Introduction xix
   Aim xix
   Rationale xix
   Key issues and success factors in e-retailing xx

1 The world of e-retailing 1
   What is e-retail? 2
   Disadvantages of e-retailing for retailers 5
   Advantages of e-retailing for retailers 7
   The (E-) retail mix: sale the seven Cs 8
   Growth and prospects for e-retailing 20
   Conclusions 22

2 The business of e-retailing in practice 33
   What are the main e-retail product categories? 34
   Home electronics 36
   Amazon and Argos 36
   Books 37
   Music 39
   Video 44
   Digital piracy 46
   Groceries 47
   Online grocers 48
   Clothing and footwear 50
   Conclusions 60
### CONTENTS

#### 3 Integration of e-retailing into an organisation

- **Introduction**
- Why traditional retailers adopt e-retail
- Strategies for integration
- Loyalty-based integration strategies
- Switching barriers and switching costs
- Implementation: change management and resource implications
- **Conclusions**

#### 4 Understanding and communicating with the e-consumer

- **Introduction**
- Understanding e-consumer behaviour
- The perceived risk of e-shopping
- Introducing e-shoppers
- What does e-shopping offer the e-shopper?
- Disadvantages and advantages of e-shopping for consumers
- Social and experiential aspects of e-shopping
- Differences between male and female shopping styles
- Electronic word-of-mouth (eWOM) and e-reviews
- Consumer satisfaction: 'bricks' and 'clicks' shopping compared
- The communications mix for the e-retailer
- **Conclusions**

#### 5 Information search on the web

- 'Clicks' and 'bricks'
- The background to searching the internet and the web
- Surveys on what people do and where people 'go' on the web
- Searching and finding on the web
- The average web session
- Focus
- Directories
- Search engines
- Monitoring the use of your webpages
- **Conclusions**

#### 6 E-store design navigability, interactivity and web atmospherics

- What is e-store design?
- The purpose and scope of e-store design
- Why is store design more important for e-retailers?
- Start e-store design with navigability
- Progress to interactivity
- Building e-relationships through interactivity
- Enhancements through web atmospherics
All together for an integrated approach to e-store design 172
The role of objectives and strategy in guiding e-store design 174
Conclusions 174

7 E-service 183
E-service as the fourth stage of e-commerce development 184
Three approaches to e-services 185
A second taxonomy of e-services 189
The self-service myth 189
E-service performance 192
A critical incident approach to e-service performance 192
E-service metrics: a management tool 197
E-retail service quality: an alternative performance metric 199
Additional guidance on practical e-service provision 202
Conclusions 202

8 Branding on the web 210
Introduction 211
Branding in conventional retailing 212
Different approaches to branding on the web 212
Branding as hype: the narrow meaning 213
E-brand development I: start with the brand concept 214
E-brand development II: build the brand platform 215
E-brand development III: implement through the brand elements 216
E-brand development IV: the special role of interactivity and trust in building strong e-brands 216
The role of the e-retail mix in branding 220
What is the overall e-retail offer? 222
A framework for choosing an optimal e-retail offer 222
Brand innovation on social media 223
Conclusions 224

9 E-mails 229
Introduction 230
Conventional (bricks) malls 231
Lessons from conventional malls for online malls 233
Multiple category e-retailers 234
Shopping bots: intelligent shopper assistants or virtual mall? 235
Virtual reality mall 236
Portals and other quasi e-malls 237
E-mails as ports of entry for newly started businesses: the tenant perspective 237
Conclusions 238
