International Economics

A Heterodox Approach

Third Edition

Hendrik Van den Berg
PART I INTRODUCTION TO INTERNATIONAL ECONOMICS 1

1 Interdependence! 3

1.1 Introduction 3

1.2 The Bigger Picture 6

1.2.1 The Gains from Dealing with Strangers 6

1.2.2 The Three Benefits of Human Interaction Are Intertwined 7

1.2.3 Dependence on Strangers Is Inherently Problematic 8

1.2.4 The Crucial Role of Institutions 8

1.2.5 Institutions Evolve Slowly and Unevenly 9

1.3 The Evolution of International Economic Integration 10

1.3.1 The Growth of International Trade 11

1.3.2 The Growth of International Investment and Finance 12

1.3.3 International Migration 13

1.4 International Economic Integration Is Far from Complete 14

1.4.1 Economic Integration Is Not Inevitable 14

1.4.2 New Concerns about International Economic Integration 15

1.5 The Field of International Economics 15

1.5.1 The Bias of Mainstream Economic Analysis 16

1.5.2 The Spheres of Human Existence 16

1.5.3 The Natural Environment 17

1.5.4 Social Stress 18

1.6 How Economists Deal with Complexity 19

1.6.1 Economic Models 19

1.6.2 The Dangers Lurking Behind Economic Models 19

1.6.3 The Tyranny of Models and Paradigms 21

1.6.4 The Pro-Globalization Culture of International Economics 21

1.6.5 Heterodoxy 22

1.7 Summary and Conclusions 22

Chapter Summary 23

Key Terms and Concepts 24

Problems and Questions 24

Notes 25
2 Introduction to Heterodoxy

2.1 Holism and Economics
   2.1.1 The System Versus the Parts
   2.1.2 Do Systems Move Toward Stable Equilibria?
   2.1.3 Holism and Science
   2.1.4 Can the Scientific Method Ever Uncover Absolute Truth?

2.2 Economists and Complex Systems
   2.2.1 Economists' Embrace of Scientific Reductionism
   2.2.2 The Neoclassical School
   2.2.3 The Unbelievable Assumptions Behind Neoclassical Models

2.3 The Common Themes of Heterodoxy
   2.3.1 Some Heterodox Ideas that Differ from Orthodox Economic Thinking
   2.3.2 Heterodoxy and Economic Policy

2.4 A Sociological Justification for Heterodoxy
   2.4.1 Institutions and Culture
   2.4.2 Pierre Bourdieu's Analysis of Cultures
   2.4.3 Symbolic Violence
   2.4.4 A Sociology of International Economics

2.5 Conclusions and Further Thoughts

PART II INTERNATIONAL TRADE THEORY

3 Orthodox International Trade Theory:
   Why Mainstream Economists Like Free Trade

3.1 A Simple Version of the Heckscher–Ohlin Model of International Trade
   3.1.1 The Production Possibilities Frontier
   3.1.2 Consumer Demand and Indifference Curves
   3.1.3 Individual Indifference Curves and Society's Indifference Curve
   3.1.4 Combining the Supply and Demand Sides
   3.1.5 The Gain from International Trade
   3.1.6 The Gain from International Specialization

3.2 Do All Nations Gain from Trade?
   3.2.1 Why Production Possibilities Frontiers Differ from Country to Country
   3.2.2 A Two-Country Model of Trade
   3.2.3 The Principle of Comparative Advantage
   3.2.4 David Ricardo's Example of Comparative Advantage

3.3 International Trade and the Distribution of Income
   3.3.1 International Trade and Factor Returns
   3.3.2 The Heckscher–Ohlin Theorem
   3.3.3 The Stolper–Samuelson Theorem
   3.3.4 The Factor Price Equalization Theorem
   3.3.5 Estimating the Precise Distributional Effects of Trade

3.4 Evaluating the Heckscher–Ohlin Model
   3.4.1 Evaluating the HO Model and the Gains from Trade
   3.4.2 Some Especially Dangerous Assumptions of the HO Model
   3.4.3 How Important Is the Welfare Gain from Trade?

3.5 Supply and Demand Analysis of Trade
   3.5.1 Producer and Consumer Surplus
   3.5.2 From the HO Model to the Partial Equilibrium Model
5.2.3 A Brief History of Transnational Corporations 113
5.2.4 TNCs and International Trade 114

5.3 Explaining the Growth of Transnational Corporations 115
5.3.1 Why Transnational Corporations Dominate the Economic Sphere 115
5.3.2 Transnational Corporations Are Controversial 117

5.4 Comparative Advantage and International Marketing 118
5.4.1 Comparative Advantage and Competitive Advantage 118
5.4.2 Marketing and the Perceived Value of a Product 118
5.4.3 Customers Are Not All the Same 119
5.4.4 Should the Product Look Local or Foreign? 120
5.4.5 Market Segmentation 120
5.4.6 Marketing and Transnational Corporations 121

5.5 The Implications of the Growth of Transnational Corporations 121
5.5.1 Managed Trade 121
5.5.2 Transnational Corporations and Economic Policy 122
5.5.3 Transnational Corporations and National Sovereignty 123

5.6 Conclusions 123

Chapter Summary 124
Key Terms and Concepts 125
Problems and Questions 125
Notes 126

6 International Trade and Economic Development 127

6.1 The Growth of International Trade 129
6.1.1 Why Growth Matters: The Power of Compounding 130
6.1.2 Statistical Evidence on Trade and Growth 131
6.1.3 Cross-Section Studies 132
6.1.4 Time-Series Studies 133
6.1.5 The Relationship between International Trade and Institutions 133
6.1.6 The Stolper–Samuelson Theorem and Long-Run Economic Change 134

6.2 The Solow Growth Model 135
6.2.1 Technological Progress and Factor Accumulation 135
6.2.2 Increased Investment Brings Only Medium-Run Growth 138
6.2.3 Does International Trade Only Create Medium-Run Growth Too? 138
6.2.4 Technological Change and Permanent Growth 139

6.3 Technology and Technological Progress 141
6.3.1 Human Technology 141
6.3.2 Technological Progress Is a Combinatorial Process 142
6.3.3 Technological Change Is Path Dependent 143
6.3.4 Not All New Technology Constitutes Progress 144
6.3.5 Technological Change and Agglomeration 145

6.4 Joseph Schumpeter’s Model of Creative Destruction 145
6.4.1 Fundamental Ideas behind Schumpeter’s Model 146
6.4.2 Recent “Schumpeterian” Models of Technological Progress 146
6.4.3 The Cost of Innovation 147
6.4.4 The Gains from Innovation Depend on the Speed of Innovation 148
6.4.5 The Equilibrium Rate of Technological Progress 149

6.5 International Trade and Economic Development 149
6.5.1 The Combinatorial Process and International Trade 149
6.5.2 The Geographic Diffusion of Technology 150

6.6 Economic Growth, Trade, and the Environment 151
6.6.1 The Clash Between Economic Growth and the Environment 152
## CONTENTS

### 6.6.2 Are There Limits to Growth? 153
### 6.6.3 Optimists, Skeptics, and Scientists 153
### 6.6.4 We Should Be Concerned 154
### 6.6.5 Must We Stop Economic Growth to Survive? 154

### 6.7 Conclusions and Implications 156

#### Chapter Summary
157

#### Key Terms and Concepts
158

#### Problems and Questions
159

#### Notes
160

### 7 International Trade, Human Happiness, and Inequality 161

#### 7.1 Income Inequality
161
##### 7.1.1 Measuring Inequality 165
##### 7.1.2 The Lorenz Curve 165
##### 7.1.3 The Distribution of Income in Distant History 166
##### 7.1.4 Global Measures of Income Inequality 167
##### 7.1.5 The Distribution of Wealth 168

#### 7.2 Is there an Optimal Level of Equality? 170
##### 7.2.1 Elements of a Just Society 171
##### 7.2.2 Rawls's Veil of Ignorance 171
##### 7.2.3 The Psychological Basis for Economic Equality 172
##### 7.2.4 The Relationship between Social and Economic Justice 173

#### 7.3 International Trade's Effect on the Distribution of Income 174
##### 7.3.1 Vernon's Product Cycle Model 175
##### 7.3.2 More Leader–Follower Models 176
##### 7.3.3 International Trade and Technology Diffusion 177
##### 7.3.4 Geographic Concentration of Innovative Activity 177
##### 7.3.5 The Agglomeration of Innovative Activity 179
##### 7.3.6 Changing Patterns of Economic Activity 180
##### 7.3.7 Specialized Agglomeration 181

#### 7.4 Transnational Corporations, Agglomeration, and Technology 181
##### 7.4.1 Foreign Direct Investment, Trade, and Technology Flows 181
##### 7.4.2 Reassessing the Gains from Trade When It Diffuses Technology 182
##### 7.4.3 Immerizing Growth 183
##### 7.4.4 The Long-Run Dynamics of International Investment and Knowledge Transfers 184

#### 7.5 Trade and the World Distribution of Income: A Conclusion 185

#### Chapter Summary

## PART III INTERNATIONAL TRADE POLICY 189

### 8 Tariffs, Quotas, and Other Trade Restrictions 191

#### 8.1 Tariffs
191
##### 8.1.1 The Welfare Gains and Losses of a Tariff 192
##### 8.1.2 Who Effectively Pays the Tariff? 193
##### 8.1.3 A Numerical Example of a Specific Tariff 194
##### 8.1.4 A Tariff in the Heckscher–Ohlin Model 195
##### 8.1.5 The Lerner Symmetry Theorem 195
8.1.6 Summarizing the Welfare Effects of a Tariff 196
8.1.7 How Much Protection Does a Tariff Really Provide? 197
8.1.8 Average Tariff Rates 198

8.2 Quotas
8.2.1 A Quota in the Supply and Demand Model of Trade 199
8.2.2 The Welfare Effects of a Quota 201
8.2.3 Who Gets to Import and Collect the Quota Rent? 201
8.2.4 A Numerical Example of a Quota 202
8.2.5 Voluntary Export Restraints (VERs) 203
8.2.6 Auction Quotas 204
8.2.7 Are Tariffs and Quotas Equivalent? 204

8.3 Other Trade Barriers
8.3.1 Export Bans to Insure Against Domestic Shortages 206
8.3.2 Using Bureaucratic Procedures to Impede International Trade 207
8.3.3 “Buy Domestic” Regulations 207
8.3.4 Local Restrictions on Foreign Trade 208

8.4 Export Taxes and Subsidies 208
8.4.1 Export Taxes 208
8.4.2 Price Elasticity and Export Taxes 209
8.4.3 Why Doesn’t the United States Tax Exports? 210
8.4.4 Export Subsidies 210

8.5 Antidumping Procedures, Surge Protection, and Sanctions 211
8.5.1 Defining Dumping 211
8.5.2 How the U.S. Government “Proves” Dumping 212
8.5.3 Price Discrimination Does Not Necessarily Imply Dumping 213
8.5.4 Countervailing Duties and Surge Protection 214
8.5.5 Trade Sanctions 215
8.5.6 National Security 216

8.6 Conclusions 216
Chapter Summary 216
Key Terms and Concepts 217
Problems and Questions 218
Notes 219
Appendix: The Complete Analysis of a Tariff in a General Equilibrium HO Model 220

9 The History of Trade Policy 222

9.1 The Political Economy of International Trade 222
9.1.1 The Median Voter Model 223
9.1.2 The Uninformed Voter Model 224
9.1.3 Case Study: The U.S. Sugar Quota 224
9.1.4 The Endogenous Tariff Model 226
9.1.5 The Adding Machine Model 227
9.1.6 Rent-Seeking Behavior 277

9.2 Trade Policy Before the Twentieth Century 228
9.2.1 The Ups and Downs of Trade Policy 229
9.2.2 Mercantilism 229
9.2.3 The Intellectual Attack on Mercantilism 231
9.2.4 U.S. Trade Policy before World War I 232
9.2.5 Forced Trade Liberalization in the Far East 232
9.2.6 Europe Reverses Course in the Late 1800s 233

9.3 Destroying Trade During the Interwar Period 234
9.3.1 The Treaty of Versailles 234
## Contents

9.3.2 The Smoot–Hawley Tariff 235  
9.3.3 Another Policy Reversal 235  

9.4 Trade Policy After World War II: The General Agreement on Tariffs and Trade 236  
9.4.1 The Key Provisions of the General Agreement on Tariffs and Trade 236  
9.4.2 The GATT Rounds 237  
9.4.3 The U.S. Reluctance to Open Its Market 237  
9.4.4 Trade Without Injury: Further Analysis 238  
9.4.5 The Emergence of New Forms of Protection: Nontariff Barriers 239  
9.4.6 The Kennedy and Tokyo Rounds 240  
9.4.7 The Effectiveness of Trade Adjustment Assistance 241  
9.4.8 Evaluating the GATT Rounds through Tokyo 241  

9.5 The Uruguay Round 242  
9.5.1 More Players and More Issues 242  
9.5.2 Intellectual Property Rights 243  
9.5.3 Replacing the GATT with the World Trade Organization 243  

9.6 The Doha Round 244  
9.6.1 The Agenda of the Doha Round 244  
9.6.2 The Role of the Developing Countries 245  

9.7 The Shift to Trade Blocs 246  
9.7.1 Defining Regional Economic Integration 246  
9.7.2 Trade Creation versus Trade Diversion 248  
9.7.3 Regional Free Trade Is Not Necessarily Welfare Increasing 249  

9.8 Conclusions and Comments 249  
Chapter Summary 250  
Key Terms and Concepts 251  
Problems and Questions 251  
Notes 253

## 10 International Trade Policy: A Holistic Perspective 254

10.1 Mercantilism and the Colonial System 255  
10.1.1 Colonialism Is a Form of Mercantilism 255  
10.1.2 The Case of Colonial Brazil 256  
10.1.3 Mercantilism after Brazil's Independence 257  
10.1.4 The Coffee Economy 258  
10.1.5 From Accidental to Planned Industrialization 258  
10.1.6 Comparing the Law of Similars and the Infant Industry Argument 260  
10.1.7 Interpreting Brazil's Colonial and Postcolonial Experiences 261  

10.2 Import Substitution Industrialization 263  
10.2.1 ISI Gets a Life of Its Own 263  
10.2.2 Prebisch's Development Model 263  
10.2.3 An Assessment of ISI Policies 264  
10.2.4 An Example of ISI Failure 266  
10.2.5 Lessons from ISI 267  

10.3 Mercantilism, Agglomeration, and the International Economy 268  
10.3.1 Agglomeration and TNCs 268  
10.3.2 The Reappearance of Mercantilism 268  
10.3.3 TNCs and the Power to Set Policy 270  
10.3.4 Dramatic Examples of Mercantilism 270  

10.4 Strategic Trade Policy 271  
10.4.1 Strategic Competition: Boeing vs. Airbus 272  
10.4.2 Strategic Trade Policy Can Reduce National Welfare 274
10.5 Conclusions
Chapter Summary
Key Terms and Concepts
Problems and Questions

PART IV INTERNATIONAL INVESTMENT AND FINANCE

11 International Investment and International Finance

11.1 The Balance of Payments
  11.1.1 The Circular Flow of Economic Activity
  11.1.2 Adding the Financial Sector and Government to the Circular Flow
  11.1.3 The Circular Flow in an Open Economy
11.2 The Design of the Balance of Payments Account
  11.2.1 The Basics
11.3 The Current Account and the Financial Account
  11.3.1 The Current Account
11.4 Finance
  11.4.1 The Financial Sector of the Economy
  11.4.2 Financial Instability
  11.4.3 Why Financial Transactions Are Not Always Completed
  11.4.4 An Example of Rampant Moral Hazard, Adverse Selection, and Fraud
  11.4.5 What Does Finance Contribute to Human Provisioning?
11.5 Orthodox Models of International Investment
  11.5.1 A Traditional Model of International Investment
  11.5.2 Risk and Diversification
  11.5.3 The Dynamic Gains from International Investment
  11.5.4 The Long-Run Welfare Effects of International Financial Flows
11.6 Financialization
  11.6.1 The Manifestations of Financialization
  11.6.2 Growing Influence of Finance on the Real Economy
  11.6.3 The Separation of Finance from Provisioning
  11.6.4 Is Financialization a Necessary Evil in a Modern Complex Economy?
11.7 International Financial Flows: Some Conclusions

Chapter Summary
Key Terms and Concepts
Problems and Questions
Notes

12 The Foreign Exchange Market

12.1 The Evolution of the Foreign Exchange Market
  12.1.1 The Real History of Money
  12.1.2 The Emergence of Finance Occurred before the Emergence of Money
  12.1.3 The Foreign Exchange Market in Ancient Times
  12.1.4 The Development of Banking and Bankers’ Role in Money Creation
  12.1.5 Fiat Money and Exchange Rates
12.2 Contemporary Foreign Exchange Markets
  12.2.1 The Over-the-Counter Market
  12.2.2 A Worldwide Market
  12.2.3 Online Trading
12.2.4 Centralization of the Market 321
12.2.5 Retail Currency Exchange 322
12.3 The Supply and Demand Model of Foreign Exchange 323
12.3.1 A Simple Example of a Foreign Exchange Market 323
12.3.2 Arbitrage Integrates Markets 325
12.3.3 Triangular Arbitrage 327
12.3.4 An Example of Triangular Arbitrage 327
12.4 Effective Exchange Rates 329
12.4.1 The Effective Value of a Currency 329
12.4.2 Recent Behavior of Effective Exchange Rates 329
12.5 Intertemporal Arbitrage and the Interest Parity Condition 331
12.5.1 Intertemporal Arbitrage 331
12.5.2 A Simple Example of Intertemporal Arbitrage 331
12.5.3 The Covered Interest Parity Condition 332
12.5.4 A More General Form of the Interest Parity Condition 333
12.5.5 An Exercise in Interest Parity 334
12.5.6 Further Evidence on Interest Parity 335
12.5.7 A Modern Case Study of Expectations: The Carry Trade 336
12.5.8 Exchange Rate Futures 337
12.6 Explaining the $4 Trillion Per Day Volume 338
12.6.1 Arbitrage Trades 338
12.6.2 Hot Potato Process 338
12.6.3 Explaining the $5 Trillion Daily Volume 339
12.7 Summary and Conclusions 339
Chapter Summary 340
Key Terms and Concepts 341
Problems and Questions 341
Notes 342

13 International Banking and Financial Markets 343
13.1 Stocks and Flows in International Finance 344
13.1.1 The Net International Investment Position 344
13.1.2 From the Balance of Payments to the Net Investment Position 344
13.1.3 Asset Stocks and Asset Returns 346
13.1.4 Is the Growth of the Net Investment Deficit Sustainable? 347
13.2 The Growth of International Banking 347
13.2.1 Shifts in the Ranks of the Transnational Financial Firms 347
13.2.2 The Eurocurrency Markets 349
13.3 Portfolio Investment 351
13.3.1 Defining Portfolio Investment 351
13.3.2 International Equity Markets 351
13.3.3 American Depository Receipts 352
13.3.4 Some Unintended Consequences of the Globalization of Financial Markets 352
13.4 Financial Innovation 353
13.4.1 The International Marketing of U.S. Collateralized Debt Obligations 353
13.4.2 Credit Default Swaps Insured the CDOs 354
13.5 Deregulation and Financial Fraud 355
13.5.1 The Glass–Steagall Act 355
13.5.2 Globalization and Financial Deregulation 356
13.5.3 The Great Monetary Expansion 356
13.5.4 Financial Crisis to Recession 357
13.5.5 Summary 358
CONTENTS

13.6 Financial Instability
  13.6.1 Neoclassical Analysis Cannot Explain Crises 359
  13.6.2 Back to Keynes 360
  13.6.3 The Separation of Finance and Investment 362
  13.6.4 Minsky's Three Categories of Finance 363
  13.6.5 The Financial Instability Hypothesis 364
  13.6.6 Back to the 2007–2009 Financial Collapse 365

13.7 Conclusions and Final Comments 366
Chapter Summary 366
Key Terms and Concepts 367
Problems and Questions 368
Notes 369

14 Exchange Rate Crises 370

14.1 The Economics of Exchange Rate Crises 370
  14.1.1 Fixing the Exchange Rate under Rational Expectations 371
  14.1.2 Using Intervention to Stabilize the Exchange Rate 371
  14.1.3 Intervention Is Not a Long-Run Tool 372

14.2 Fixed Exchange Rates and Economic Crises 374
  14.2.1 Policy Choices 374
  14.2.2 The Options When Policy Independence Is the Priority 374
  14.2.3 Two Dilemmas Equal One Trilemma 375

14.3 The 1982 Debt Crisis 376
  14.3.1 Recycling Petrodollars 376
  14.3.2 The Macroeconomics of International Financial Flows 377
  14.3.3 What Changed in 1982? 378
  14.3.4 Dealing with the 1982 Debt Crisis 380
  14.3.5 The Three Sides of the Negotiations 381
  14.3.6 The Role of the International Monetary Fund 382

14.4 Further Foreign Exchange Crises 383
  14.4.1 The Mexican Peso Crisis in 1994 383
  14.4.2 The Asian Crisis of 1997 385
  14.4.3 The Russian Crisis 386
  14.4.4 Common Threads in 1990s Exchange Rate Crises 387
  14.4.5 Exchange Rate Crises Are Very Damaging 387

14.5 Brazil's 2004 Tightrope Walk 388
  14.5.1 Sustainability of Public Sector Debt 389
  14.5.2 Tracing Brazil's Public Sector Debt 390

14.6 Conclusions 391
Chapter Summary 393
Key Terms and Concepts 394
Problems and Questions 395

PART V THE HISTORY OF THE INTERNATIONAL MONETARY SYSTEM 397

15 Early Monetary History: Ancient Times Through the End of the Gold Standard 399

15.1 The Emergence of Modern Money 399
  15.1.1 Finance and Debt Came Before Money 400
  15.1.2 The Development of Physical Representations of Money 401
CONTENTS

16.2.2 Exchange Rate Volatility 440
16.2.3 The Plaza Accord 441
16.2.4 The Bretton Woods Institutions 442
16.2.5 Evaluating the Post-Bretton Woods Period 442

16.3 The Euro 444
16.3.1 The Early Steps toward Economic Union 444
16.3.2 Enlarging the EEC 445
16.3.3 The EEC and the Collapse of Bretton Woods 446
16.3.4 The Trilemma Again! 446
16.3.5 Establishing the Monetary Union 448
16.3.6 Further Expansion of the European Union 449
16.3.7 Trade Effects of the European Monetary Union (EMU) 449
16.3.8 Fiscal Policy in the European Union Countries: Some Potential Problems 450
16.3.9 Financial Instability in Europe: The Greek Crisis 450

16.4 Some Tentative Conclusions 454
Chapter Summary 456
Key Terms and Concepts 457
Problems and Questions 458
Notes 458

17 Another Bretton Woods Conference? 459

17.1 Economic Instability 460
17.1.1 Inflation 460
17.1.2 Developing Countries’ Accumulation of Dollar Reserves 461

17.2 To Fix or to Float? 462
17.2.1 The Case for Pegged Exchange Rates 462
17.2.2 The Case for Floating Exchange Rates 463
17.2.3 So, Which Exchange Rate Regime Provides a Higher Living Standard? 463
17.2.4 The Historical Context of Today’s Regime Choices 464
17.2.5 Why the Reluctant Fiscal Response? 465

17.3 Modern Money Theory 466
17.3.1 Personal Debt versus Aggregate Debt 467
17.3.2 A Simple Example of a Monetary Free Lunch 467
17.3.3 The Fallacy of Composition 468
17.3.4 Summarizing Modern Money Theory 470
17.3.5 MMT and the Case for Flexible Exchange Rates 471

17.4 Restoring Financial Regulation and Oversight 472
17.4.1 Do We Need a New Bretton Woods Conference? 473
17.4.2 Keynes’ Bancor 473
17.4.3 An International Bankruptcy Court? 475
17.4.4 Some New Proposals 475
17.4.5 Alternative Monetary Regimes: Islamic Finance 477

17.5 Some Conclusions and Predictions 478
Chapter Summary 480
Key Terms and Concepts 482
Problems and Questions 482
Notes 483
PART VI IMMIGRATION

18 Immigration: The International Movement of People

18.1 International Migration
   18.1.1 Early Migrations
   18.1.2 Recent Immigration
   18.1.3 Why Do People Immigrate?
   18.1.4 Many Types of Immigrants

18.2 A Labor Market Model of Immigration
   18.2.1 Who Gains from Immigration?
   18.2.2 The Effect of Immigration on Domestic Product Demand
   18.2.3 Immigrant Remittances
   18.2.4 Externalities in the Destination Country
   18.2.5 The Costs of Government Services for Immigrants
   18.2.6 Are U.S. Immigrants More Costly Today Than in the Past?
   18.2.7 Tentative Conclusions from the Static Supply and Demand Model

18.3 Immigration's Long-Run Effects on Economic Growth
   18.3.1 Immigration's Dynamic Effects
   18.3.2 The Brain Drain
   18.3.3 Can Remittances Mitigate the Brain Drain?
