive Are the Results to Alternative Measures of Social Linkages ........................................... 365
Carlos Llano and Tamara de la Mata

16 On the Mutual Dynamics of Interregional Gross Migration Flows in Space and Time .................................................. 415
Timo Mitze

17 Residential Relocation in a Metropolitan Area: A Case Study of the Seoul Metropolitan Area, South Korea ............ 441
Monghyeon Lee and Yongwan Chun

18 Conclusions: The Future of Spatial Interaction Modelling ........ 465
Giuseppe Arbia and Roberto Patuelli
