DETAILED CONTENTS

Preface xx
Acknowledgments xxiii
About the Authors xxv

PART I: INTRODUCTION

Chapter 1: Introduction to Managing Global Operations and Supply Chains, 1

Operations Profile: Intel Uses Quality Control to Achieve World Domination, 1
Supply Chains and Operations Management in the Global Economy, 2
Offshoring and Outsourcing, 2
Globalization, Supply Chains, and Operations Management, 3
Consider This 1.1: Is American Manufacturing Dead?, 4
What Does Operations Management Entail?, 4
Consider This 1.2: Why You Should Consider a Career in Operations and Supply Chain Management, 5
Consider This 1.3: Service Operations in India, 9
What Does Supply Chain Management Entail?, 10
Supply Chain Structures and Partners, 11
First-Tier Suppliers, 11
Operations Profile: Zara: Bringing Speed to Fashion Through Supply Chain Management, 12
Second-Tier Suppliers, 12
Inbound and Outbound Storage, 12
Operations Profile: Lessons Learned: Apple Puts All Its Eggs in One (Very Expensive) Basket, 13
Wholesalers and Retailers, 13
Final Consumers, 13
An Integrated Perspective on Operations and Supply Chain Management, 14
Decisions in Operations and Supply Chain Management, 14
Operations Interfaces in a Product Supply Chain, 14
Operations Interfaces in a Service Supply Chain, 16
The Evolution of Operations and Supply Chain Management, 17
Current and Emerging Issues in Operations and Supply Chain Management, 19
The Continuous Optimization of Resources, 19
Greater Supply Chain Risks and Supply Chain Restructuring, 20
Sustainability, 20
Road Map: How This Text Is Organized, 22
Chapter Summary, 22
Key Terms, 23
Discussion and Review Questions, 23
Problems, 23
Case Study 1.1: Multinational Companies and China: Investing for the Long Term, 24
Case Study 1.2: Nintendo’s Wii and Wii U: Absence Makes the Heart Grow Fonder, 25
Video Case, 26
Critical Thinking Exercises, 26

PART II: STRATEGIC DECISIONS

Chapter 2: Operations and Supply Chain Strategies, 28

Operations Profile: Pfizer’s Revamped Supply Chain Strategy Saves the Company Millions, 29
Levels of Strategic Planning, 29
Corporate Strategy, 30
Business-Unit Strategies, 32
Functional Strategies, 32
Formulating and Evaluating Operations Strategies, 32
Critical Elements of an Operations Strategy, 33
Maintaining the Fit Among Critical Elements, 38
Strategic Structural and Infrastructural Decisions, 38
Evaluating the Performance of an Operations Strategy, 39
Formulating and Evaluating Strategies for Service Organizations, 42
Strategic Positioning, 42
Formulating the Service Operations Strategy, 42
Tactical Execution, 44
Continuous Service Improvement, 44
Measuring Productivity as Part of Strategic Planning, 44
Types of Productivity Measures and Their Uses, 45
Factors Affecting Productivity, 46
Steps to Improving Productivity, 46
Measuring Productivity in the Service Sector, 47
Operations Profile: Lessons Learned: Bigger Ships, More Cargo, Bigger Headaches!, 48
Strategies for Supply Chains, 49
Chapter 6: Quality Improvement and Control Tools, 194

Operations Profile: Using Technology to Improve the Quality of Helicopter Rescue, 195
Quality Appraisal Tools, 196
Check Sheets, 196
Histograms, 197
Pareto Charts, 197
Scatter Diagrams, 197
Cause-and-Effect Diagrams (Fishbone Diagrams), 198
Process Flowcharts, 199

Quality Defect Prevention Tools, 199
Statistical Process Control (SPC), 199
Control Charts, 201
Process Capability Analysis, 217
Revisiting Six Sigma: Calculating Six Sigma Quality of a Process, 221

Quality Design Tools, 222
The Taguchi Method (Robust Design), 222
Chapter Summary, 225
Key Terms, 226
Discussion and Review Questions, 226
Solved Problems, 226
Problems, 235
Case Study 6.1: J.D. Power Automobile Surveys: What Does “Quality” Mean, Anyway?, 241
Video Case, 241
Critical Thinking Exercises, 242

Chapter 7: Capacity Planning, 244

Operations Profile: Missoni for Target: Too Popular, Too Soon, 245
Capacity Planning, 246
The Strategic Importance of Capacity Decisions, 247
Types of Capacity and Capacity Measurements, 248
Strategies for Capacity Planning, 249
The Capacity Planning Process, 250
Service Capacity Planning, 253
Factors Influencing Service Capacity, 254
Capacity Planning for Services, 254
Capacity Planning for Supply Chains, 256
Demand Uncertainty, 256

Operations Management: Lessons Learned: Pratt and Whitney Battles Capacity and Supply Chain Problems for a New Jet Engine, 257
Technological Uncertainty, 257
Supply Uncertainty, 258

A Framework for Strategic Supply Chain Capacity Planning, 258
Ethical and Sustainability Issues, 260
Global Capacity Management, 261

Consider This 7.1: Working to End Child Labor, 262
Chapter Summary, 262
Key Terms, 263
Discussion and Review Questions, 263
Solved Problems, 263
Problems, 264
Case Study 7.1: Kirwain's Capacity Planning Challenge, 266
Video Case, 266
Critical Thinking Exercises, 267

Chapter 8: Supply Chain Design and Location Planning, 268

Operations Profile: Mexico, the Next Great Automaker, 269
Supply Chain Design and Facility Location Decisions, 270
Factors That Affect Supply Chain and Location Decisions, 270
Competitive Strategies That Affect Supply Chain and Location Decisions, 271
Why Supply Chain and Location Decisions Sometimes Backfire, 273
Phases in the Supply Chain Design and Location Decision-Making Process, 274
Phase I: Design the Supply Chain, 274
Phase II: Determine the Configuration of Regional Facilities, 274
Phase III: Select Potential Sites for Locating Facilities, 275
Phase IV: Choose Locations, 275
Analytical Methods for Evaluating Locations, 277
The Factor Rating Method, 277
Breakeven Analysis, 278
The Center-of-Gravity Method, 280
The GIS (Geographic Information System) Method, 281

Consider This 8.1: GIS and Location Decisions, 282
Ethical and Sustainability Issues, 282
Global Location Planning, 283

Chapter Summary, 284
Key Terms, 285
Discussion and Review Questions, 285
Solved Problems, 285
Problems, 288
Case Study 8.1: Countering the Counterfeiters, 293
Video Case, 294
Critical Thinking Exercises, 294
Chapter 9: Process Design and Layout Planning, 296

Operations Profile: Process Redesign at Mars: Moving Toward Sustainability and Social Responsibility, 297

Designing, Selecting, and Redesigning Manufacturing Processes, 298
  Basic Process Types, 298
  Mass Customization Processes, 299
  Process Selection Decisions, 301

Designing Service Processes, 306
  Classifying Processes Within the Service Process Design Matrix, 306
  Positioning and Repositioning Processes Within the Service Process Design Matrix, 307
  Using Technology to Improve Service Processes, 308

Designing Processes for Supply Chains, 309
  Classifying Manufacturing Processes by the Degree of Product Customization, 309
  Mapping Manufacturing Methods Across Supply Chains, 310

Global Process Design, 312
  Layout Planning, 313
    The Strategic Nature of Layout Decisions, 313
    Basic Types of Layouts, 313

Operations Management: Lessons Learned: Boeing and “The Move to the Lake”, 316
  Other Types of Layouts, 316

Legal, Ethical, and Sustainability Issues, 320
  Chapter Summary, 322
  Key Terms, 323
  Discussion and Review Questions, 323
  Problems, 324
  Case Study 9.1: Sustainable Food Development: The Future Is Looking Up, 324
    Video Case, 325
    Critical Thinking Exercises, 325

Chapter 9 Supplement: Tools for Analyzing, Designing, and Selecting Processes and Layouts, 326

Operations Profile: Relieving Congestion at St. Francis Hospital, 327

Process Selection, Design, and Analysis Tools, 327
  Tools for Process Selection, 327
  Tools for Process Analysis and Design, 329
  Assembly Drawings and Charts and Route Sheets, 329
  Value Stream Maps and Process Simulations, 330
  Tools for Analyzing Service Processes, 331

Layout Analysis Tools and Techniques, 333
  Techniques for Designing Process Layouts, 333
  Technique for Designing Product Layouts: Line Balancing, 337
  Computer Software for Designing Process Layouts, 343
  Supplement Summary, 344
  Key Terms, 345
  Discussion and Review Questions, 345
  Solved Problems, 345
  Problems, 352
  Critical Thinking Exercises, 356

PART III: INTEGRATIVE DECISIONS

Chapter 10: Supplier Management, 358

Operations Profile: Factory Fires: Fixing the Garment Supplier Pipeline, 359

Supplier Management and Its Goals, 360
  Meeting Quality Standards, 360
  Making Deliveries on Time, 360
  Minimizing Costs, 361

Operations Management: Lessons Learned: “Do You Want Fries With That?” Supplier Management Problems Lead to Horse Meat in Hamburgers, 362
  Developing Better Products and Processes, 362
  The Supplier Management Process, 362
  Strategic Sourcing, 363
  Purchasing, 371
  Supplier Performance Management, 372

Operations Profile: Coca-Cola: Managing an Orange’s Journey to the Customer, 374
  Supplier Information Management, 374
  Supplier Risk Management, 375
  Supplier Relationship Management (SRM), 376
  Supplier Phase Out, 376
  Managing Service Providers, 376
    Sourcing Service Providers, 377
    Service Provider Risk Management, 377
    Service Provider Performance and Relationship Management, 377

Global Supplier Management, 378
  Have a Backup Pool of Suppliers, 378
  Choose Suppliers From Countries That Have Better Laws and Regulations and Infrastructures, 379
  Establish Collaborative Relationships With Global Suppliers, 379
  Use Technology for Greater Supplier Visibility, 379
The Characteristics of Good Forecasts, 438
Qualitative Versus Quantitative Forecasting Methods, 439
  Qualitative Methods, 439
  Quantitative Methods, 440
  Types of Quantitative Methods: Time Series Forecasting, 441
  Short-Term Time Series Forecasting Methods, 442
Operations Profile: Using Forecasting to Solve Hospital Staffing Challenges, 450
  Medium- to Long-Term Time Series Forecasting Methods, 450
  Techniques for Evaluating Cyclical Variations, 460
  Types of Quantitative Methods: Causal or Associative Methods, 460
Measuring and Monitoring the Accuracy of Forecasting Methods, 465
  Mean Absolute Deviation (MAD), 465
  Cumulative Sum Error (CSE) and Bias, 465
  Mean Squared Error (MSE), 465
  Mean Absolute Percentage Error (MAPE), 465
Monitoring and Controlling Forecasts, 467
Forecasting for Supply Chains, 469
Consider This 13.1: Forecasting Using Excel, 470
Ethical Issues, 471
  Chapter Summary, 473
  Key Terms, 473
  Discussion and Review Questions, 474
  Solved Problems, 474
  Problems, 488
  Case Study 13.1: Forecasting Ticket Demand for the Super Bowl, 496
  Case Study 13.2: Ethical Forecasting: If You Torture the Numbers Long Enough, They Can Tell You Anything!, 497
  Video Case, 498
  Critical Thinking Exercises, 498

PART IV: TACTICAL DECISIONS

Chapter 14: Lean Operations and Supply Chains, 500

Operations Profile: Lean Operations at Rolls-Royce Indianapolis, 501
Introduction to Lean Operations, 502
The Philosophy of Lean Systems, 503
Elements of Lean Systems, 504
  Workflow and Throughput, 505
  Pull Systems Versus Push Systems, 505
  Focused Factories, 505
  Value Stream Mapping (VSM), 506
  Quality and Lean Systems, 507

Chapter 15: Inventory Management, 532

Operations Profile: Best Buy Moves Inventory Control to Its 1,000 Warehouses, 533
Types of Inventory, 534
Inventory Costs, 534
  Purchase Costs and Ordering Costs, 534
  Setup Costs, 534
Chapter 16: Inventory Control Models, 558

Operations Profile: Walgreens Fights to Stay Profitable Through Inventory Management, 559
Introduction, 560
How Much to Order: Continuous Review Systems, 560
Basic Economic Order Quantity (EOQ) Model, 560
Economic Production Quantity (EPQ) Model, 565
EOQ Model with Quantity Discounts, 569
When to Order: Reorder Point for Continuous Review Systems (EOQ Model), 575

Operations Management: Lessons Learned: Inventory Mismanagement Helps Sink Target Canada, 576
Reorder Point Model for Constant Demand and Constant Lead Time, 575
Reorder Point Model for Variable Demand and Constant Lead Time, 577
Reorder Point Model for Constant Demand and Variable Lead Time, 580
Reorder Point Model for Variable Demand and Variable Lead Time, 582

How Much to Order: Periodic Review Systems, 582
How Much to Order: Single-Period Inventory Systems, 585
Chapter Summary, 587
Key Terms, 588
Discussion and Review Questions, 588
Solved Problems, 588
Problems, 594
Case Study 16.1: When Your Customers Steer You Wrong: Wal-Mart's Project Impact Disaster, 597
Video case, 598
Critical Thinking Exercises, 598

Chapter 17: Sales and Operations Planning, 600

Operations Profile: Black Friday Shopping in the United States Slips Into the Thanksgiving Holiday, 601
The Basics of Sales and Operations Planning, 602
Benefits of Sales and Operations Planning, 603
Sales and Operations Plan: Inputs and Outputs, 604
Framework of the Sales and Operations Planning Process, 605
Data Gathering, 605
Demand Planning, 606

Supply Planning, 607

Chapter 16: Inventory Control Models, 558

Operations Profile: Walgreens Fights to Stay Profitable Through Inventory Management, 559
Introduction, 560
How Much to Order: Continuous Review Systems, 560
Basic Economic Order Quantity (EOQ) Model, 560
Economic Production Quantity (EPQ) Model, 565
EOQ Model with Quantity Discounts, 569
When to Order: Reorder Point for Continuous Review Systems (EOQ Model), 575

Operations Management: Lessons Learned: Inventory Mismanagement Helps Sink Target Canada, 576
Reorder Point Model for Constant Demand and Constant Lead Time, 575
Reorder Point Model for Variable Demand and Constant Lead Time, 577
Reorder Point Model for Constant Demand and Variable Lead Time, 580
Reorder Point Model for Variable Demand and Variable Lead Time, 582

How Much to Order: Periodic Review Systems, 582
How Much to Order: Single-Period Inventory Systems, 585
Chapter Summary, 587
Key Terms, 588
Discussion and Review Questions, 588
Solved Problems, 588
Problems, 594
Case Study 16.1: When Your Customers Steer You Wrong: Wal-Mart's Project Impact Disaster, 597
Video case, 598
Critical Thinking Exercises, 598

Chapter 17: Sales and Operations Planning, 600

Operations Profile: Black Friday Shopping in the United States Slips Into the Thanksgiving Holiday, 601
The Basics of Sales and Operations Planning, 602
Benefits of Sales and Operations Planning, 603
Sales and Operations Plan: Inputs and Outputs, 604
Framework of the Sales and Operations Planning Process, 605
Data Gathering, 605
Demand Planning, 606

Supply Planning, 607
PART V: OPERATIONAL DECISIONS

Chapter 18: Master Scheduling and Material Requirements Planning, 640

Operations Profile: Managing Materials and Production at Rolls-Royce, 641

Master Scheduling, 642
  Master Scheduling Inputs, Processing, and Outputs, 643
  Functions of the Master Schedule, 646

Operations Profile: Callaway Golf Uses ERP to Keep Swinging, 685

Capacity Requirements Planning (CRP), 686
Manufacturing Resource Planning (MRP II)—An Extension of MRP, 689
Enterprise Resource Planning (ERP), 690

Operations Profile: Electronic Medical Records Bring Together Patients and Their Health Care Providers, 691
  Benefits and Limitations of ERP, 693
  ERP for Service Industries, 693

Impact of MRP, MRP II, and ERP on Supply Chains, 693

Operations Management: Lessons Learned: Surviving an ERP System Disaster, 694

Distribution Requirements Planning (DRP), 695

Sustainability Issues, 696
  Supplement Summary, 697
  Key Terms, 698
  Discussion and Review Questions, 698
  Solved Problem, 698
  Problems, 699
  Video Case, 698
  Critical Thinking Exercises, 700

Chapter 18 Supplement: Capacity Requirements Planning, MRP II, ERP, and DRP, 684
