Skills Matter

FURTHER RESULTS
FROM THE SURVEY OF ADULT SKILLS
Table of Contents

READER'S GUIDE ........................................................................................................................................................................... 13
EXECUTIVE SUMMARY ........................................................................................................................................................................ 17

CHAPTER 1 OVERVIEW: WHY SKILLS MATTER ............................................................................................................................ 19
Proficiency in information-processing skills among adults ........................................................................................................ 23
Proficiency and socio-demographic characteristics ................................................................................................................ 24
Information-processing skills and well-being ............................................................................................................................. 26
Information-processing skills and the labour market .................................................................................................................. 26
  • Proficiency in information-processing skills and labour market outcomes .................................................................................... 26
  • Mismatches of qualifications and skills .................................................................................................................................. 29

CHAPTER 2 ADULTS’ PROFICIENCY IN KEY INFORMATION-PROCESSING SKILLS ........................................................................ 33
Reporting the results ........................................................................................................................................................................... 37
Proficiency in literacy ........................................................................................................................................................................ 38
  • Levels of literacy proficiency across countries and economies ................................................................................................... 39
  • Literacy-related non-response ................................................................................................................................................. 42
Reading components .......................................................................................................................................................................... 42
Distribution of proficiency scores across countries and economies ........................................................................................................ 44
  • Mean proficiency scores in literacy ........................................................................................................................................ 44
  • Variation of proficiency scores within countries/economies ....................................................................................................... 46
Proficiency in numeracy ....................................................................................................................................................................... 48
  • Levels of numeracy proficiency across countries/economies .................................................................................................... 48
  • Literacy-related non-response ................................................................................................................................................. 50
Distribution of proficiency scores across countries/economies ........................................................................................................ 50
  • Mean proficiency scores in numeracy ........................................................................................................................................ 50
  • Variation of proficiency scores within countries and economies .................................................................................................. 52
Proficiency in problem solving in technology-rich environments ............................................................................................ 53
  • Levels of proficiency in problem solving in technology-rich environments across countries and economies ....... 54
  • The proportion of adults without basic ICT skills .......................................................................................................................... 54
The relationship among the three proficiencies ................................................................................................................................. 56
Comparison of the results from the Survey of Adult Skills with those of previous surveys ................................................................. 59
Summarising performance across countries and economies ........................................................................................................... 61
Summary ............................................................................................................................................................................................. 63

CHAPTER 3 THE SOCIO-DEMOGRAPHIC DISTRIBUTION OF KEY INFORMATION-PROCESSING SKILLS ............................................. 67
Overview of socio-demographic differences in proficiency ........................................................................................................... 68
Differences in skills proficiency related to educational attainment .................................................................................................... 70
  • Proficiency in literacy and numeracy among low- and high-educated adults ............................................................................... 70
  • Proficiency in problem solving in technology-rich environments among low- and high-educated adults ................................ 72
  • Skills and education among younger adults ................................................................................................................................ 73
Differences in skills proficiency related to age .................................................................................................................................. 75
  • Proficiency in literacy and numeracy among older and younger adults .......................................................................................... 77
  • Proficiency in problem solving in technology-rich environments among older and younger adults .............................................. 79
Differences in skills proficiency related to gender

- Proficiency in literacy and numeracy among men and women
- Proficiency in problem solving in technology-rich environments among men and women

Differences in skills proficiency related to country of origin and language

- Proficiency in literacy among native- and foreign-born adults
- Proficiency in problem solving in technology-rich environments among native- and foreign-born adults

Differences in skills proficiency related to socio-economic background

- Proficiency in literacy among adults with high- and low-educated parents

Adults with low proficiency

Summary

CHAPTER 4 HOW SKILLS ARE USED IN THE WORKPLACE

Measuring skills use in the workplace and in everyday life

Levels of skills use in the workplace and in everyday life

Why skills use at work matters

- Skills use, wages and job satisfaction
- Skills use and productivity

The link between proficiency and use of information-processing skills

The variation of skills use at work

The distribution of skills use, by workers' gender, age and educational attainment

- Gender
- Age
- Educational attainment

The demand side: How firm and job characteristics influence skills use

- Industry, firm size and sector
- Type of contract
- Work organisation

Summary

CHAPTER 5 THE OUTCOMES OF INVESTMENT IN SKILLS

Skills proficiency, labour market status and wages

- Proficiency and employment
- Literacy proficiency, education and employment
- Proficiency and wages
- Literacy proficiency, education and wages

Mismatch between workers' skills and job requirements, and its impact on wages

- Mismatch in the Survey of Adult Skills
- Overlap between skills, field-of-study and qualifications mismatch
- How mismatch interacts with proficiency and other individual and job characteristics
- The effect of mismatch on wages

Skills and non-economic outcomes

- Trust
- Volunteering
- Political efficacy
- Health
